

Vote for clear-headed John Cessa. Vote the straight Republican ticket. Vote for Bally, Cessa, and the county ticket.

Dr. G. J. Beatty, the Dentist, is at the Glade House. Every Republican should make his business to see that the vote is in.

An Argument Court of several hours duration was held Monday morning. That profound mystery, stone mace meat is beginning to astound the venturesome stomach.

When putting up a stove-pipe, go about it calmly, deliberately and with malice aforethought. Can anybody recall the time when the Republican party failed to right itself and defend the rights of others?

The Independent's mud batteries against last week. We had hoped that the bitter experience of last year had taught it a lesson. Saturday was a busy day here, and our merchants and business men were smiling childlike and bland up at the closing hour of business.

Gum coats are fashionable. If a cloud hides the sun for five minutes every young maiden you meet on the street will be enveloped in one. Republicans work up your districts, and that every man does his duty by going to the polls and casting a solid vote.

Grain fields are beginning to look nice and green. The pastures have also been greatly improved by the late rains, and stock is thriving. Another change of schedule will be made shortly on the Somerset & Cambria Railroad.

Brilliantly colored forest leaves will be scarce this fall. The dry weather dried up the sap in the foliage before the frost had time to get in its work. We received a communication from Jenertown last week which we would have liked very much to have published but inadvertently mislaid it.

Our lady readers gathering autumn leaves, ferns, etc., could be taken not to handle the three-leaved lily. It is deadly poison, but looks beautiful all the same. The room of J. B. Snyder & Co. was thronged with customers Saturday as the proprietors were compelled to employ additional clerks to get through the day.

The hickory nut crop is abundant, and our sewer says that from many trees they are fit for eating at once without putting away for a season. A result, probably, of the dry weather. Fall horse cleaning time is at hand and many are the silphurous words used by the household in fitting together the joints of stove pipe which shrunk during the continued drought.

Yarns look for a continuation of the warm water on this continent during the approaching winter, brought by waves of low temperature of brief duration. He discerns the sun spot theory and predicts an open winter. Mr. Daniel Sims, colored, was last week lodged in jail to await trial at the next term of court, on a charge of assault and battery with intent to kill, and carrying concealed weapons, preferred before Esquire Lint by Mr. Jacob Cook.

The burned and blackened body of an old man was found near Laughlinton, Westmoreland county, last week. Several wounds in the breast were suggestive of suicide, but the corpse was buried without an inquest being held. The tax collectors state that they have less trouble in collecting taxes this year than they have had for a number of years. This is owing to the fact that everybody has plenty of work at fair wages and is able to pay his taxes. This is a healthy state of affairs.

It is a most pitiful sight to see several groups of these poor, who for a long time have been candidates for both county and Federal at the hands of the Republican party, now clinging and hobnobbing with the Democratic leaders and trying to play the spy on their former party friends whom they so shamelessly deserted.

A remarkable marriage was solemnized in this town on Monday. The gay and festive groom had seen the snow of 72 winters, and the bride, who had had her first husband to her 18th, lay down to rest at the altar under the weight of 75 years. They may live to celebrate the centennial of their wedding. -Burlford Gazette.

The long nights which are now in our calendar invite the formation of debating societies. These societies furnish not only amusement for those who attend, but are often schools of instruction where the young are enabled to take the first step towards becoming good speakers, and where the people gain much information on important questions.

Geo. F. Baer, of Reading, stopped off in Somerset several days last week on his way home from Pittsburgh, where he had been attending the Supreme Court. The gentleman is the reputed owner of a fine residence in the city of Pittsburgh, and is visiting this county at this time to put it on tap in the interests of his brother, William J.

Last Thursday afternoon, at the residence of the bride's father, in Stonycreek township, Mr. M. J. Snyder was united in marriage to Miss Ida V. Glesner, daughter of John Glesner, Esq. The ceremony was performed by Rev. Volinberger, of Bensalem. The bride was attended by her bridesmaids, and the groom by his best man, and here comes in the second precaution. Arm yourself with a good revolver. You may be sure that the burglar is fully armed and prepared to take life rather than that he himself shall be captured.

There seems to have been some misunderstanding in regard to the time the Republican committee met last spring. The present committee were elected in the spring of '80 to serve through '81. Those elected last spring will enter upon their duties with the Waldman election next February, and will serve through '82. This is what the new rule provides for.

A horse disease known as "ink eye" has made its appearance and taken hold of the equines of Pittsburgh. The disease is denominated by some veterinary surgeons as that of typhoid influenza, and in the treatment of it, instead of bleeding, as was practiced five years ago, the animals should be starved. The disease is spreading, and the owners have been eminently successful.

On all sides the signs of an increasing and solid prosperity are the most significant proportions. The combined wheeledge of all the railroads in the county is unequal to the demand made by freight awaiting transshipment. This is a sign of enlarged trade, which is encouraging in the highest degree, and the prospect of a good crop of wheat is shown on all sides. The coming winter will be the most prosperous the country has had for years. Vote the Republican ticket.

Messrs. H. P. Snyder, ex-Chief of Police, and Alex V. Johnston of Butte City, Montana Territory, spent an hour with us Monday morning. They are old in our friendship, though young in years. We were glad to welcome them to our office, and they were glad to be here. In keeping with the fact that they are all laborers and that Somerset has hosts of pretty girls had anything to do with their visit to our town. We know whereof we affirm when we say that a large amount of money was brought into this town last week and is now being circulated throughout the county for the purpose of buying Republican votes for Wm. J. Cessa, and we are sure that the Democrats would have been glad to have had the same.

What say you Republicans, can a man whose election is secured by bribery make an honest fair, upright and impartial Judge? Shall the mammoth of Democracy sultry the judicial emine? Shall corruption win the day and steal away a people's freedom? We know whereof we affirm when we say that a large amount of money was brought into this town last week and is now being circulated throughout the county for the purpose of buying Republican votes for Wm. J. Cessa, and we are sure that the Democrats would have been glad to have had the same.

The trial of old man in jail to await trial at the next term of court, on a charge of assault and battery with intent to kill, and carrying concealed weapons, preferred before Esquire Lint by Mr. Jacob Cook. Wayne MacVeigh, is here but is keeping very quiet for the present. President Arthur took the trouble to walk in the park, and to remain in the Cabinet and prosecute the Star Route thieves. Arthur is a sharp politician for the great reformer. He can never say that he was kicked out and had no chance to show what he could do. Blaine is smart enough to see it and to give his services to the party which is out of the public service. The whole trouble is, MacVeigh has got the presidential bid and wants to be a martyr.

A party consisting of about one hundred representative business men of Baltimore, Md., were in the city of Somerset, Pa., on the 4th day of August, 1881, and on the 5th and 6th days. Deceased was a consistent and active member of the Disciples Church, and died rejoicing that he was soon to walk in the garden of Jordan, where sickness and sorrow never enter, and where the weary are at rest. His remains were followed to the grave by a large concourse of sorrowing relatives and friends. The beautiful rites of the Old Folks were observed, after which Elder Woolsey made a touching prayer and read the burial services of the Disciples Church.
