

With this number the Herald enters upon the sixtieth year of its existence, and we have marked the event by dressing it out in a new suit from head to toe.

We know that our many readers will appreciate the improvement and share in our pride over its bright appearance. During thirty-five years of its life the Herald has been owned and controlled by its present proprietor.

It has been enlarged and controlled by its present proprietor. Under his hand it has quadrupled its circulation, and now largely exceeds any other journal in the county in the number of its readers.

It has always labored for the best interests of the people of the county, and its editorial course has never been in accord with the principles of the party to the support of which its best energies have been devoted.

As in the past, it will continue to be in the future, ardent in the advocacy of the true interests of the people, and zealous in behalf of Republican principles and measures.

The Herald enters upon its sixtieth year with high hopes for the future. The country is prosperous, the crops promise great abundance, labor is meeting with its richly deserved reward, and there is every prospect of a bright business future.

Encouraged by the past, we hope in the future to sustain the Herald's well-earned reputation as the leading journal of Somerset County, and to this end the constant labor of its proprietor will be unflinchingly directed.

In Pittsburg on Sunday the mercury walked up to 72° in the shade.

The tariff will continue to be a subject of discussion this week. The public are confident of defeating the Free-traders.

Mrs. Cleveland gets \$50,000 from the estate of her grandfather, who died recently. It will help to keep the wolf from the White House door.

There are only four of the "war Governors" now living, viz: Governors Curtin of Pennsylvania, Kirkwood of Iowa, Ramsey of Minnesota, and Sprague of Rhode Island.

Some enthusiastic friends of Gen. Bever suggest that instead of going into convention, the delegates and others assembled in mass meeting in capital park, at Harrisburg and nominate him by acclamation.

The city of Buffalo has lost a distinguished citizen. Mr. Bissel, his former law partner, has given the city assessor notice that Grover Cleveland has relinquished his residence there, and accordingly his name has been erased from the tax roll.

The Republican primary election was held in Blair county on Saturday last. The contests for nomination were unusually spirited. Dispatches to the Pittsburg papers say that Col. John A. Lemmon received the nomination for Congress over Col. Samuel McCann.

Wheat, corn and pork have steadily dropped in price for a month or more. If the month ending in capital park, at Harrisburg and nominate him by acclamation.

The Executive Committee of the National Greenback Labor party of this State has ordered a call for a State Convention to meet at Harrisburg on the 18th of August next, to nominate a full State ticket and transact such other business as may be before it. All organized bodies of Knights of Labor, farmers, trades unions, and others are invited to send delegates to this convention.

It has been an open secret for years that King Ludwig of Bavaria, was living on the ragged edge between eccentricity and insanity. It was not until recently that his mental condition became such that absolute necessity demanded his removal from power.

This poor mad King has been induced to permit himself to be removed to Berg Castle, where he will be cared for. The deposed King was sincerely beloved by his subjects and his life was without scandal.

The New York Tribune utilizes the following words of wisdom, which are peculiarly appropriate at this time: "The exclusion of men who damage the party, who fight against its principles, who seek selfish ends regardless of public interests, is especially important at this time. If the Republican party returns a majority of the House, and that majority behaves heavily or proves incompetent, it will be a heavy blow to the party, and the consequences of the next Presidential election will be serious."

At the Republican Convention in Yeoman county last week, General Bevier was endorsed for Governor and Charles W. Mackey for Congress, and the following resolutions on the temperance question were passed:

That the question of the prohibition of the manufacture and sale of intoxicating liquors should not be made a partisan question, but should be submitted by the Legislature and acted by the people, free from all complications and proposals.

It is proposed at the coming Republican State Convention to change the rules in regard to representation in that body. This may be well enough, if first properly considered. But truth to tell, the last changes made by that body are not an eminent success. Rules adopted to our districts are often a hurt and a calamity in the rural ones. It is also suggested that rules be adopted fixing and controlling the manner and methods of county representation in Congressional, Senatorial and Judicial offices. We are especially opposed to this general principle, from whence does the Convention derive its power to meddle in local affairs? Power not specifically delegated is reserved. The counties composing any district have the sole right to arrange among themselves the basis of representation in their own affairs, and to assume any power in the premises will be impertinent interference with part of the State Convention, and will have no binding effect. Let alone, gentlemen! or you will "raise a ruck."

ORANGE RIOTS CONTINUED.

Policemen Fire on the Mob With Terrible Effect.

