or Dennis Meyers, Somerset, Pa.

Ladies may come, and ladies may go, but
whichever way they come or go on these de-
lightful spring days, they never fail to stop
at the Millinery and Notion Store of Mrs. M.
Schrock, to see her elaborate display of
fancy hats and bonnets, fresh from the
New York markets, competition in prices de-
fied.

Dick has gone west, and Mike, he is going
to, but there never was a better line of cloth-
ing in Somerset than you will find at J. B.
Snyder & Co's. When they say it is wool, it is
wool. Now catch on to that.

The Everett Press says that a Bedford lady
received a letter the other day which had
been mailed to her address on the 9th of
June, 1875, nearly nine years ago.

The fruit trees are in blossom.

Straw hats are getting ripe fast.

Decoration Day comes on Friday, May 30th.

The May term of court will commence on Monday next.

Col. James M. Reid, of Dunbar, was in Somerset over Sunday.

P. V. Kimmell, Esq., of Meyersdale, was in Somerset Saturday.

Laborers are at work grading the east end of Union street in front of the Academy grounds.

John R. Scott Esq., is having a neat veranda placed in front of his handsome residence of Turkeyfoot street.

The senior editor of the HERALD left for Pittsburgh Monday, intending to spend the remainder of the week in that city.

Drs. M. and J. L. Luther have opened a drug store in their building on Main street. Their storeroom presents a neat and attractive appearance.

Mr. John H. Weimer has had a handsome veranda built to the front of his house on Main street, and is otherwise beautifying and improving it.

Register and Recorder Stutzman left for Indiana Wednesday, called thither by a telegram announcing the serious illness of his brother Peter.

With the assistance of a crutch and cane, ex-Sheriff Shafer is able to be about again. He still suffers considerable pain and walks with great difficulty.

Somerset abounds with handsome stores, but there is always room for such an one as Mr. Woods, the new jeweler, has recently opened at No. 2 Baer's Block.

Burgess Kimmell, of Meyersdale, fined four drummers two dollars and a half a piece Monday morning for playing ball on Sunday within the borough limits.

A severe frost visited this section Sunday night. In some places it was so cold that ice formed on still water. Considerable damage was done to the small fruits.

Mr. John O'Neil, of Allegheny City, has rented the room in the Mammoth Block formerly occupied by Mr. Ed. McDowell, and will shortly open an eating saloon in it.

Another long string of horses, mules and carts drove into Somerset Monday evening about 6 o'clock. They belonged to the Collins Brothers, and just came over from the Snow Shoe Branch.

Reuben Smith, for Assembly Worth J. Picking, for Register and Recorder, and William A. Rhoads, for Poor House Director, are the candidates whose cards have been placed in our political announcement column since our last issue.

Mr. Mclaughlin, who has the contract for driving the Quemahoning tunnel, commenced work last week. He has a large number of teams employed in hauling lumber for the construction of boarding houses, and other necessary buildings.

Mr. David E. Wagner, of Shade township, requests us to announce that he will not be a candidate for county commissioner at the June primary. He is engaged in the lumber business, from which he could not spare the time to make the necessary canvass.

Mr. Frank Boyts, the senior member of the firm of Boyts, Porter & Co., whose advertisement in another column of this issue our mill men will find it to their advantage to consult, is a Somerset county boy, who will take special pleasure in filling all orders from his native county.

The church of the Evangelical Association of this place has been neatly repaired and newly furnished. The reopening services will be held on Sabbath, May 25th, at 10½ a. m. Rev. D. K. Lavan, Presiding Elder of the district, will officiate. A cordial invitation is extended to every citizen of this place to be present.

Compliments and regrets of the HERALD to the members of the graduating class of the Northwestern College of Naperville, Ill., for June 12, 1884. The graduating class at this well known institution, consists of four young ladies and the same number of young gentlemen, among them Mr. William Orwig Seibert, son of Rev. J. L. W. Seibert, of this county. After graduating, Mr. Seibert expects to locate in Colorado.

The G. A. R. Post of Greensburg propose to purchase a lot in one of the cemeteries for the purpose of interring therein the bodies of their comrades who now fill paupper's graves at the county house, and also such as hereafter die friendless or without means to have their bodies interred in a proper burying ground. It wouldn't be a bad idea for Post 220 of this place, to take steps toward doing the same as the Greensburg Post.

