The wheel of fortune men who tried their little wheels at the fair last week, took away considerable loss change with them. It cost some of our young men a nickle or two to learn the game.

The responsibility of the lowest bids is now being investigated and all the members of the Somerset Township School Board, such men up to the system; they look after the schools in every particular, and make provisions for all just and proper demands coming from the people. In conclusion, permit me to say that I am a member of the Somerset Township School Board, and I am pleased to state, as far as I can learn, that these Directors acted from honest motives in the way that they determined to stand by their action which they claim to be just and legal, and I trust the day will soon come when we can have all over the State, Directors that deliberate on questions concerning the schools, independently and fairly as they should be.

Where have all the trade dollars gone? is a question that we hear asked quite often on our streets. There are some people who haven't seen a trade dollar for so long that they are now struggling to get one to put away as a relic, as they were some months ago to get rid of the trade. There are still a good many articles in circulation throughout the country, but the trade dollar has recently been removed from circulation, and when formerly you were compelled to pay one over for having your trade dollar converted in full into your own money, the mint paying you full value of your silver, that is about 86 cents for each trade dollar.
