In a village of Oneida county,

Allan Norton at five and twenty found himself a rising physician, with something more than a local reputation. He was decidedly handsome, and for abilities, they were so far beyond medicirity as to promise him a distinguished future in his chosen profession.

But for nearly a year the young doctor had been growing more and more unhappy, until at last, one dull third the stimulation of February, he flung blimself at the position. His add was weary and his heart ached to the strongest effort of will she had ever made, she would have sunk powerless at the surgeon's feet.
