

A cold wave struck this section Sunday morning. The Micks seemed to have possession of the town Saturday night.

Many of our summer boarders are returning to their city homes. Mr. T. J. Picking sold his fat pacing horse at Bedford last week.

J. Miller, Esq., of Pittsburgh, is in town. He will remain until the first of September. The youth and beauty of this village indulged in a picnic at Breakneck Rocks, Monday.

Passenger Agent Patton has taken possession of his handsome suite of rooms, above Boyd's drug store. Our old friend and patron, Mr. Lud Lehart, of Donegal, of Westmoreland county, paid us a friendly visit Monday morning.

Mrs. Emery F. Warden and Miss Martha L. Warden, of Johnstown, are visiting at the residence of D. J. Horner, in Somerset. John Waterman, the tonsorial artist, has greatly improved the outside appearance of his barber shop, by having it neatly painted.

S. A. Will, Esq., of Pittsburgh, is spending part of his vacation in Somerset. He is receiving a warm welcome from his many friends. Dr. Albert P. Brubaker and wife, who have been spending the past two weeks in Somerset, left for their home in Philadelphia Tuesday morning.

Dr. Gillespie, of Elizabeth, N. J., presided in the Presbyterian church Sunday morning, and Dr. McLean, of New Haven, Conn., in the evening. Mrs. Dr. A. G. Miller, of South Bend, Indiana, is a visitor of the family of Capt. John H. Miller, on Main street.

The Republican conferees of this, the Seventh Congressional District, will meet in Somerset next Tuesday, September 3rd, to place in nomination a candidate for Congress. At the brass band tournament held at Mt. Pleasant last week, the U. M. band of this county, took the second prize. The U. M. band is one of the best in this county, of many brass bands.

Two large buses from Indiana, to say nothing of the carriages and wagons of all descriptions from this place, were kept hauling the people to and from the camp grounds, Sunday. The proprietor of the Glade House has purchased a new bus and a handsome team of iron grey horses, which he drives to and from his home to the railroad station, for the convenience of his guests.

There must be big money in leading people to and from the camp grounds at two or three cents a head, each way, that several enterprising livermen could bring their buses clear from Indiana here to run for one or two days.

There is scarcely a property owner in or about the town that has not been annoyed by having his small fruit trees by him. An example should be made of some of the young scoundrels by prosecuting and punishing them.

Harry, a nine-year-old son of Mr. Frank Shaffer, of Jenner Township, while after the cows last Friday morning, fell over the horse's head and the animal trod on his head, crushing the top of it and causing all most instant death.

A valuable horse belonging to Mr. Jacob J. Pike was run over and killed by a freight engine on the S. & C. Railroad at an early hour Sunday morning. The animal had gotten out of the pasture field and strayed on the track, where it met its death.

Mr. James Shaffer's chicken coop was robbed of several dozen young chickens one night last week, and several coops of rollers were stolen from his spring-house. The amount of petty thieving and pilfering that has been done hereabouts of late is appalling.

Messrs. Coffroth & Ruppel had their law office established by for the first time, Saturday night. The light is a very brilliant one and is certainly a great improvement on the oil lamp. The Good Templar's Hall is lighted by a kerosene lamp, gas manufactured by the same machine.

The Japanese tea party given by the Ladies' Mite Society of the District of Columbia, at the residence of E. S. Knell, Esq., last Sunday evening, was a very successful affair and was quite a success, financially. The proceeds were something over one hundred dollars, which is to be applied to liquidating the debt on the parsonage.

The Mineral City Band, of Johnstown, stopped over in Somerset for several hours on their way home from McKeesport, last Thursday. While here they marched up the street of the Herald office, where they played several of their choicest pieces of music. The crowd of people in front of the office, and certainly know how to keep up the horn.

A match game of base ball was played at the Harvest Home picnic, near Friedman, on Saturday last. The game was a very exciting one, and resulted in an easy victory for our boys. The score stood, Somerset, 3; Mottler, 0. The former playing four innings and the latter five. The success of the home nine is due to "Blubber."

The crowd of people in attendance at camp-meeting Sunday was quite large. The special trains on the S. & C. R. R. were crowded with people from along the line of the road, most of them being from the vicinity of the platform back of the camp-ground, thus avoiding a long, dusty walk, or paying fifty cents fare. The attendance was quite large as far as this year.

There was more drunkenness and carousing on the streets of Somerset Saturday night, than there has been at any one time for a number of years. Policeman Gilbert made a number of arrests, and did everything in his power to maintain order and rid the principal thoroughfares from the gangs of drunkards who were so common to them. It was too much for one man to do. The police force of our borough should be increased.

John Zeigler, a seventeen year old son of John Zeigler met with a serious accident last Friday, while engaged in assisting his father in building the stone pier for a new County bridge at Meyersdale. One of the principal thoroughfares from the gangs of drunkards who were so common to them. It was too much for one man to do. The police force of our borough should be increased.

A goodly number of persons have reaped the advantage of Dr. Sadler's visit to Somerset the past week. A son of Mr. Wm. Manser, of Shippensburg, who had his eye severely lamed by lime four months ago, causing the lid to grow fast to the ball and cover two-thirds of the sight with a thick scum, had an operation performed by which the lid was freed from the ball and the thick scum covering it cut away. Mrs. Elizabeth King, of New Lexington, who has been nearly blind all her life, and her eye painful under use, was fitted with glasses that made her see easier and plainer than ever before in her life. Mr. Lou A. Smith, the well-known editor of the Meyersdale Observer, was found to have compound mixed near-sight, each eye different. The Doctor succeeded in adjusting glasses so that his sight was more perfect than at any time in his life. Mr. Jones Telow, of Glade, had a near-sight opened, and an artificial eye, that his friends took to be the natural one, inserted. Half a dozen different cases of more difficult operations expect to go to the Doctor's infirmary in Pittsburgh in the early fall.

