County Auditors. REMARKS—In presenting the foregoing statement we deem it but just to call the attention of the taxpayers to the unusual amount of money collected and paid into the treasury from entsale sources.

The seeming increase of expenses during the just year is largely owing to the unusual amount paid for the relief of out-deer paupers, building, and to the general improvement of the farm. Her toure it has been customary to carry over as many old orders and accounts into the new year as it was possible, to make the expenses look small. At the close of the year just post every dollar was paid possible, leaving very little unpaid. Many of the out-does paupers have now either been taken in or struck from the list. There will be little or no building during the next year, thereby enabling us, as we now feel confiden, of reducing the time expenses of less) at least \$2,000. In the item of the Poor Birecters pay \$25 is charged to extra time put in on new buildings.

Respectfully submitted.