The flap of the white-wash brush is to be heard in every direction just now, and here is a recipe for a wash which is recommended as being first-class for outdoor work as well as indoor: Soak one peck of lime, and while hot and of the thickness of cream add a quart of linseed oil and one-quarter pound of glue. Let it stand half a day before using. Rains will not wash it off, nor will it prove such a nuisance on indoor walls as common whitewash. It should, of course, be thinned with water while using, as ordinarily.

Two men were arrested at the Allegheny tunnel last week by Policeman Gilbert of this place, charged with selling intoxicating liquors without license. One of them a colored man, gave bail for his appearance at court, depositing four hundred dollars as collateral, while the other one in default of bail was committed to jail. The informations were made at the instance of contractor McFadden, who is fully determined to prevent the illicit traffic in intoxicating drinks within the bounds of his contract.

The attention of railroad contractors, coal, coke, and mill men, is particularly directed to the advertisement, of Messrs Boyts, Porter & Co., in another column of this paper. They are prepared to build and repair all kinds of heavy machinery. Their Yough Steam Pump is said to have no equal in the market and is in very general use throughout the coke regions. Any one desiring anything in their line will find it a matter of economy to deal with them. At the same time they can be assured of prompt and thorough work.

While a number of men were at work clearing for the new base ball grounds at Meyersdale Saturday, an accident occurred that resulted in the death of A. H. Glotfelty, of that place. A charge of twenty-four pounds of Judson powder and two dynamite cartridges were inserted at the base of a large tree, and was discharged with terrific effect. The immense trunk was lifted fifty feet in the air, and buildings shaken to their foundations for squares around. Mr. Alex Glotfelty, who was standing some distance from the tree, was struck by a flying missile and instantly killed. Much sympathy is felt for his family.

DEATH IN THE TUNNEL.—An accident that resulted in the killing of two men, and the serious injury of three others, occurred at the eastern approach of the Allegheny tunnel, Saturday afternoon. They were from three to four hundred feet under ground when they struck a large vein of quicksand, the flow from which, caused an immense amount of rock and earth to cave in, and before the men were aware of their danger they were buried under it. One of the men, whom it is feared is fatally injured, is Superintendent White, a man who has had large experience in railroad building, and is a great favorite with the men under him, and all who know him.

Mr. Charles L. Baltzer, of Shanksville, returned from the eastern cities last week, where he had been to purchase a new stock of spring and summer goods.

We advise our friends in the rural districts to keep a sharp lookout for swindlers. Put your name to no paper when presented by a stranger; if you do, the chances are ten to one that you will have a note to pay for which you never received a particle of value.

The season for jumping rope has scarcely been ushered in until we read of young girls receiving their death by the too excessive use of this exercise. A girl in Ashland has lost the use of her legs through jumping the rope. Parents and teachers should endeavor to keep this recreation within the proper limits if the lives and health of the girls are not to endangered.

Notice is hereby given that the Fish Commissioners shipped to the undersigned a large amount of Brook Trout Fry, which were distributed in White's creek, Laurel Hill Creek, and Glade run, in this county, in the month of March, 1884, and the public is hereby notified that under the Act of June 10, 1881, all persons are prohibited from fishing in said streams for a period of three years, under a penalty of twenty dollars.
B. A. FICHTNER.

Confluence, May 2, 1884.

Do You See this Girl, my Child? Yes, I See her Often. Where is She Going? She is now on her Way to the Postoffice. And Where will She Go then? She will then Go to the train to See the Drummers and Other Nice Fellows who Come to Our Town. And Then Where? Then She will Go to the Postoffice Again. But Does she not Go Home? Oh, no, She has not Time to Go Home. She has to Watch the Postoffice and the Trains, you Know, and her Mother Attends to the Home Duties.

ADVERTISED LETTERS.—The following letters remaining in the postoffice at Somerset, Pa., will be sent to the Dead Letter Office if not called for before May 25, 1884:

Ball, Mrs. Rebecca; Fisher, Mrs. Elizabeth, 2; Fisher, Hiram; Gardner, H. L.; Gardner, H. H.; Lanntye, Miss Lessy; Hart, M. M.; Penrod, Eliza; Powhrs, Jas. 2; Roarbuck, Henry. Postals—Connor, Peter J. E.; Crabtree, Wm.; Fichelton, George; Horner, Miss Emma J. M.; Mathias, Peter.

IN NEW QUARTERS.—The Pittsburgh Evening *Leader* of April 10th, 1884, contains the following: "Among the more noteworthy removals this spring is that of Drs. Sykes & Moore, the eminent practitioners in chronic diseases. From 101 Penn avenue, where Dr. Sykes located over twenty-six years ago, they have removed to No 15½ Penn avenue, (new number 594), a few rods from their former place. Their new offices are on the ground floor, and are among the finest in the city. Drs. Sykes & Moore are the only physicians in Pittsburg giving exclusive attention to chronic diseases, and none stand higher than they in professional skill and personal probity."

