The only complete pulverizer and leveler in the world. All wrought iron and steel. The front coulters turn to the left, and rear to the right. By this arrangement the whole surface of the ground is cut, lifted and turned. The coulters work like so many small plows, and do not tear up sod or rubhish. Can be adjusted in an instant by means of the lever, to work deep or shallow. The principle of the Acme is to cut, lift and turn-pulverize closis, and level univen surfaces. It will pay any farmer to come 50 miles to see the Acme and its work, it is the only implement that can do the work thoroughly in hard or tough soil, or newly plowed sod.
