

The Somerset Herald.

GEORGE R. SCULL, Ed.

WEDNESDAY, JUNE 26, 1880.

REVEILAN COUNTY COMTEE.

Mr. C. N. Boyd, (yes, he is the druggist) has returned with his lovely wife.

Mr. Lohr, who was hurt by a carriage accident in Jenner township, is rapidly convalescing.

Toddus Blough, an insane man, died at the Poor House on Thursday last. He formerly lived in Paint township.

There were only ten deaths in Somerset last year, and that was a record. We have not heard of any town in the Union which exceeds ours in healthfulness.

Mr. Donnelly, president of the Somerset and Cambria Railroad, arrived in town on Saturday, looking after the interests of the road now rapidly building.

Mr. Wm. A. Stahl, living three miles west of town, lost a valuable young mare last Saturday, making the third one that has died for him since last September. Two of these were very valuable animals.

The Democrats had a ratification meeting on Saturday night at Meyersdale. It was reasonably well attended. Addresses were made by W. J. Baer, A. H. Coffroth and others. Chairman Fisher was on hand.

An extra jury was drawn on Saturday evening for theoyer and termier court, on account of the Hoffman case. The names of the jurors will be forwarded to the regular list published in another column.

A large picnic was held in the woods on Sunday. Walker's farm, on Saturday last. A delightful party partook of the good things prepared by the fair ladies of old Stoupe creek. Mirth reigned supreme during the day.

Our talented young friend, J. Jay Miller, lately teaching Normal School at this place with Prof. R. S. Sumner, has been elected by the school directors of Johnston principal of the high school. It is a position of honor, and of good profit.

A life of torture is often endured by the rheumatic sufferer, who, however, he relieves by the use of the old reliable remedy, Dr. Williams' Pink Pills. No misanthrope grows its reputation excels all other remedies. Price 35 cents per bottle. Try it just once. For sale only by G. W. Benford.

George Largent, a young man about eighteen years of age, was committed to jail on last Saturday evening, charged with burglariously entering the grocery store of Geo. J. Black, at Meyersdale, and stealing therefrom some money and other articles of value.

There was a strike among the colored tailors, comb and wig makers, on Saturday night, caused, we believe, by the discharge of one man. All matters have been adjusted and the work goes on as usual. These colored men are all from one neighborhood, and they stick to each other like wax to a plank.

The committee of five citizens on building the iron fence around the Lutheran cemetery are progressing with the work as rapidly as the nature of the case will admit. It takes some time to make contracts for the job, and we learn, especial difficulty is experienced in procuring a supply of good iron posts.

The Lutheran Sunday School of Cascoe's church had a grand picnic in Maple Grove on Saturday last. The weather was splendid, the crowd of parents and children large, the tables first-class, and everything passed off in the most agreeable manner. The people in the Cascoe corner never do things by halves.

Anthony Whipkey, a young man living near town, was severely kicked by an unruly horse on Friday last. Three or four ribs were broken, and he was laid up a year. He is likely to recover from his injuries in a short time, and we trust this will be the case, as he is an industrious man, and one who cannot afford to be housed long.

OFFICIAL RETURNS OF THE REPUBLICAN PRIMARY COLLECTION, HELD JUNE 26, 1880.

ASSEMBLY. DIST. ATTY. POOR H. DIRECTOR. COMMITTEES.

Table with columns for Districts (Allegheny, Berne, Brotherton, etc.) and various counts for different candidates and parties.

Our young friend and companion James O. Kieran returned home on Saturday from Philadelphia, where he has been attending lectures at the Jefferson Medical College. We are glad to hear that he is well and under their parental roof-trees.

The farmers have commenced cutting their grain, and the crops look well. Our census enumerators, Mr. David Shaffer, has finished the enumeration of his district.

The Republicans of Paint were pleased with the nomination of Garfield and Arthur, and will give their hearty support. Messrs. Booth and Flinn, the contractors for a few sections of the S. C. & R. E. R. are a little short of hands. They received quite a number of hands last week, the most of whom are foreigners.