BELEST, June 10.—The rioting scene of last evening and the riot act was again read. The mob increased in size and began throwing stones at the police. The latter shot, killing four persons, one of whom was a woman who was looking out of a window at the fighting.

The mob drove a force of one hundred and fifty policemen into the barracks and then attacked the building, firing revolvers and throwing stones at the doors and windows. The police fired, killing five persons. Several Protestant clergymen tried to disperse the mob, but their efforts were unavailing.

One of the persons killed was a woman with two children. All others injured were taken to the hospital. Fifty policemen have left Dublin for Bellest to reinforce the police.

An infernal machine, consisting of a jar filled with a black substance and some clock work, was thrown through the window of the Protestant house in Longway, County Armagh. When the machine was hurled it had a lighted fuse attached to it and it exploded in the doorway.

Arthur and Andrew Dowdy, leading Catholic merchants, had been arrested at Lurgan on a charge of firing from their windows. A mob wanted to lynch the prisoners. The magistrate ordered that all taverns be closed at 6 p. m. Shop-keepers also closed their shops at 6 o'clock. The mob which stoned the police was dispersed at the point of the bayonet. The managers of a number of factories have called upon the police to keep order between Catholics and Orangemen.

During the night of the 10th Mr. Keenan, of Bowkilly, the latter was the liveliest of the lot. The brain of a bull that had been inoculated with calf's brain was laid bare. The other physicians present thought that the case was a case of rabies. For instance, had not the same symptoms as had the dogs here exhibited. The doctors agree that some of the symptoms were similar, and that Dr. Spitzka's dogs were certainly not mad.

Dr. Spitzka opposed the establishment of the Rabies Institute, claiming that such an institution was unnecessary. He asserted that in the case of the incubated calf which he had the public alarm by publishing fallacious autopsies. The doctor undertook to prove his statement by the production of four dogs which he had inoculated with the brain of the calf. He had introduced the portion of a calf's brain, in another condition of the brain of the man, who had died of hydrophobia, and had been buried in the cemetery. The doctor was subsequently visited by the mob, but he was not injured.

When the storm struck the city the Germans went over the roofs of their houses, and many were injured. The mob, led by a man named Duffy, turned on all the taps, broke all the barrels in the street, made a bonfire of the furniture, and finally set fire to the building. The police returned, and this time got the letter for a time of the mob, whose ranks were depleted by scores who had fallen away in drunkenness, and extinguished the flames before they could gain control of the structure.

Spurious Hydrophobia.

New York, June 11.—Dr. E. C. Spitzka, the German physician, who notified the United States that the patient was undoubtedly insane, read a paper last night before the Medical-Legal Society on "The Attitude of Medicine vs. Hydrophobia." He was invited to do so by many gentlemen eminent in the law and in physics. The lecturer held that there was no epidemic of hydrophobia in New York and vicinity and that many deaths have occurred from a spurious hydrophobia, known to medical men as rabies, and that these were attributable to the agitation of the subject of Pasteur's preventative inoculation. To prevent serious and fatal imaginary disease, the doctor said, it was necessary to cultivate a healthy public sentiment which shall form down the agitation of questions which are of a strictly scientific character, brought out by persons with no other purpose than that of creating a sensation.

It is necessary to cultivate a healthy public sentiment which shall form down the agitation of questions which are of a strictly scientific character, brought out by persons with no other purpose than that of creating a sensation. Driven out of a Village in Disgrace.

CHICAGO, June 10.—A. O'Leary, a wealthy resident of the hood on which Irving Park was awakened last night at about 11 o'clock by a violent commotion composed of the principal of the public school and other respectable persons. The charges against O'Leary were precisely stated last night. He was apparently outrageous treatment of young children. He was taken to the town hall. When he appeared in the town hall his face was pale and beads of perspiration stood on his forehead. His apparent state was greeted with groans as he was ushered to a front seat. The chairman informed him of the purpose of the meeting and the charges against him. O'Leary sat quietly until the chief of police read the indictment. The charges and said that he would have to leave the town on the first train. He set down and buried his face in his hands. It was decided that his offer to leave by the first train was not accepted. He was permitted to return to his house.

A Murderous Scythe.

BRADFORD, Pa., June 11.—Silas Reynolds, an aged, Cattaraugus farmer, got a sharp scythe on his way to the barn yesterday morning to cut down the grass in his yard. Just as he was leaving his house to go to work a boy came running through a field and told Farmer Reynolds that there were dogs in his yard. He went to see what was the matter. The dogs were in the yard, and he was in the act of cutting the grass. He was in the act of cutting the grass. He was in the act of cutting the grass.

