HALL'S Vegetable Sicilian HAIR RENEWER

was the first preparation perfectly adapted to cure diseases of the scalp, and the first successful restorer of faded or gray hair to its natural color, growth, and youthful beauty. It has had many imitators, but none have so ully met all the requirements needful for the proper treatment of the hair and scalp, hall's Hair Renewen has steadily grown in favor, and spread its fame and usefulnes to every quarter of the globe. Its unparalaled success can be attributed to but one cause: the entire fulfilment of its promises. The proprietors have often been surprised at the receipt of orders from remote cour tries, where they had never made an effort for

The use for a short time of HALL'S HAIR RESEWER wonderfully improves the personal appearance. It cleanses the scalp from all impurities, cures all humors, fever, and iryness, and thus prevents baldness. It mulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not ansient, like those of alcoholic preparations, but remain a long time, which makes its use a matter of economy.

BUCKINGHAM'S DYE FOR THE WHISKERS

CME PULVERIZING HARROW. CLGD CRUSHER and LEVELER.

The only complete pulverizer and leveler in the world. All wrought iron and steel. The front coulters turn to the left, and rear to the right. By this arrangement the whole surface of the ground is cut lifted and turned. The coulters work like so many small plews, and do not tear up sed or rubbish. Can be adjusted in an instant by means of the lever, to work deep or shallow. The principle of the Acme is to cut, lift and turn—pulverize clods, and level uneven surfaces. It will pay any farmer to come 50 miles to see the Acme and its work. It is the only implement that can do the work thoroughly in hard or tough soil, or newly plowed sod.

2,000 pounds, delivered on car or boat at Philadelphia.

This power is always ready, and can be used for many purposes. Runs as regular and steady as steam, by means of a governor, or speed regulator.

THE UNION THRESHER AND CLEANER does its work effectually. Also, Thresher and Shaker, without Cleaner. Will thresh all kinds of Grain, B Wheat and Grass Seed. Call and see \$25.00 Phosphate.

For circulars giving analysis and further information, call
