WANTED—A Democratic candidate for President who can carry New York.

The "Brigadiers" are making preparations to "roast a little later" when Congress assembles next month.

The Philadelphia Times thinks there must be an immense Democratic majority up Salt river.

Don't the Democrats wish they had forced that extra session of Congress?

The Syracuse Journal says the Democracy resembles the earth, because it is a little flattened at the poles.

GREVILLE is the first Republican Sheriff ever elected in Cambria county, and he is elected with a majority of four hundred and eighty-four.

Who "frowd dat brick" among the Democracy of Westmoreland county? Hunter, (Rep.), was elected Judge by a majority of over a thousand.

The United States Government has nearly a quarter of a million of pensioners—244,548 on June 30th last—\$30,000,000 being required annually for their payment.

Last year the Greenback vote in this State was twelve per cent of the whole, this year it has diminished down to five per cent.—where is dat bardy now?

INDIANA is now the only doubtful Northern State, and as we have enough without her, Republicans are not caring much whether "school keeps" there or not.

DISPATCHES from India say that the indigo crop has fallen off about one-half as compared with last year. It fell off. All the washwomen have to do is to dip a Democrat into their rinse water and it will be blue enough.

It has come to be a proverb that no President was ever elected without the vote of the State of Pennsylvania. In the light of this and true saying, what are the Democratic chances next year in the face of a majority of 53,000 against them?

A DAY or two before the late election, the Harrisburg Patriot printed a table of estimated majorities in this State, which figured up a Democratic majority of 5,300.

BERKSIDE, the Democratic candidate who murdered his opponent by shooting him in the back, has been elected Sheriff of Yazo county, Mississippi. Is there any other party in the world that would have elected a bloody-handed assassin to office?

The late elections have been what lawyers call a judgment of ouster against the following U. S. Senators: Eaton of Connecticut; Rusdolph of New Jersey; Kernan of New York; Thurman of Ohio, and Wallace of Pennsylvania. Also against Bruce, Republican of Mississippi.

IOWA gives her Republican candidate for Governor a plurality of 12,000 votes. Last year it was only 8,400 and some of the chick-rear Democrats were speaking of her as one of the doubtful States.

The Democrats are now trying to persuade themselves that they can carry New York next year with Horatio Seymour. We judge that Seymour, like the Southern rebel, is satisfied with the one thing he did give him.

WHEN the Democrats thought, immediately after the elections, that they had elected Clarkson N. Potter, Lieutenant Governor of New York, he at once commenced boasting him up as a candidate for President.

GOVERNOR CROSSWELL of Michigan has appointed Hon. F. C. Beaman as United States Senator to fill the vacancy occasioned by the death of Senator Chandler. Mr. Beaman is reputed an excellent lawyer, and is at present acting as Judge of one of the local courts. He served two terms in Congress, being elected in 1870, and as his predecessor in the Senate, "Old Zach" is a Republican of the stalwart stripe.

THE \$8,000 majority for Butler in this State has most effectively asphalted a couple of Democratic aspirants for Vice President. Wallace and Randall were both setting up the plan for that office previous to the late election, but the job of dragging them out from under the avalanche is too herculean to be undertaken by their respective friends.

The cockerets of the Democratic party, who last week crowed so loudly, that New York was Democratic except for Governor, and that we elected Cornell, only because of the divisions in their ranks, will now have to roost lower. The Republicans have made a clean sweep of all the State offices except State Engineer, by majorities ranging from three thousand to eight thousand. Corseil for Governor is elected by a plurality of over 40,000, and all the other State offices, where the vote of the Democracy was solidly polled against them, are elected by decided majorities, thus proving clearly that the Democracy was carried against the United Democratic vote, and may safely be counted for the Republicans in the great battle of 1880.

VIRGINIA THE "Mother of Presidents," has claimed her fair fame by voting at the late elections for re-election of her State debt.

