THE MONEY IN EVERY CASE TO ACCOMPANY THE ORDER. SUBSCRIBE AT ONCE, SO AS TO GET A FULL ACCOUNT OF THE PROCEEDINGS OF THE CHICAGO CONVENTION...

RED-HOT REPUBLICAN! And will labor earnestly for what it deems the best interest of the party.

June. Circles. Advertise. Mosquitoes. Snore. Kidney Pains. At C. N. Boyd's. Roses are blooming. New 'dresses' next week. Are you going to the show? THE HERALD FOR ONE DOLLAR. Flowers are getting abundant. Five-cent store at Cook & Beert's. Two more announcements to-day. The Chicago Convention needs to-day. THE HERALD till New Year for \$1.00. The wheat is 'having a head' put on it. The census enumerators will begin their work this week. You can get THE HERALD from low till January 1st, for One Dollar.

For the cheapest and best shirts, jump suits and underwear, call at Walter's. The small recruit spends his leisure time gazing at the show bills, and consequently is happy. Before another issue of THE HERALD the agency will be over and the child will be born.

To save money, examine the goods and prices at Walter's Store. They sell at short prices. Fourth of July this year falls on Sunday. The day preceding will be observed as the National Holiday.

If you need a good Sun Shade, Parasol or Umbrella, go to Walter's Store, No. 6 Mammoth Block. THE HERALD will be sent to any address in the county from now until January 1st, 1887, for \$1.00 in advance.

From the very little that is said a boy we would suppose that the base ball fever has entirely subsided in our borough. We have added a large number of campaign subscribers to our list during the past week, but still have room for more.

Archery and lawn tennis will hold their own this summer. Croquet has been black-balled and is no longer fashionable. The Pennsylvania Reserves will hold a grand camp at Gettysburg on the 15th of July next. Judge Johnson will be the only orator.

The county authorities are having a five-foot stone cross walk laid across Union street, between the Court House and Post's grocery. Ignorance may be bliss, but being ignorant of the virtues of Day's Kidney Pills is a curse to the people of this county. C. N. Boyd says so.

The Senior Editor of THE HERALD for Chicago on Friday to attend the Republican National Convention which meets in that city to-day. The only toy-going reaper and mower agent, taking time by the forelock, now offers to induce the tiller of the soil to invest in his machines.

If you have not yet secured one of these elegant Spring Hats at N. D. Walter & Co. do so at once. They are just two weeks away. WANTED—40 or 50 good wood choppers and the makers—at once. Apply to address given in this paper.

The census enumerators start on their rounds to-day, (Tuesday), and you are expected to tell the truth, the whole truth and nothing but the truth. What do our county officials mean by frantically casting yellow papers into the four-house yard? Are they trying to equal the circus bill carrier?

This is the last week that candidates can announce themselves, as the new rules provide that all announcements shall be made at least twenty days before the Primary Election. In ancient days the precept was, 'know thyself.' In modern times it has been supplanted by the far more fashionable maxim, 'know thy neighbor and everything about him.'

Keep your cows off the street and out of mischief. If the matter is not looked after this summer, the street lamps and flower gardens and shade trees will suffer, and no one to pay the bill of damages done. Our friend David Specht, of Quakertown, Pa., has been notified by the school board of the past year, including the assets and liabilities of the district, in not less than ten written or printed handbills, to be put up in the most public places in the district, or if deemed preferable in two newspapers of the county in which the district is situated, having the largest circulation among the citizens interested. The penalty for neglect or failure to perform the duties enjoined was the consideration of \$100.00, to be paid by a fine not exceeding \$300.00 to be paid into the school fund of the district in which the offence shall have been committed.

A Justice of the Peace in Clarion county, in this State, in trying a case recently being argued, gave to a big round mouthed defendant to the action, remembering the Justice's proclivity, made an announcement before the court that some ten miles distant, upon which a warrant was issued. When it was read to the court, it was found to be a mere bluff, and the defendant was fined \$10.00. The constable had nothing else to do but let the matter drop, and the party who had hoped to get even with the Justice by making the highest bid for the warrant, with a bill of costs amounting to seven dollars.

The Harrisburg Patriot says that State Treasurer Butler has determined to honor all school warrants as fast as they are presented for payment, numbered from one to a thousand. At the School Board's request his reports to the Superintendent of Public Instruction, warrants are drawn in their favor for the amounts due them and numbered in the order of the receipt of the reports. This method offers a premium to prompt reports. The approval of the Treasurer is \$1,000.00 in advance and of the amount appropriated for 1879, it is proposed to pay about \$450,000 before the end of the year. The State Normal schools have received nearly \$100,000 of the annual appropriation.

For one dollar you can get THE HERALD during the coming Presidential contest.

