

THE FOURTH.

Although historians may cavil and doubt as to the actual day on which the signatures were affixed to the declaration of Independence, yet the American people have by common consent settled upon the 4th of July as the anniversary of the severing of the ties between England and the colonies and the naming of them as "free and independent States."

After a considerable amount of backing and filling, Governor Hoadly of Ohio has, "at the request of the President," consented to accept a re-nomination.

FROM 1877 to 1884 there has been collected in the Internal Revenue departments throughout the country and turned over to the Treasury the sum of \$1,014,531,501.81.

ALLEGAN, Mich., June 30.—While Circuit Judge Arnold was hunting sheep in a patch of oak grove west of town yesterday he found the body of a woman.

CLEVELAND, July 1.—A disastrous fire occurred at 347 and 351 Broadway this morning at 3 o'clock.

It is a somewhat remarkable circumstance that you never hear of a poor man having the hay fever.

A Texas newspaper thinks "the faith cure is well enough," but when a fellow is snake bit he will generally take a little whiskey to brace up his faith.

"A gospel that will get hell out of Indians—not a gospel that will get Indians out of hell," is what the Apaches need, according to the Rev. Dr. Willis, of San Francisco.

"A servant girl who permits no familiarity on the part of the gentleman of the house" advertised for a position in Cincinnati, and received 580 answers in two days—all from ladies.

When an editor tells a good-looking young postess that her verses on "Lilies" are "perfectly lovely," you may not take it to your mind that he can hilaic everything when he wants to.—Burlington Free Press.

If Adam had only had the "chip-readiness" to remark, when his spouse invited him to taste the forbidden fruit, "Not this Eve, we would all be living in Southern Mesopotamia at the present day."—Burlington Free Press.

Occasionally a mad dog rushes through the street, and forthwith the authorities are called upon to muzzle or kill every dog. And you, who kill 500,000 people, and bring millions of others to misery and want, where a single one is killed or injured by a rabid dog. The moral is plain. Do more muzzling of whiskey.

BALTIMORE July 1.—An inventory of the estate of the late John W. Garrett was returned last evening to the Orphans' Court for Baltimore county by O. P. Macgill, the appraiser.

PRESIDENT CLEVELAND, is said to be working hard. But almost anybody would be willing to work hard if furnished a fine house to live in free, and paid \$136.95 cash for every day of the year.

Mrs. DUDLEY, who attempted to kill the blatherskite, O'Donovan Rossa, has been acquitted by a New York jury, on the ground of insanity, and the Court has committed her to an insane asylum.

WHILE professing to deprecate factional differences in the Republican party, no paper does so much to foster and encourage them as the Philadelphia Press. Aspiring to lead the party, it is its worst enemy.

ALL this cant and hypocrisy about the appointments makes us very tired. Everybody understands it, and everybody would feel much more respect for the President if he would speak out manfully, and say "Civil service reform may go to the dogs. I want the offices for my party friends."

THE continued bad health of Malcolm Hay, First Assistant Postmaster General, has compelled him to resign, and it is said that A. E. Stevenson, of Bloomington, Illinois, will be appointed in his stead.

A REFORM is making headway at Washington "to allow every fellow to pay for his own drinks at the bar" and "to allow ladies to pay their own car fare and for tickets to the theater," etc. It is called "Dutch treating" by the Washington reformers. It will doubtless save many a close-fisted fellow from going home close.

THE White House was besieged last week by a horde of place hunters, who were under the impression that a "clean sweep" would be made at the end of the fiscal year.

THE newspapers are generally copying the remark that "Mrs. Garfield, Mrs. Hayes and Miss Cleveland were all school teachers."

Shot by an Officer.

ERIC, June 30.—Eric was the name of another gypsy to-day. As the gates of the jail opened to let out Brown, the assassin of the old soldier Dunn, for a hearing, an ambulance drove up with the inanimate form of James Cleary, a dying burglar, shot through the lungs by officer Dundenhofer at sunrise.

Shot the Girl he Loved.

JOHNSTOWN, N. Y., July 3.—Last evening people here were startled by seeing a man driving through Main street on a run, inquiring for a doctor, saying that a man had shot a girl and then killed himself.

Two Little Girls Murdered.