The Quakers of Chester county apparently know a good man when they come across him. The usual Republican majority of that county is about two thousand, but this year they gave "fried Samuel"—Butler a majority of three thousand two hundred and thirty-five.

The Chicago Daily News conceived the brilliant idea of securing from the Governors of various States and prominent Southern men congratulations on General Grant's return, and received a number of such congratulations, including one from Alexander H. Stephens, another from General James Longstreet, and the following from Hon. Robert Toombs, all of which were published on the morning of General Grant's reception in Chicago:

ATLANTA, Ga., November 20.—Your telegram is received and I am glad to hear that the people of this country have elected you President. It is a source of pride to me that you should be elected by the American people. Your country's honor and yours are one and the same.

Texas is an old backslider who probably speaks the sentiments of the South, but there is less danger in his idiotic rant than in the putting professions of loyalty to the Union made by Hays, Butler, Lamar and other Democratic leaders, who have no word of censure for the red shirt assassins, cowardly murderers and ballot box stuffers whom they obtained office and make the State solid in its attitude against the Union.

LIVE and a quarter million acres of public lands were sold to settlers during the past year, being an increase of more than 500,000 acres over the twelve months before. These figures afford some explanation of our present prosperity, and are full of promise for the future.

The tide of European immigration seems to have set strongly in the direction of Texas. Another vessel sailed from Liverpool to New Orleans this week, having on board 120 passengers, nearly all of whom are bound for the Lone Star State. Most of them were farmers with families, who bring with them money enough to buy a farm, and have experience enough to work it profitably. We cannot have too many such settlers.

THE party can win next year with Grant, and so it can with Blaine, Sherman, or a half dozen others who might be named. It will win upon the position it occupies on the two leading issues, that is, the Southern question and the financial question. The man who is nominated must sound upon these questions, and upon them command the confidence of Republicans throughout the Nation.

Reunion of the Army of the Tennessee at Chicago.

Enthusiastic Reception of Grant—He Affirms that This is a Nation With a Big N.

CHICAGO, November 12.—This morning, which has long been looked for as the inauguration day of unusual festivities attending the annual meeting of the Army of the Tennessee, opened with a dull sky, and up to eight o'clock the rain fell in brisk showers. Along towards noon, however, the sky became brighter, and the sun came out at times, making the prospect more favorable for the proceeding.

for, nothing for me to do but to convey my thanks to this committee of the citizens of the city for the hearty reception which they have given me on my arrival here.

I felt that it was a tribute to our country. I will add further that our country stands differently abroad in the estimation of the European and American citizen regarded in a different light from the American citizen a quarter of a century ago.

At that time it was believed we had no nation, but were merely a confederation of States, then created by a pope of sand, which would give way upon the slightest strain. They have found it was a grand mistake. They know we have now a nation; that we are a nation of strong and intelligent people, capable of doing as well as any people on earth.

The area of our country, its fertility, the energy and resources of our people, with the sparsity of our population compared with other nations, promise for our posterity, as some when our descendants will have considered the question of how the soil is to support them, how the most can be produced to support human life without reference to the taste or desire of the present generation.

want cash they get cash. They have been paying 15 to 18 cents a pound for Glade according to quality but now they would go for 15 to 20 cents a pound, if the prices would only slip. But the trouble is the farmer will promise a dairy to the Washington butter man at say 20 cents and these "other fellows" come around and give 22 and get the butter. I said you don't you fellows get some other fellows to go around and raise on the "other fellows"?

This puzzled the butter man and then our conversation ended and he commenced dispensing pound prints at 10 cents. I pushed forward to another butter man who is known quite well in the Glade, and who says he has spent there in one year as high as \$20,000. This year he says the farmers have gone back on him and treated him badly. Don't put that down on paper, I heard it out of your book; said, I don't want that my name in the Herald up there. Why every farmer in the county will never forget the expression from me after I have enjoyed to another butter man who is known quite well in the Glade, and who says he has spent there in one year as high as \$20,000.
