Notice.—A large boat came trespassing on my premises last week. The owner can remove the same by calling on me and proving property.

Following is a report of the Biessaker school, for the first month, ending November 15, 1884: M. F. T. Na, in attendance during mo. 21 14 23. Average attendance 17 17 39. Per cent of attendance 50 51 91.

The school deserves commendation for the excellent character of their work thus far, and we thank the patrons for the interest they manifest, and for their co-operation in the work. With such a spirit among all concerned we look forward with pleasure to the work before us, hoping that the same spirit continues to manifest itself, and that the good work will go on.

Ed Daniels has his steam saw mill on David Bowman's farm, sawing material for the rebuilding of his barn, which was lately destroyed by fire. John Arkeny has been contracted for the mill by M. L. Young.

Sarah Gardner, daughter of George Gardner, of Stanton's Mills, died of consumption on the 12th inst, and was buried on the 19th inst at the Horner church. Her age was 25 years, 9 months and 25 days.

Rev. A. K. Felton, pastor of the Stoyev-ton charge, a few Sundays since announced to the members of his congregation that they need not take a vote on his continuance as their pastor, as he would shortly hand in his resignation.

John Knapp, formerly of this county, but now of Westmoreland, is now on a visit to his old home and friends. Mr. Knapp says he feels sorry over the result of the general election, but rejoices that old Westmoreland was redeemed from plundering Democratic rule.

Brothers-in-law items. Our hunters have plenty of deer and wild turkeys, but they are all in the woods yet. The greater part of butchering is past and sausage and spareribs are the delight of the school and hall.

Miss Emma Schrock, whose life was despoiled of from the effects of typhoid fever, we are happy to report, is convalescing. A few runaway teams and demolished wagons without any serious injuries and a half a dozen spelling "bees" were some of the gossip the past week.

Our good old Republican friend, David D. Meyers, at the Miller, died on the 11th inst. He was a native of this county, and was one of the best men in his county. He was a member of the church, and was a very good man.

So far the heaviest Yorkers slaughtered in this section were one by D. L. Meyers, that weighed 365 pounds by Sam Forney that weighed the team at 294 pounds. All our heavy Yorkers are being held back for cold weather.

The Democratic justification in Berlin last week was not as jolly as was expected. One cause was that there is no license in Berlin; another, they are having quite a time already over the postoffice and still-house stockpiling. Boys, we think we hear music in the air.

Our Republicans are proud of the royal record of the County and State, but are deeply grieved that through the treacherous acts of a few independents and sea-holes of New York, this nation shall for the next four years be ruled by Democrats, backed up by the whole of rebellion. But we hope that four years of such rule will be an eye-opener to some people.

B. F. Morgan & Co. have the contract for furnishing the coal at the Allegheny tunnel. They are to furnish five to six hundred bushels daily, and Mr. M. has about a dozen teams employed in hauling the coal from Berlin to the tunnel. He informs us that it is coal trade in the shipping line was very dull all summer, and since the election it amounts to nothing.

Wm. A. Rhoads, of whose sore foot we have mentioned some time ago, had to undergo an amputation, as the last remedy for saving his life. The operation was successfully performed by the family physician, Dr. J. K. Miller, assisted by Dr. Brubaker of Somerset, and Krissinger, of Berlin. Since the operation Mr. Rhoads is recovering strength and the limb is beginning to heal.

Thanksgiving was celebrated in an unusual manner, in Brothersville. I guess somewhere or other people did not think of it as former occasions. A great many of our citizens went hunting for rabbits and wild turkeys. Of the former scores of them were brought home, but of the latter only a few. Samuel Roscher bagged two hobbles, and Daniel Brubaker, of Berlin, was the only one who was successful in getting a turkey. He says he is as fat as a pig.

The schools in this district are moving along as usual. The school teacher should realize the fact that he is one of the principal factors in the education of the nation, and then act accordingly. The director should also understand his responsibilities, and visit the schools frequently. Teacher, director, and parent should work together in this good cause, and watch the progress of the schools to almost new watches her brood, and more satisfactory progress will be the result.

Now and then. MARRIED. MENNER-CUSTER.—November 18, 1884 at the Lutheran parsonage in Somerset, by Rev. J. F. Shuman, Mr. Jacob W. Menner and Miss Annie J. Custer, both of near Somerset.

RUSHEBERGER-BAKER.—November 27, 1884, at the same place by the same, Mr. Robert Rusheberger to Miss Kate Baker, both of Bakerville, this county.

McQUADE-SKELLY.—In Berlin, September 21, 1884, by Rev. J. W. Poffinger, Mr. James McQuade and Miss Margaret Skelly, both of Berlin, Pa.

Following is a report of the Biessaker school, for the first month, ending November 15, 1884: M. F. T. Na, in attendance during mo. 21 14 23. Average attendance 17 17 39. Per cent of attendance 50 51 91.

The school deserves commendation for the excellent character of their work thus far, and we thank the patrons for the interest they manifest, and for their co-operation in the work. With such a spirit among all concerned we look forward with pleasure to the work before us, hoping that the same spirit continues to manifest itself, and that the good work will go on.

Ed Daniels has his steam saw mill on David Bowman's farm, sawing material for the rebuilding of his barn, which was lately destroyed by fire. John Arkeny has been contracted for the mill by M. L. Young.