A Tornado in Minnesota.

CHICKEN, Minn., June 12.—The storming outbreak of yesterday was remarked upon by people here, but up to midnight there was nothing to fret the fearful storm. The wind was strong, and the rain was falling. The wind was strong, and the rain was falling. The wind was strong, and the rain was falling.

Eight Days Alive in a Vault.

MEXICO, June 10.—The physician appointed to examine the mental condition of King Ludwig has reported that his malady is not of a serious nature. He has been in a vault for eight days, and he is now being treated by a Catholic priest. He has been in a vault for eight days, and he is now being treated by a Catholic priest.

A Kingdom for Sale.

NEW YORK, June 10.—A statement published today by the United States government is to the effect that the kingdom of Hawaii is for sale. The price is \$2,500,000. The kingdom is for sale. The price is \$2,500,000.

The King of Bavaria Suicides.

MEXICO, June 11.—Ludwig, who was recently deposed from the Bavarian throne, committed suicide at about 11 o'clock Sunday evening. He had gone out for a walk in the Park of the Berg Castle, accompanied by Dr. Hubner, his physician. The King suddenly fell into Starnberg Lake and was drowned. The physician jumped into the water to rescue the King, but he was also drowned. The Medical Commission which examined the late King Ludwig reported that he had committed suicide by jumping into the lake. The Ministerial Department, headed by Count Hohenhausen, called upon him to prevent his consent to a regency, but he fled into the lake and there he met his end. Before his death the belief was spread among the common people of Bavaria that the King's deposition was illegal. The people did not believe he was insane. Precautions had been taken to prevent the people from rising to restore the King. The watch worn by King Ludwig, which was found in the lake, was recovered from the lake last evening. Dr. Mueller and Dr. Hubner, the King's attendants, had the bodies of Ludwig and Dr. Gudden conveyed to the Berg Castle and placed on a bier. Although there was neither any perceptible respiration nor pulse movement in either body, Dr. Mueller and his assistant of the Ambulance Corps attempted to restore animation in both, and only succeeded in reviving the King's life. King Ludwig's suicide was a deep gloom over Munich. Now it is plain that the people were deeply affected by the King's death. He was a popular monarch, and his death was a great loss to the people.

A Female Coyboy.

ST. PAUL, June 11.—A female coyboy was arrested yesterday by Agents Bowser for playing coyboy in new attire. She is a blonde and comely young woman on the middle of her twenties. Her name is Mrs. W. H. Baker, who her agents know as Mrs. W. H. Baker. She is a blonde and comely young woman on the middle of her twenties. Her name is Mrs. W. H. Baker, who her agents know as Mrs. W. H. Baker.

Furious Wind and Rain.

VERMILION, W. Va., June 12.—At 2 o'clock this afternoon this city was visited by the severest wind and rain storm known here for several years. The wind was strong, and the rain was falling. The wind was strong, and the rain was falling. The wind was strong, and the rain was falling.

Anxiety to See the Bride.

WASHINGTON, June 12.—A White Day ago one of the most interesting of the first days of a new President's life was the wedding of the President and the bride. The bride was the daughter of a prominent family. The wedding was a grand affair. The bride was the daughter of a prominent family. The wedding was a grand affair.

Grave Opening at Midnight.

NEW YORK, June 11.—At midnight last night the sexton of a New York graveyard, at the instance of a middle aged woman dressed in mourning, opened a grave in the cemetery and lifted out the lid of the coffin. The sexton was startled by the woman's appearance. She was dressed in mourning, and she was holding a bundle. She was dressed in mourning, and she was holding a bundle.

Earthquake at Sandy Hook.

NEW YORK, June 12.—The telegraph operator at Sandy Hook reported that at midnight a severe shock of earthquake was felt at that place. The shock lasted a minute or two, and caused the telegraph wires to vibrate and the windows to rattle. The operator at Quantico also reported that he heard and felt the shock.

Four Horse Thieves Lynched.

NEW YORK, June 11.—Word came from the State of Idaho, that four horse thieves had been lynched. The thieves were caught by a party of vigilantes. The thieves were caught by a party of vigilantes. The thieves were caught by a party of vigilantes.

Additional Local.

The Bedford county primaries were held on Saturday morning and a large vote was polled. Hon. J. H. Longstreet received the unanimous vote for Congress and will be nominated by the convention. Hon. J. H. Longstreet received the unanimous vote for Congress and will be nominated by the convention.