A prominent business firm, which has grown rich by liberally patronizing the printer, writes the following on advertising: "We have for many years studied the art of advertising, and still it remains a marvel to us that there is not a hundred times more of it. We never yet knew a man to advertise his wares liberally and steadily that it did not pay. Yet there are thousands of manufacturers, and tens of thousands of men, having articles which they declare ought to be in every household in the country, who advertise as gingerly and closely as though they had at heart no faith in it at all. How can they expect to get their goods anywhere unless some knowledge of the article first gets into the family newspaper? If we waited till people learned from their neighbors we might wait for years before the most wonderful and useful invention became known."

A fire broke out in the woods on Sideling Hill, near the tunnel, on Friday, and caused considerable consternation among the contractors and employes. About four hundred men were put to work at fighting the flames. A high wind prevailed, and it was with great difficulty that the property in the neighborhood was saved from destruction. As it was the Judson powder house, containing about twelve tons of powder, was consumed, together with about 50 cords of wood. The men succeeded in saving the dynamite and black powder store-house, and about 2,000 cords of wood. The citizens of the locality were almost panic-stricken, and at one time it was feared that the entire valuable property of Messrs. O'Brien and Rodgers would be destroyed by the flames, but the men worked with a will and were successful in saving the buildings and several thousand cords of wood.—*Everett Press.*

THE GROWING WEATHER.—An exchange says: Notwithstanding the late spring and the generally indecment weather which we have been having for some time back, the growing season has opened at last, and all kinds of plants and herbs are springing up from the soil as if by magic. As to the fruit crop, there is every indication of an abundant yield every where throughout the country, as the buds of the most tender kind have not been blighted by the frost. To our utter amazement, the winter grain has been less injured by freezing out than it has been for years back. We have conversed with several of our farmer friends upon the subject and they assure us that they will not sustain any loss whatever from the remarkable open winter. In two or three weeks the retarded farm work will be completed and the country will present a far different appearance than it has for a long time past. The growing crops all promise an abundant harvest to the reaper, who is to follow further on. There is, therefore, one consolation to be derived from this source, and that is "hard times" cannot control the grain-producing work of nature.

OUR FOR THE CONVENTION.—EVERY PREPARATION BEING MADE TO INSURE A COMFORTABLE AND QUICK TRIP, WITH A No. 1 ACCOMMODATION.—As to be expected, the B. & O. is right on time with bottom figures on the rates to the Chicago convention. One fare for the round trip, with tickets good going from May 20th to June 23, and good returning up to and including June 12th is the way to talk it, and that is the tune the old reliable sets for others to follow or not, as they please. It matters little to the public or the road, as hereabouts all go by the B. & O. Every means will be provided to insure ample accommodations for all who come, and as for time the road's reputation in this respect leaves no room for question. As a matter of course, the B. & O. will take this business from this section, as no other line can compete with it in direct and rapid access to the seat of convention proceedings. Its trains run direct to Chicago without change, and when the demand reaches the limit of the regular trains sufficient sections will be added to accommodate the travel to the most satisfactory extent. An especial advantage possessed by the B. & O. over all other lines entering Chicago, is that its depot may be said to be almost a part of the structure in which the conventions will be held. It immediately adjoins the convention building, and the main entrance is but a very short walk from the platform where the trains stop. The B. & O.'s new depot in Chicago is, beyond all question, the handiest in the city, being within a few squares of the hotels and near the business centres. It is an exceedingly neat and commodious building, with attractive waiting rooms, and courteous attendants. The low rate,—half fare, or one fare for the round trip,—will be in force for both conventions, the National Republican in June, and the National Democratic in July. It would be a good idea for those contemplating going to have a talk with the B. & O. agents and learn all requisite particulars, in the shape of time of departure of trains, etc., etc.

What seems to be a new horse disease has made its appearance in this place within the last few weeks. In the last ten days about eight equines have been afflicted with the complaint, but no case has yet proven fatal. The disease seems to affect the kidneys more than any other part.

Attractive bargains in gents' furnishing goods, and all new styles. All the new shades of ties and scarfs, linen collars, cuffs, fancy colored shirts, white shirts. Unlaundried shirts from 50 cents to one dollar, at
PARKER & PARKER'S.