The cornerstone of the new St. Peter's Reformed church at Rheas's Tanney, was laid on Sunday last by Rev. W. H. Bates, resident pastor, assisted by Rev. Francis Blough, of Berlin. Seven hundred of people were present at the ceremony. The cornerstone was made by Augustus Kuss and Samuel Maas, and is a model of workmanship.

Persons who are careful of their health as they are of their wealth, the death rate would be much smaller from that dreadful scourge—consumption. It carries off in the United States in one year ten times more persons than succumb to the yellow fever in the South. Thousands of valuable lives would have been saved from consumption had they used Sines' Syrup of Tar, Wild Cherry and Horchord in time. In all cases of whooping cough, croup, asthma and lung affections it has proved to be a certain cure when taken in time. Sold only by George W. Benford. Price 25 cents; extra large bottle, 50c.

Roberts' Rheumatics—Rheumatics or sufferers with sprains, cuts, bruises, old fresh wounds, swellings, burns, etc., will find it to their advantage to use M. B. Roberts' celebrated Emulsion. It has been in use for 40 years, and is the most reliable and efficacious remedy known. It does not irritate the skin, and therefore is used with much better results than any liniment in the market. It is also good for horses where an outward application is desired, and should be found in every household, and well regulated stable. Price 25 cents per bottle. For sale only by G. W. Benford.

The Convention of Republicans which met in Somerset last year to make rules and regulations for the government of primary elections accomplished all its objects. The first primary was conducted separately and fairly as a party election. We hear no complaints, even among defeated candidates, that the election was unfair in any particular; that is to say, as far as receiving and counting the ballots concerned. The only complaint taken by the losers was extraordinary, and that was, they were not allowed to have their own inspectors.

A Mother's Grief—The pride of a mother, the life of a boy, the hope of a man, he has been his grief when sickness enters and takes them away. Take warning then, that you are running a terrible risk, if you have a cough, croup or whooping cough, that it is consumed, if you do not attend to it at once. Sines' Syrup of Tar, Wild Cherry is to be used. Price 10 cents, 50 cents and \$1. For Lame Back, Side or Chest, use Sines' Lotion. Price 25 cents.

The Somerset County Bank has just put in a new safe of the Cashier, C. H. Harrison, is justly proud. It is the latest and most improved pattern and was manufactured by DeLott & Co., weighing 4,000 pounds, and being supplied with three combinations and a Yale & Sargent time lock. It is as near burglar proof as it is possible to make a safe. Doubtless the dreams of the cashier will be more pleasant and his sleep more sound from the knowledge that he has everything in his bank protected as well as human ingenuity can guard it. It is a safe and Charles Kay's pleasure in showing it to customers.

Sines' Dysentery Compound—There are no diseases that so quickly bring invalids of a person's pale face and make him think of home as his mother, as Cholera, Cholera Morbus, Dysentery, Cramps, Colic, and all their kindred diseases. And without Sines' Dysentery Compound when overtaken with the above disease is to be almost without hope. For sale only by G. W. Benford.

Mr. U. S. Weller, census enumerator for the northern part of Somerset township, exclusive of Lavansville and the Poor House, furnishes us with the appended statistics of his district: Population, 224; White, 223; Black, 2; Born in Pa., 204; Germany, 32; Maryland, 1; New York, 2; New Jersey, 1; Virginia, 2; Indiana, 1; Ohio, 2; West Virginia, 1; North Carolina, 3; District of Columbia, 1; Ireland, 10; Kentucky, 1; Mississippi, 1; No. of deaths during census year, 24; died since June 1, 3; No. of farms, 345.

No. of Manufactures, 14; No. of Saw Mills, 9; No. of Flouring Mills, 3; Glass Factories, 4; Coal Mines, 4; Quarries, 1. No. of persons insane, 10; Idiots, 5; Deaf Mutes, 4; Blind, 1.

Mr. U. S. Weller, census enumerator for the northern part of Somerset township, exclusive of Lavansville and the Poor House, furnishes us with the appended statistics of his district: Population, 224; White, 223; Black, 2; Born in Pa., 204; Germany, 32; Maryland, 1; New York, 2; New Jersey, 1; Virginia, 2; Indiana, 1; Ohio, 2; West Virginia, 1; North Carolina, 3; District of Columbia, 1; Ireland, 10; Kentucky, 1; Mississippi, 1; No. of deaths during census year, 24; died since June 1, 3; No. of farms, 345.

