The butter and cheese factories in this county operated by the Somerset Dairy Company are all running, and are being highly patronized by our farmers and dairymen, who seem to have at last realized that there is more money in sending their milk and cream to the factories, than in manufacturing butter.

With the assistance of a pair of crutches, Mr. Frank Postlewhite last week managed to hold over to the Herald office, where he was worked for many years and where he is always welcome. The broken bones in his leg are slowly knitting, but it will be some time before he will have full use of the injured limb.

Shower or Dead Birds.—On Monday when the watchman of a Chicago Board of Trade building made his rounds, he found the sidewalks and streets in front of the tower covered with dead birds of all sorts. A little later the electric trolley, and the birds had been killed by the electric light at the top of the tower. When he went up to the lantern when several members of the Board of Trade the roof was found to be covered with dead birds, and each of the lamps in the circle of light was filled with them, one globe having eight birds in it. These birds are of every known variety, and many unfamiliar species are among the lot. All shades and colors are there, raven, blue, pink, red, white, and black and white, and there were some white and black and white. The theory is that they were migratory flocks, going south to north, and were attracted by the bright light which killed them the moment they touched it. The several cars on the street with bags and baskets, and in less than two hours the sidewalks were cleared.

ENTER HERALD, SOMERSET, PA. For the purpose of advertising for Fort Hill, Pa., sends me a clipping which says in your paper, headed, 'A Word of Warning,' and cautioning people against a suspicious-looking character who was traveling in the county, and who was said to be a doctor, and professing to have connection with this institution. I desire to state, and would be pleased to have you make public, the fact that no one connected with our institution is traveling about the county soliciting to examine and treat patients. Our staff of physicians and surgeons do not travel except when sent for to visit important cases in consultation, or to perform important surgical operations, and are always well and well known to all our friends, and should be apprehended and punished as such.

A REVEREND GENTLEMAN'S EXPERIENCE.—Little Kilo, of Bedford, was married in Philadelphia on February 6, 1881, to George Bestine, but after a month of wedded life in Wilmington, Del., her husband deserted her and returned to his parents, who were stationed at Fort Leavenworth, Mo. Mrs. Bestine subsequently returned to Philadelphia and took up her abode with her mother-in-law but was soon after sent to her home in Bedford, where she attempted to commit suicide by drinking poison. She was found by her mother and returned to Philadelphia, where she was married again about a month ago to Albert B. Evans, of Vineland, N. J., whom she first met in a concert saloon in Philadelphia. As her first husband never left her in the land of the living, the latter marriage was of course void and of no legal effect, and taking advantage of this her second husband, if he should be called, might be held liable for bigamy, and after a brief trial in the person of Miss Kate Mack, of Mount Holly, N. J., to whom he was married at Trent last week.

MONEY MARKET.—For the past three weeks been disabled from doing any work, by having contracted in his hand.

Our only friend James Rhodes met with an accident about one month ago while carefully handling some fresh fish. He cut his thumb on a line, and it got so sore that he could not use his hand for three weeks.

There appears to be no sale for apples or potatoes this spring.

A number of our farmers have been crowding the season by hollering about butter during the past few weeks.

Corn planting and sheep shearing are in progress, but the present rainy weather tends to greatly retard the work. The Lutheran church of this place had their regular communion services on Easter Sunday in the Corner Church. They had a number of accessions and are prospering under the ministrations of their pastor, Dr. Sell, who is an earnest and faithful worker.

The prospect for fruit this summer is very good. Now if Jack Frost only stays the small boy will be happy.

REMARKS.—An Agent of the Patent Steel Jail Company of Chicago has a model of their patent on exhibition in the Arbitration Room in the Court House this week, where all interested can call and inspect it. The model is only for a general idea, and specifications for a full complete are also on exhibition. As our commission are about to erect a new prison and this one has given a useful lesson to all who have seen it, we give a short description for those of our readers who have not had the opportunity.

The circular cell structure is intended to be a required number of stories high with two or less cells to each tier, and rotates, both on a central vertical shaft, turning upon central steel rollers. The shaft turns. The cells are surrounded with a heavy, stationary steel grating, with only one door opening in it for each tier of cells. The structure is revolved by a crank, that it is claimed can be turned with three fingers, and the rollers and the central shaft can be successively presented in front of the stationary door in the grating. All the cells except the one opposite the door are securely closed by the grating behind which they move. A ventilating shaft extends up through the cell structure and discharges into the open air through a turret on top of the building.

Each cell is provided with a permanent water closet projecting from the rear of the cell into the ventilating shaft, and is supplied over a trough of running water, with cast iron boiler smoke stack from the cellar running up through the ventilating shaft, it will readily be seen that a powerful upward current of the air created, which will cause all the air to rise, and pass from the cells and discharged into the open air above the roof. The walls, floor and ceilings of all the cells are made of solid steel. We understand that a new jail according to the plans and specifications shown can be built for \$200,000.

WANTED.—3000 pounds of tub washed wool at PARKER & PARKER.

The Union Normal now numbers eighty-three students, and is the largest school in the county.

HITS ON HERRERS.—Never buy a horse that has long ears, with long, straight hair inside them; is narrow between the ears, and between the eyes, has flat, round eyes in sunken orbits, and whose nostrils are small and thick, for he will certainly prove to be a beast of small intelligence, hard to teach, incapable of remembering and liable to be obstinate, just as stupid persons are. And do not buy the horse that is narrow at the top of the head, bulging between the eyes, and has a hooked, diphlike face between them, for he is sure to be vicious and treacherous. But take the horse that has short ears, with short, curly hair inside them; that is broad between the ears, and has a broad, straight face, and large, moist nostrils, for in him you will find an intelligent, sprightly, willing servant and faithful friend, if you will only treat him right.

THE LADDER QUESTION.—The excitement in Somerset which has been very great for the past two or three weeks has not reached its climax. For almost all the cases in which a special re-nomination has been offered, testimony has been taken before an official jury. The case of the ladder, for instance, of an attempt has been made to prove the contrary. The last batch of testimony was filed a late hour Saturday evening. The cases were all made up, the issue joined, and the contending forces rested. The game was now to be played on Monday evening. The crowd in town Monday was a large one, and the ladder question was the talk of the day. Politics for many had to take second place, and the many candidates who were going to get the ladder, had all their work to get them to ladder election. The first tip of the ladder was scarcely sounded Monday evening when the crowd began rushing toward the court house and by the time court opened the large room was crowded with a number of persons from the audience. Judge Rice announced that the Court proposed to hear both sides fully, and that the law as laid down in the opinion of the court delivered at Bedford last week would also govern in the case of the ladder. He then directed the members of the W. C. T. U. to appear upon any person, not a member of the bar, when they wished to speak in their behalf he would be heard. The attorneys for the ladder party were called upon to state their case, and the ladder party were called upon to state their case. The ladder party were called upon to state their case, and the ladder party were called upon to state their case.
