## A Story of the Great Smoker.

The Coming Cow.

Public attention has just been from-extending a distance of four miles along the Hudson River, in Columbia county, N. Y. and having a depht of eighten feet. The control of this economous body of potential wealth has recently been acquired by a combination of prom-inent iron and steel manufacturers, who, after careful investigation, ar convinced that the new deposit con-tains a volume of ore equal to that of the famous Geveland mine in the careful and which now yields something like 6,000,000 tons of ore a year. The ore is similar in char-acter, but superior in quality to the Greekand order. It is also similar to that of the great Luxumbourg de-
