A friend in Philadelphia sends us the following taken from a Washington letter to the Philadelphia Times: Judge and Mr. Black returned to their residence at York, Pa., the first of this week. An incident which I have lately noted in Judge Black's early history is an elegant one. When a very young man, just old enough to be eligible, his party (the Democratic) of course, for he was dyed in the wool proposed him as their candidate for Congress and felt sure of electing him, although the district was Whig by an overwhelming majority. Two or three thousand, I think, the gentleman who was certain to be nominated by the Whigs happened to be very unpopular. Mr. Black's father was a Whig - a strong whig in every sense - and this, as well as many other causes, made his party willing to see him take a step upward in political life. But certain leading members of the Whig party, unwilling to lose the district to a Democrat, held a conference and took counsel among themselves how they might save it. It was necessary to kill off both their own unpopular candidate and the dangerous one who the Democrats had brought into the field. This they did effectually by putting on their ticket Mr. Black, the father of the Democratic candidate. Hancock was elected by a clear but apparently with pleasure, inasmuch that he was for awhile out of favor with the Democracy for supposed complicity with the manoeuvre. His father was elected without opposition.

CONFERENCE, SEP. 10, 1880. Mr. HERRICK - Having traveled, since the election, over a portion of this Fayette county, and also over a portion of Preston county, West Virginia, and Garrett county, Md. I have been brought in contact with the people of those sections, and have been able to obtain a personal opinion upon the causes and ultimate results of their defeat at the polls. All appear to agree that their defeat was not attributable to any lack of party faith or party purity, but to individual treachery. A large portion are willing to lay their self-righteous hands upon the devoted head of John Kelly and make him the scapegoat for the sins of the whole party, while few are willing to share the responsibility between John Kelly and Samuel J. Tilden. The latter profess to believe that the loss of the district to a Democrat, held a conference and took counsel among themselves how they might save it. It was necessary to kill off both their own unpopular candidate and the dangerous one who the Democrats had brought into the field.