CHEAPEST BOOKS IN AMERICA.—At Fisher's Book Store there is now on sale a line of the cheapest books ever put on the market for sale. Elegant cloth-bound, gilt-title books for thirty-five cents each, three for one dollar. These books are by standard authors, such as Dickens, Scott, George Elliot, Lord Lytton, &c. These books are selling very rapidly, so rapidly in fact that the publishers are unable to keep up with the demand. Some of these books have as high as six hundred pages, and the price is so low that I advise the book-buying public to take advantge now, as the price is liable to advance at any time or the books be withdrawn from the market.

GAS MACHINE FOR SALE OR EXCHANGE.—I have a Firt-class Gas Machine which I will sell at one-half cost price, or will exchange for a horse. The machine is made entirely of brass and iron, and is without a doubt one of the finest machines made. It will supply from one to thirty-five burners, making the gas as it is consumed. It is automatic, and does not require any more attention than an ordinary lamp, and manufactures the gas at a cost of from 60 cents to $1 per 1,000 feet, according to the price of gasoline. For full particulars, address

DIED.

WELLER.—On Saturday, April 19 1884, in Berlin, Margaret R. Weller, aged 58 years and 1 day.

BALDWIN.—On Sunday, April 20, 1884, in Berlin, Caroline Baldwin, aged 65 years, 7 months and 14 days.

STAUP.—On Saturday, April 19, 1884, two miles Southeast of Stoyestown, Pa., Martha, wife of Jacob B. Staup, aged 25 years and 14 days.

The deceased was a daughter of Mr. Josiah Long, and was a faithful and devoted member of the Reformed Church. Funeral text—Matt. 11:28.

KIMMEL—On April 26, 1884, near Grave's church, Somerset county, Pa., Catharine, wife of Solomon Kimmel, aged 76 years, 9 months and 3 days. "Who shall separate us from the love of Christ?"—Rom. 8-35.

SMITH.—April 28, 1884, in Stoyestown, of Consumption, Louis Ellsworth, youngest son of Mrs. Margaret Smith, aged 19 years and 28 days.

Ellsworth was a young man of fine talent, noble character, and an earnest and good Christian. "Good hope, through grace."—2 Thes. 2.16.

A new postal note has been issued by the postoffice department at Washington, to take the place of the one first issued. It differs from the first one in that there are coupons and strips on the left for the dollars, the dime and cent column remaining as formerly. The face of the note is somewhat different and instead of making figures for the dollars and cents, it is now written out in full. On the lower right hand corner is a star, which is punched when the note is paid.

I have for sale in small quantities, Sibley's Pride of the North Corn, which you see advertised in an other column. This is a 90 day corn, it was ripe last season before the frost. I am satisfied this is the corn for our climate.
C. H. SCHNUCKER, Somerset, Pa.,

Several justices of the peace in Westmoreland county were refused their commissions by Gov. Pattison because they failed to file their acceptance of the office with the prothonotary within thirty days after the election. In such cases the Governor will fill the vacancy by appointment, until the first Monday of May, 1885.

Cherries, plums peaches and pears are in full bloom, and unless a killing frost shall come we may expect an abundant supply of these palatable fruits. Apple blossoms are just opening and while many trees will be full of bloom others will not have any. There may be a fair crop is nothing hereafter shall affect the fruit.

We are making dress goods a specialty; have a very nice line; call and see them. Success don't always make people proud, as you will find with all the success of our young lady clerk, she is not stuck up and will give you some very able hints about trimming etc. Call and see us.
J. B. Snyder, & Co.

SPRING OPENING.—We are pleased to announce that our Spring and Summer Stock for 1884 is now open for the inspection of the public. Our new line consists of a large and varied assortment of Furniture in styles, patterns and qualities to suit all. Bedroom furniture in suits or single pieces. Spring beds, mattresses, etc., are most desirable and our prices always right. Lounges, sofas, and easy chairs, which it will rest you to look at, good and low in price. Do not spend one dollar until you have seen our stock. No trouble on that score.
COFFROTH & Co.

Any black substance like a ball or band of cloth on the end of a pole may often be used to good effect in inducing swarming bees to light on.

A valuable improvement on the fish hook has been invented by a southern sportsman. About midway up the shaft of the hook he places a small cross bar, which serves three purposes. First, it prevents the fish from swallowing the hook; second, it increases the chances of capture, from the reason that when a fish strikes his nose against the projection he involuntarily closes his mouth, and so is securely caught; and third, it prevents the bait from slipping up the hook and thus removes from the art of angling its chief provocation to strong language.

ANNOUNCEMENTS!
