

The outlook for large crops and plenty of fruit is encouraging.

The meadows and grain fields are beautiful in their emerald tints.

This section was visited by a most terrific rain storm Monday night.

The first opportunity of the season to permit, was given on Friday.

The growing grain and grass is looking up, and the prospect is good for a large hay crop.

The few days of very warm weather we had last week opened the "barren" season with the boys.

The Presbyterian congregation are having a neat iron fence placed around their handsome little church on Union street.

The first real hot days of the season, which swooped down on us last week, brought on several severe attacks of spring fever.

Too much care cannot be exercised by our farmers as to what kind of corn they plant. A great deal of replanting may be avoided.

An Indiana girl who was suddenly killed at a party, has become insane. Such things are talked over at least a whole week beforehand.

There are a few bad pavements in town that will not be repaired unless the Council see the work. Make an example of some of these delinquent property holders.

A Philadelphia exchange says the leading merchants of that city pay money annually for advertisements than they do for other things, although the latter run up into thousands.

It may be that the long delay in commencing work on the Harrisburg and Western Railroad is necessary in making the preliminary arrangements, but it doesn't look like prompt progress, for which Vandenberg has some reputation.

Mr. Henry Landis, one of the oldest and most respected citizens of Brotherton township, died at his home in that township Saturday night. He had been in very poor health for some time back, and his death was not unexpected. His funeral took place Monday morning.

A young woman in Chester county, recently frightened a burglar away from her father's house by blowing loudly upon an old-fashioned dinner-horn. When the latent capabilities of the old-fashioned dinner-horn are considered, it seems strange that the burglar was not frightened to death.

Senator William A. Wallace is quoted as saying that there is no doubt about the success of the project for the extension of the Harrisburg and Western railroad, and that it will be built in the near future. He says that the project has the support of nearly all the Pittsburgh merchants and manufacturers.

The R. P. Cummins Post of the G. A. U. will have charge of the Decoration Day ceremonies at this place. At a recent meeting of the Post a committee was appointed to prepare a program and make arrangements for the day's observance. The program will probably be published in our next issue.

Soda water fountains have begun to explode. One went off in New York the other day, and worked considerable damage. "It is an ill wind that blows nobody good," however, and if the young man whose girl has a taste for soda will treasure up the first day of his life, he will know all the near future. Ice cream has already been demonstrated to be poisonous, and if the young man can dispose of the soda water trouble, he's all right for the season.

If the editor of the paper that a few weeks ago announced that "Hon. A. J. Coffroth" was home from Harrisburg on a visit, and advertised "Johns" Brant as the proprietor of the Glad House had examined the Herald, it may be he would have known all the near future. Ice cream has already been demonstrated to be poisonous, and if the young man can dispose of the soda water trouble, he's all right for the season.

How to clean wall paper.—As the ladies are now very busy cleaning house, a few words in relation to cleaning the paper on walls may not be out of order. To clean wall paper take of the dust with a soft cloth.

With a little flour and water make a jump stiff dough, and with the wall gently downward, taking the length of the arm each stroke, and in this way go round the whole room. As the dough becomes dry, cut the soiled parts off. In the second round remove the stroke a little above where the first was, and the wall gently downward, taking the length of the arm each stroke, and in this way go round the whole room. SEVENTH ANNUAL CONVENTION.—The Seventh Annual Convention of the Latham School Association of Somerset county will be held at Somerset, commencing June 5, 1888, and continue in session for three days. The program committee have been at work, and every effort is being made to make the Convention a success. The public are cordially invited to attend its sessions.

COMMITTEE.

From all over the country come the warnings to farmers to look well to their seed corn and test it thoroughly before planting. Select 100 kernels at random, and either plant in a box of earth by the side of the garden, or in a shallow trench in the ordinary garden, or in a bottle of water hung in the sunshine. The germinated kernels will indicate the percentage that will grow.

According to all accounts the fruit crop in this section was very little damaged by the late severe frosts. Different farmers with whom we have been in conversation on this matter inform us that the only fruits injured in this section were peaches and cherries, and they not to any considerable extent. We are pleased to make this announcement, and hope to see a bountiful harvest of all kinds of fruit, which will be, in a manner, an offset for the last two years of a fruit famine.

STOYERSVILLE, Pa., May 9, 1888.

Editor Herald.—In the letter from Stoyersville, in this week's Herald concerning the death of Mr. Dr. J. M. Louth, you make a sentence read, "and being well acquainted with her husband's doings." This should read, "and being well acquainted with her husband's doings." The word "doings" instead of "doings" should be used. Please make this correction in your next issue, as it is a great injustice to Dr. Louth, and to the author. Yours respectfully,

A FRIEND.

Messrs. Palfrey, Palfrey & Co., of Bridgeport, Pa., the well known Architects and Builders of standard works on architecture, have lately issued a sheet containing plans and specifications of a very tasteful modern eight-room cottage with tower, and also with a full bath, and a full kitchen building it without the tower, and with six rooms if desired. In its most costly form, the outfit is estimated at \$3,000; without the tower it has been built for \$2,500, and only \$1,500 more is included, the cost may be reduced to \$2,000 or \$2,200. The details are given of mantels, stairs, doors and casings, cornices, etc. The publishers have ever issued, and state that it has been adopted in more than two hundred instances. It is a most valuable sheet, and will be found in every architect's office. It is a most valuable sheet, and will be found in every architect's office.
