Jos. Horne & Co.'s AN INTERESTING LETTER.

DR. DAVID KENNEDY, Rondouf, N. 7.

B. BLAR SIR: — For ten years I have been a sufferer from disease of the sidneys, at times so much so as to make life a burden. During this time several of the cest physicians in Indians have treated me with little or so success, until I had almost despaired of relies, I then tried several advertised remodles, but nothing produced the desired result until a friend who had been relieved induced me to give DR. DAVID KENNEDY'S FAVOR-ITE REMEDY a trial. I did so. After Isking one buttle I began to experience relied, I took moother, and was charmed with the result. In all I have eaken loar i ottles, and can truly say I feel like a new man. I am confident I am entirely cured, as if has been several months since I took the last medi-inc, and there is no indication of a return of the disease. I have recommended your remedy to several suffering friends who have also been relieved. I write this to return my sincere thanks to you for the cure which has been effected in my case, and also desire to say I think suffering humanity owes you a debt of gratitude for your wooderful scientific discovery. I shall do all that hi me lies to let all sufferers know where they may find relief, and thereby in some measure remunerate you for the good you have done me.

Wishing you long life and departed.

He sure, yer honor, fwhat did I have

Digging Potatoes-Rotting

The unusual amount of moisture the present season, in many parts of the country, has caused much rotting. The question arises, shall we dig early, or allow the tubers to remain in the soil until late in au-tumn? Here again, judgement and discretion must be used. If the soil is heavy and wet, and the weather continuously warm, the rotting will be increased by leaving the potatoes in the ground, and it would be better to dig them at once. They may then be placed in oblong heaps about two or three feet wide, on a well drained spot of ground, and covered just thick enough with straw to exclude the light and prevent them from becoming strong. Or, they may be spread on the floor of

a barn or out-house, and left there till freezing weather approaches before taking them to the cellar. The "Show-Cards Written Here by mud or earth which adheres to them Men of Letters." Such was the will become dry, and will crumble Canal street legend that caught the off in handling in the removal. They time to store for winter. This will "Comic signs?" said he in answer require one additional transfer, and It is remarkable that the four most to an inquiry for information. give a better chance to knock off all powerful ships in the world-al- "Well, they may have been once, but the adhering dirt, and thus lessen there's nothing new under the sun," the chances for the increase of the

against one of the towers of the East go about your business, and give him pattern and folding it over carefully at the waist line, "select a thread "A young man down town, who that runs from selvedge to selvedge earns a precarious livelihood by and place this crease I have made ossus immovable. But get together another hundred thousand, and then another hundred thousand, and then fectly even with the grain of the material, smooth out your pattern top A business man has posted con- and bottom, and after securing it firmly to the cloth at the waist line, pin it firmly and cut it out. Do not cade velvets at special low prices.
