Boston Beacon,

A MUTUAL UNDERSTANDING.

A good FLAIN WASH.

An amusing sneedote is told by an old inhabitant of Kinderhook, of Thomas H. Benton when the guest of Mr. Van Buren at one of those famous dinner parties for which "Lindenwald" was noted in its palmy days. After the dessert had been served, finger-bowls were brought in and were viewed with some suspicion by one or two of the guests. When dinner was over Mr. Benton said to a friend: "I observed Mr. Van Buren immerse the tips of his fingers in one of those little glass bowls and wipe them daintily on his face.

"If Brudder Shindig Watkins am in de hall to-night he will please step dis way." said Brother Gardner, as everybody except Bed-Rock Taylor drew in his feet and ceased coughous whisper would circulate from one cabin on the cotton and sugar plantations to another, and on a certain evening a crowd of colored himself into the northwest corner and was rubbing down a bunion with a fragment of grindstone, but be slipped on his shoes and made his way to the president's chair with a look of keen expectancy on his face.

"Brudder Watkins had jammed to see and made himself into the northwest corner and was rubbing down a bunion with a fragment of grindstone, but be slipped on his shoes and made his way to the president's chair with a look of keen expectancy on his face.

"Brudder Watkins had jammed to grindstone, but be subject on his face, in a caldron hung over a fire distribution."

Brudder Watkins had jammed to grindstone, but be subject on the cotton and sugar plantations to another, and on a certain evening a crowd of colored himself into the northwest corner and was rubbing down a bunion with a fragment of grindstone, but he slipped on his shoes and made his way to the president's chair would brew a mess of herbs, blood, would be same poisonous order as tobacco and nightshade, and contain an acid juice wich is unpleasant to the taste were of common occu

REPORTS OF GOVERNMENT CHEMISTS As to Purity and Wholesomeness of the Royal Baking Powdes.

"I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartin powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances.

E. G. Lovz, Ph.D."

"It is a scientific fact that the Royal Baking Powder is absolutely pure.
"H. A. Morr. Ph.D."

"I have examined a package of Royal Baking Powder, purchased by myself in the market. I find it entirely free from alum, terra alba, or any other injurious sub-stance. HENEY MORTON, Ph.D., President of Stevens Institute of Technology." "I have analyzed a package of Royal Baking Powder. The materials of which composed are pure and wholesome. S. Dava Haves, State Assayer, Mass."

The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennial, Philadelphia, 1876; at the American Institute, New York, and at State Fairs throughout the country.

No other article of human food has ever received such high, emphatic, and universal endorsement from eminent chemists, physicians, scientists, and Boards of Bealth all over the world. Note—The above Diagnam illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Schedler. A pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth by

Prof. Schedler only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it costs a few cents per pound more than ordinary kinds, it is far more economical, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder will convince any fair minded person of these facts.

* While the diagram shows some of the alum powders to be of a higher degree of strength than other powders ranked below them, it is not to be taken as indicating that they have any value. All alum powders, no matter how high their strengther to be avoided as dangerous.

Frozen Kindnes The world is full of kindness that never was spoken, and this is not much better than no kindness at all. The fuel in the stoves makes the room warm, but there are great piles of trees lying on rocks and tops of hills where nobody can get them; these do not make anybody warm. You might freeze to death for want

of wood in plain sight of these fallen trees if you had no means of getting the wood home and making a fire of it. Just so in a family; love is what makes the parents and children, the brothers and sisters happy. But if they take care never to say a word about it; if they keep it a profound secret, as if it were a crime, they will not be much happier than if there was not any love among them; the house will seem cool even in summer, and if you live there you will envy the dog when any one calls him poor fellow.

A Fortunate Discovery.

A new light is thrown on the subject of Consumption by Dr. Wagner Kemp, discoverer of Kemp's Balsam for the Throat and Lungs. A remedy that has proved itself to be a remarkable compound. It does its work thoroughly, stopping a hacking cough instantly. Sold by C. N. Boyd. Price 50cts and 18.00. Trial bottle free. Get

THE BERLIN MARBLE AND GRANITE WORKS IS THE BEST PLACE TO BUY

IN THE COUNTY, AND THE ONLY PLACE WHERE

Can be purchased at a reasonable price. We claim to do BETTER WORK, set it up better, proportion it better, and SELL IT CHEAPer according to quality, than any other dealer in Western Pennsylvannia. If you want to be convinced that this is done by the Berlin Works with that done elsewhere.

R. H. Koontz is the best man to deal with: FIRST, Because he is Fully Established in The Trade, and is therefore

doing a perfectly Reliable Business Second, Because his Very Extended Experience, and Artistic Skill, en ables him to proportion his work better than others. THIRD. Because he claims to be, and can prove it by his Work and Nu merous Patrons, the Finest Carver, the Neatest Letterer, and the Best General Workman doing business in this section of country.

THE OLD RELIABLE SCHUTTLER WAGON. ESTABLISHED IN CHICAGO IN 1842.

I have just received two car loads of the Self-oiling Steel-skein Schuttler Wagons, the most complete Western Wagon in the market for Road or Farm Purposes. On the latter there is a lear Brake, to be used when hauling lay or grain, a something that farmers know the necessity of when hauling on hilly farms. Every part of the Wood-work of this wagon has laid in Stock three years before being worked up, insuring the work to be thoroughly seasoned before being ironed. Being the patentees of the

DOUBLE COLLAR AND OIL CUPS. It is the only Wagon made that has this improvement. It avoids the necessity of taking off the wheels to grease, as in the old style; by simply turning a cap the wagon can be oiled in less than five minutes. This Wagon wants to be seen to be fully appreciated, and parties wishing to buy will do well to see it before purchasing elsewhere. EVERY WAGON FULLY INSURED. In offering this make of Wagon to the public, will say I used the same which I sell as make of Wagon for five years when freighting across the Rocky Moun-

> tains, over roads that were almost impassable, and they always stood BOTTOM PRICES Call on Oliver Knepper or Henry Heffley, who will show you the
