

WED. E. SCULL, Editor.

Good butter is scarce at this season. The sleighing has been excellent for the past few days.

The South Pennsylvania railroad, it is said, will be finished by June 1885.

Mr. Ed. A. Upton, of Ursina, paid the Hazard a visit of a few days Monday morning.

A wreck on the S. & C. R. B. detained the passenger train South several hours Monday evening.

Our principal thoroughfares were crowded with sleds and sleighs from the country Saturday.

Her Majesty the ground hog has made her appearance and mapped out the condition of the weather for the next six weeks.

We see the name of Hon. A. J. C. Gohorn favorably mentioned by a number of our exchanges for the nomination for State Treasurer.

This week lay before our readers, for their careful perusal, the annual official statement of the receipts and expenditures of the county for the past year.

Stewart Launz informs us that 1,917 traps, who were given on an average of two each each, were fed at the county house during the month of January.

The handsome new sleigh turned out by the Somerset House Saturday, excited the admiration of all beholders. It is an imposing concern and is very neat and comfortable.

The Auditors of Chester county refuse to serve \$100,000 worth of bonds, the compensation fixed by law. A petition has been presented to the Legislature asking for an increase of compensation, and meanwhile the officials accounts remain without audit.

Monday was "Ground-Hog-Day" and his prophetic dim view his shadow if he be seen didn't come out of his hole, as the sun shows bright and clear all day. According to the old adage we can now look for six weeks of cold and stormy weather.

It is now settled that Greensburg will have a fair next fall. Arrangements have been made by the Westmoreland County Agricultural Society to hold a fair on the old grounds. Everything is favorable to a successful carrying out of the arrangements made.

The old Chesapeake-Gazette will hold its place in the front rank of Pennsylvania newspapers. Its daily edition has a circulation of 21,000 and is weekly of \$2,000 copies. It is well edited and ably conducted, although it is in its nineteenth year. It is as lively and enterprising as a two-year old.

Messrs. E. E. Wolf & Co., proprietors of the Somerset Chemical Works, have recently had the buildings destroyed by the recent dynamite explosion and retained operations Monday morning. The works are now under the control of an efficient and experienced foreman and the buildings have been reconstructed as usual, as much as possible, the danger of accidents like the one which recently occurred.

William Zimmerman, Esq., died at his residence in Mechanicsburg on Saturday last. He was the second son of the late Judge Michael Zimmerman and was about 65 years of age. For many years he resided in Jenner township, where he was much esteemed for his social and moral worth, and great personal integrity. A good citizen, a warm friend and a kindly neighbor, his death will be felt as a loss to the community who will know and value him. His body will be interred at Mt. Taber Church, Jenner township on this (Wednesday) morning.

A correspondent from Lower Turkeyfoot writes us that Saturday last a young boy named Samuel Beckey, a grand son of Melville Knapp, who is a member of the Board of Commissioners in the House this week, was engaged in cutting a road through the woods a large white oak across the road in front of him. The young man immediately started in pursuit and in a short time he cut up a large tree. The boy cut the oak down when a regular monkey and monkey like animal came out from behind the tree and jumped over the boy's head. After having his clothes and portions of his skin and flesh torn from him he succeeded in killing the animal which measured five feet from the nose to the tip of the tail. A pretty brace for a thirteen year old boy.

We notice the printing bill of the Commonwealth is set down at \$180,750 as charged on county printers. It is to be submitted to the House on Friday. Our bill was \$129,750. The Auditors admit the rate per copy was uniformly lower than any other paper in the country. It is a small affair, but the fact that such a large bill is so small is a credit to the printer as well as to the State.

So it do, brother Smith, so it do; but the "Commonwealth" never tells the truth even in "little things" if an article will be answered in its own words, as witness the above. Your bill was \$129,750, as published, and all fees coming to me not paid by that date, will be placed in the hands of an officer of the law for collection. Please give this your immediate attention and save further costs.

A. A. STEWART. At a meeting held at Huntington on Saturday last, the representatives of the District of Somerset, which embraces the territories west of Baltimore and between the two rivers to Pittsburgh, arrangements were made for the annual meeting to be held at Somerset. The meeting will be held the last part of May, during Whit-wednesday, near Mexico Station, about 6 miles west of Millstown, Juniata county, on the line of Mt. Seneca Park. Great preparations are being made by the representatives of the District in that territory to make the meeting of whom will attend the meeting.

The following is a report of the A. J. Miller School in Somerset Township for the third month ending Jan. 13, 1885.

Was 100 in attendance during month. 20, 2 female 20, total 40.

Was 100 in attendance during month. 20, 2 female 20, total 40.