Mr. U. S. Weller, census enumerator for the northern part of Somerset township, exclusive of Lavansville and the Poor House, furnishes us with the appended statistics of his district: Population, 224; White, 223; Black, 2; Born in Pa., 204; Germany, 32; Maryland, 1; New York, 2; New Jersey, 1; Virginia, 2; Indiana, 1; Ohio, 2; West Virginia, 1; North Carolina, 3; District of Columbia, 1; Ireland, 10; Kentucky, 1; Mississippi, 1; No. of deaths during census year, 24; died since June 1, 3; No. of farms, 345.

Philson Esq., secretary. After an inspiring piece of music by the Berlin Brass Band, prayer was offered by Rev. W. L. Weekly, pastor of the M. E. Church. Prof. Griffith, then in his usually pleasant style, offered the address and read them, as at the other, that love of country, which alone will qualify them for citizenship in a country so highly favored as our own. Such he regarded the object of this day's meeting, and to such duties and the pleasures attending them he looked forward with a hearty welcome.

The declaration of Independence was then read by R. H. Koonz Esq., after which the orator of the day Hon. A. H. Coffroth was introduced, who in an eloquent address entered the crowd for three quarters of an hour. His theme was the distinguishing characteristics of the American people. He spoke of their freedom and their conscious enjoyment of it, of their sociability, of their family and the good which they always manifested toward each other. The speaker related a number of incidents, some of which occurred during the late civil war that will be long remembered by many who had the pleasure of hearing him. After the address many of the people returned to the town while others remained at the grove, everybody seemed determined to have a good time, and all appeared to succeed.

Our Population.—We place before our readers the population of Somerset county, compiled from the reports furnished by the census enumerators of the Primary, for the decennial year 1880, and also published by its title the population of the several districts in 1870, as well as the loss and gain for the decade in each district:

Table showing population statistics for Somerset County in 1870 and 1880, broken down by district.

SOMERSET COUNTY TRUST.—WHAT THEY WERE AND WHAT THEY ARE.—There was a time when the trust in Somerset waters outweighed the beef in Somerset stables. That time is not more than 100 years behind us. To-day, the relative proportion of the first to the second would scarcely be that of one to a million; i. e. for a pound of trout in the stream, there is almost a million of beef in the stall. Of beef we have not too much, but of trout entirely too little.

If the trout left in our streams could to-day be put into markets, they might bring \$100,000; if we had the quantity that were in our waters 100 years ago, I am confident they would be worth \$1,000,000! A difference of \$900,000 in a century's time, should have been worth nothing for. All we have cared was to destroy that interest, and as fast as possible, too.

There is no reason why our streams should not bear as good a crop of trout as they did 100 years ago. If we have reduced them, and here we are compelled to face a humiliating fact—if this splendid fish had been treated with reason—with the consideration which he so richly deserves, we might have him, in this year 1880, as plentifully as he was in 1780, and have eaten or consumed to dinner as many "7 mile trout" as we could have had in 1780. We should look like a paradox, unthinking people will call Uncle Jay a fool, for writing such a contradiction. But he is right all the same. The trouble is, we have killed the goose that laid the golden egg. How shameful the thought, that for the pleasure of to-day, we so destroy the hope and promise of the future!

Now, who would be the worse off to-day if the trout had been allowed to hold his own in our streams? who is or has been the better off? who is or has been the worse off? What a pity that our streams did not protect what our unwise ancestors have destroyed! But even now, our people think law cannot protect fish. But a community holding such a sentiment should not claim a high civilization. Why should Germany, France, England, and our own Eastern States be able to protect fish by law and not we? And how we even have; why not obey or enforce them? Is the trout not worth protecting and fostering? Let us see. A careful examination of this fish has clearly demonstrated that where the conditions of the water have not been well changed, ten years of protection is sufficient to restore a stream to its full capacity. Suppose now, there are in our waters in Somerset county, to-day, 810,000 of this fish, and in ten years there could be raised to \$100,000, and we need anything pay better? And no one need call this visionary reckoning. Table trout are worth from 50c. to \$1 per pound, and our waters might readily bear millions of pounds of this fish, and in ten years enough to fill the hollow teeth around the table. Let us all think of this matter and talk it over.