THE DIAGONIANS.—The Diagonian Literary Society of Franklin and Marshall College, Lancaster, Pa., in accordance with custom for many years back and not to be outdone by the E. L. Church, Gothic Society, celebrated their forty-fifth anniversary on Friday evening, May 11th, at the residence of Rev. W. H. Kiefer, of Stoytown, on "Where do you spend money for that which is not bread?" He held to that whiskey and tobacco are necessary to the support of the body, and presume we must agree that he is right. After the sermon we nearly all had our say as to "How to make conference success," beginning with Rev. D. Stull, who was appointed to open the subject. The next morning after a half hour's devotional exercises, the regular session of conference opened with the President, Rev. J. W. Ulrich, in the chair. A goodly number of the brethren answered to the call of the roll, and most of the others came in afterward. All but two that were present had also their by delegates with them. After some preliminary business, the order of discussion was as follows: 1. Rev. J. W. Ulrich, read a well-digested paper on "What constitutes a call to the ministry." After which followed a hearty but somewhat desultory discussion on the allied question, "Whether we have, or can have, too many ministers." Rev. L. L. Seiber next addressed us on "Home Religion," which subsequently drew forth the following: Resolved, That in view of the great importance of the subject, the members of the little book lately published on this subject by Dr. J. M. McKee, and prepared by Rev. L. L. Seiber, "Ministerial Etiquette," by Rev. J. B. Shoup; "Can a man be a minister of the Gospel who is not a member of the church?" by Rev. J. W. Poffenberger. This last question elicited considerable interest, especially among the young men, and there could not be of us keep from talking on the subject of the church. On the second evening we had a sermon on "Proper subjects for baptism," by Rev. J. W. Poffenberger. He presented arguments which we consider unanswerable for the views of our church. A heavy vote of thanks was tendered the pastor and members and friends of the Lutheran Church at New Centreville for their hospitality and the excellent services of their officers and their attendance at all the meetings. We had a most delightful meeting, which was so heartily appreciated that the following action was taken: Whereas, Our experience at this meeting of conference has most largely demonstrated both the wisdom and profit of resolving ardent personalities in all our efforts to improve our church, and to have intercourse with one another that spirit which was in Christ. Resolved, That as the following and embassadors of the "meek and lowly Jesus," we will, in all our efforts, endeavor to have one another that spirit which was in Christ. Conference closed with a sermon by Rev. J. W. Poffenberger on "Home Religion," which was most heartily appreciated. Adjourned to meet in February, 1887. A. K. FLETCHER.

HOOPERVILLE ITEMS.—Some of the young men find railroad building and cross-tie making "heavy." Grass is short hereabouts, and rain not over abundant. Grass looks well, and the fruit is but little damaged by frost. Our town presents the singular anomaly of a tavern for the entertainment of strangers, and a private family doing the entertaining. This would seem to demand an explanation. We do not want to see war between the "meek" writers, but it might not be amiss to do so. The careful reader could find another chapter or two on the structure and force of the "King's English." His last "piece" of two weeks ago was but a sorry kind of success. It is gratifying to note the spirit of enterprise the coming railroads is infusing into our people. The sound of the hammer and the pickaxe are everywhere, and almost every one seems to be busy; and, for once, those who can find nothing to do, have something new to talk of.

THE FIRE IN THE MOUNTAINS.—Mr. A. L. Newland, of Jefferson township, sends us some particulars of the fire which has lately devastated a large tract of country on Laurel hill, in Somerset and Westmoreland counties. The fire started in the neighborhood of Weaver's Mills, Westmoreland county, and made its way northward, and was extinguished by the firemen of that county. The fire extended northward beyond Laughlinsville. Many thousands of acres which a short time since were covered with very fine timber, and which were valued at \$1,000,000, are now a charred and smoking plain. The fire was caused by a lightning bolt striking a tree, which was struck by lightning. The fire was caused by a lightning bolt striking a tree, which was struck by lightning. The fire was caused by a lightning bolt striking a tree, which was struck by lightning.

THE FIRE IN THE MOUNTAINS.—Mr. A. L. Newland, of Jefferson township, sends us some particulars of the fire which has lately devastated a large tract of country on Laurel hill, in Somerset and Westmoreland counties. The fire started in the neighborhood of Weaver's Mills, Westmoreland county, and made its way northward, and was extinguished by the firemen of that county. The fire extended northward beyond Laughlinsville. Many thousands of acres which a short time since were covered with very fine timber, and which were valued at \$1,000,000, are now a charred and smoking plain. The fire was caused by a lightning bolt striking a tree, which was struck by lightning. The fire was caused by a lightning bolt striking a tree, which was struck by lightning.