Was 100 in attendance during month. 20, 2 female 20, total 40.

The two literary societies are still in a flourishing condition. Question for debate at Sandy Hollow was: "Fidelity exceeding love." Resolved, That war is detrimental to a Nation's greatness. All are invited to attend.

Mr. J. G. Gardill, of Berlin, bought the Edward Munster farm for \$10,000. Peter J. Meyers will do the farming for Mr. Gardill. Peter understands all parts of the business, and has a good stock of sheep and cattle. The "Dunkers" are holding a series of meetings at the Pike church. So far we have made the good confession from the preaching of Elder Mohler from Millin county. Revivals, I think, are in order every where and at all times, but I don't know of a place where a revival could spread itself more successfully than he can at this church.

The parents who have sons and daughters to educate are highly excited since they know that Prof. Berkley will remain and take charge of the Berlin normal a few years longer. The Professor can depend on Sandy Hollow to furnish a good number of pupils for his spring school.

Colonel Copeland will lecture in Berlin on Tuesday evening, February 10th. The subject I believe is, "What shall we be?" This is a new departure for Berlin to have a lecturer come in her midst, but she is looking forward to it with pleasure. Her sister, Mrs. Copeland, is highly recommended by some and we wish to hear of her. We may be able to judge better after we have heard the lecture.

The Republicans of Brodheadville, with few exceptions, are highly gratified over the re-election of J. D. Cameron for the U. S. Senate. A few, here and elsewhere thought J. D. Cameron was dead politically forever, but now they can see their great mistake, and it is hoped that they will cease forever any thought of flight against the great statesman as Cameron or Beaver, and a host of others. Remember the old saying, "Truth crushed to earth will rise again," that which has been and always will be true, and it will repeat itself two years hence when the next Congress will be elected. The Republicans of Brodheadville will hold a primary election on Saturday, February 14th for the purpose of nominating candidates for the various Township offices to be voted for on the following Tuesday. Turn out Republicans because a nomination means an election and don't you forget it. Now & Then.

Now & Then. HARRISBURG, Jan. 30, 1885. From Our Regular Correspondent.

All the bills that have been introduced, become laws, we can close up the Legislature for the next generation to open bills. Bills have been introduced in the interest of every profession and calling, bills promoting the welfare of the people, bills prohibiting every species and kind of marginal speculation, bills for the deaf, dumb and blind institutions, bills making laws for the aged and infirm, bills encouraging pauperism by granting appropriations for homes for poor and indigent children in every part of the State, bills to reconstruct the constitution, bills to amend the constitution, bills for high license, bills for low license, bills prohibiting liquor being granted, bills for schools and bills for colleges and in fact bills for everything that the mind of the average statesman can think of. Petitions presented by the yard are pouring in from all over the State praying for the passage of the bill introduced by Hon. S. W. Mendenhall, for the purpose of Physiology and Hygiene to be taught in our public schools with special reference to the effects of alcoholic stimulants and narcotics on the system. I believe Somerset county is the only county that has not sent in a petition praying for temperance legislation. Many valuable bills have been introduced since that time and many that ought never to have been written. As an example, yesterday a rural legislator urged the Judiciary Local Committee to report affirmatively a bill requiring a peddler or hawker of goods to pay a license of \$50 a month and any person caught peddling or hawking who had no license should on conviction be sentenced to imprisonment for a period not less than three years. Rather expensive business, when the license is \$50,000 a year, and exceeding 100,000 in number. Now this is the nature of a number of bills that have been introduced. A large number of the new measures seem to want to immortalize themselves by introducing some bill making a sweeping change or a signal reform. They eagerly enter on their career by their first term until they want to make themselves sure for a second term, and take this way generally of trying to do it. Several very good bills have been introduced in both Senate and House in relation to Public Schools and the course of instruction taught in them.

Among the bills reported favorably from Committees in the House this week were the following: For the education and maintenance of destitute orphans of soldiers sailors or marines. Prohibiting treating to alcoholic stimulants. Prohibiting boating on the waters of the State. Restricting schools for the support and employment of the poor. A bill in relation to soldiers' discharges, imposing a penalty on those authors who secure possession of a soldier's discharge and refuse to return it. Relating to the matter of selecting text books for public schools. The senate bill awarding \$50,000 to Commissioner Thomas for preparing exhibits of Pennsylvania at the New Orleans Exposition was killed in the House on Thursday morning. It looked as though it were going to pass, but a minority report was introduced by Mr. Galloway, who showed that at a trial was proved by John Schoemaker of Bucks (who had written to the State Treasurer of most every State) that no other State had appropriated any money for it, as Mr. Thomas said they had, and then it was killed most officially.