UNCLE JAY R. BARKER. MARRIED. LAMBERT WOOD.—At the passage, Howells on Sunday May 30th, by Rev. J. B. Shoup, J. R. Lambert to A. E. Wood, of all Lambertville.

RICHARDSON HUNTER.—June 13th, at Howellsville, by Rev. J. B. Shoup, Wm. J. Richardson, of Buckstown, to Lucy B. Hunter, of Shanksville.

KRISTINE BEITRAK.—July 1st, 1880, at the home of the bride's parents, by Rev. J. W. P. Shoup, Wm. R. Krieger, M. D. of Annie B. Beitrak, both of Berlin, Somerset county, Pa.

DIED. YOUNKIN.—At his home, in Wakefield, Clay county, Kansas, June 16, 1880, Henry Younklin, formerly of Addison township, in his 74th year.

The deceased leaves a widow whose name was Mary King, daughter of John King, who lived on what is now known as the Harned farm, in Turkeyfoot. Mr. Younklin was the father of 12 children, all of them grown up to maturity, 32 grandchildren, and 8 great-grandchildren. He was known as one of our best citizens, commanding the respect of all who knew him. In 1874, Mr. Y. sold his farm and removed to Kansas, where the majority of his children had proceeded him in seeking better homes. During the war of his sons, Conrad and Alfred—Moses, Alfred, Harrison and Silas. Alfred died in the service on the Western frontier. The two latter were severely wounded. Harrison, who is still a resident of Addison township, is shot entirely through the chest, at the battle of Fair Oaks, his life being saved by having silk kerchief drawn through the wound. Moses Younklin, the second son, settled in the wilds of Clay county, Kansas, in 1856, and had the honor of being the father of the first white child born in that township.

EVANGELICAL SUNDAY SCHOOL CONVENTIONS.—The Evangelical, Ministerial and Sunday School Convention of Somerset District, Pittsburgh Conference, met in the Union Church at Shanksville on Tuesday morning, June 24th, 1880, at 9 o'clock, to hold their ninth annual session.

In the absence of the President, Rev. L. M. Boyer, A. W. Tests was chosen President, and W. A. Reininger Secretary, who chose H. S. Stewart and G. W. White as his assistants. A reporter was also appointed to report to the county papers, and Rev. W. A. Reininger to report to the Evangelical Messenger.

The presence of our worthy presiding officer, Rev. L. M. Boyer, cleared the minutes in the convention before the organization was fully completed. He made a very appropriate opening address, which was richly appreciated by the Convention. Rev. C. H. Church, being present, was made advisory member, and respectfully requested to take part in the deliberations. Messrs. Slater, Clark, and Nicely, of Westmoreland county, and Jacob Davis, of Fayette county, were also made advisory members.

The program was then taken up, and essays were read by the ministers in the regular order in which they appear on the program. Each session was opened and closed with devotional exercises. The exercises were freely participated in by those present, and lively discussions followed the reading of each essay.

Preaching services were held each evening, with a large attendance. Rev. D. K. Levan preached an appropriate and carefully prepared discourse on Monday evening, from Mark 3:14. Rev. L. M. Boyer, P. E., preached a very able discourse on Tuesday evening, from Gal. 6:4. Rev. A. S. Battenberger, of the same denomination, preached from John 1:9. A. W. Vanmeter, of Salisbury, preached on Thursday evening, from John 11:10. The discourse was logically arranged, and full of thought to the reflective mind.

The Convention was adjourned to be held on Thursday evening at 8 o'clock. The following is a list of resolutions adopted by this body during their pleasant and profitable session:

Resolved, 1. That the Sabbath School is an auxiliary so potent when thrown in the scale, in favor of right and against wrong, as to immensurably insure success to the Kingdom of God on earth.

At the present time when there are so many worthless imitations in the market, it would be well to inquire which is the best—this will be found in M. B. Roberts' celebrated Emulsion. It is a remedy for all ailments that require rubbing either on or least. For sale only by G. W. Benford.