TO GET THERE.—WHAT IS TO BE DONE AND THE WAY CUMBERLAND AND HIS INTERESTS ARE EXTENDED OVER VERY WIDE AREAS. The good work at Cumberland, Md., goes merrily on and the reunion of those who in times which tried men's souls stood shoulder to shoulder beyond question be the largest and most enjoyable in the history of the organization. The Society of the Army of West Virginia. It is an old and time-worn saying that nothing is being left undone and that sort of thing, but in this instance it is the positive fact, and every man, woman and child in the place are doing their best to see that the life and that the success of the affair from beginning to end. In this respect the B. & O. is not a whit behind and its extensive arrangements for transporting the throng to and from Cumberland and also for the series of grand excursions to follow the reunion are based upon a plan of liberality which cannot be too highly praised. No railway line in the country can compare with the Baltimore and Ohio in historic and picturesque interest, and to an old soldier of the Valley Division, simply beyond compare. From Harper's Ferry up the Shenandoah on either hand for miles after miles it is all historic ground, the battle fields of the past. To them will be run special excursion trains at very low rates of fare, and combined with all will be the visit to the wonderful caverns of Luray, than which Nature vouchsafed mortal man no more amazing eccentricities of development.

To Luray alone the cost of the whole trip would be much more than repaid, but when adding the visit to the battle fields and the almost countless attractions of the two days' trip, the five dollars expense for railroad fare becomes comparatively insignificant. The reunion opens September 21 and continues three days. The B. & O. throws open its entire system, main line, division and branches, to the exceptionally low rate of one-half fare, or one fare for the round trip. These tickets go on sale the 30th of this month, and will be sold good for the trip to Cumberland up to and including the 4th of September. For return passage they will be good up to and including September 8th. That is to say, one can purchase these low rate tickets and have ten days limit upon them for the return.

BLANKS AND LEGAL CLERK.—PURSUANT to adjournment of the Club met at the Court House on Saturday evening August 26, 1884, and was called to order by Chairman J. M. Cook. The report of the Committee on Permanent Organization was presented and approved, and Committee discharged. The following are the officers elected: President, Col. John R. Elder; Vice President, Washington Stonebraker; Secretary, A. C. Davis; Treasurer, Parker Trent; Recording Secretary, Ellis Cunningham; W. B. Trent, John H. Weimer, D. J. Horner, A. C. Davis.

On motion, F. J. Kooser and George Snyder were appointed a committee to enroll a marching club from the members of the Blaine and Logan clubs, with a view to the purchase of uniforms and the purchase of a uniform dress, and the style and price thereof. On motion of Messrs. Halbert and Koonz, the Executive Committee proceeded at once to solicit subscriptions, when Mr. Froese reported a number of names subscribed. On motion, Messrs. Scott, Holbert and Harrison were appointed a committee to draft a set of rules for the government of the Club. Club met in the Club Room on Saturday evening, August 25, 1884. Report of the platform back of the camp-ground, thus avoiding a long, dusty walk, or paying fifty cents fare. The attendance was quite large as far as this year.

remember that it is an ill wind that does not bring you good luck. This potato disease is going to wipe out the potato beetle, root and blight. Miss Ella Lachy, daughter of Geo. C. Lachy is at present visiting friends and relatives in this section. Also Mr. Oliver Stoner, wife and family, from Philadelphia are visiting a few of the local worthies in Berlin and vicinity.

Last week one day our returned neighbor D. P. Walker received a severe kick from a vicious horse in the stomach, at first his life was despaired of, but under the efficient treatment of Dr. Miller, of Berlin, he is convalescing.

A few days ago a good old staunch Republican, Levi Klinger, had one of his fingers run through between two logs, while separating and completely mangled. Levi I hope it is not bad enough to interfere with your sticking in a big vote for Blaine and Logan.

Last Friday evening a very sad and unusual accident occurred near Pine Hill. A boy and girl fourteen years of age, a son of Peter Gumbel, while making a horse race, kicked on the head by one of the horses and killed instantly. The family has our heart felt sympathies.

Last Thursday Mrs. Benjamin Kimmel, who was living with her son-in-law, Wm. N. Kimmel, died of a lingering illness, at her eighty-sixth birthday.

They have two literary and debating societies organized by the young men of Berlin, meet every Tuesday evening, and none but members are admitted. The other is connected with the school, and meets every Friday evening and every one is welcome to attend who can conduct himself in a proper manner. Both are in a flourishing condition.

The school directors of this township are paying the following wages to teachers for the coming term. Prof. certificate, thirty dollars per month, first class, twenty eight and second class, twenty four. I think our directors should make more of a difference per month between Prof. and first class certificates, what we want in our schools is teachers with qualifications and good common sense, and it will pay us who have children to educate in the end.

Our fine and Logan clubs is increasing very fast in numbers. The club will meet again in Berlin next Saturday evening, when able speakers will be present and the different committees are to report. Turn out, Republicans.

The voters over this way think Butler's letter is most comprehensive, and Cleveland's are the most eloquent. They will vote accordingly on 4th of November next.

Now and Then. MARRIED.—DURST—SHROYER.—On Wednesday, August 29, 1884, at the residence of Mr. Levi Stoner, in Addison township, by Josiah Rimmer, Esq., Mr. William C. Durst to Miss Mollie Shroyer, all of Garrett county, Md.
