Dr. Kennedy now has the stones at his office, and they are sufficiently formidable to justify the claim that KENNEDI'S FAVORITE REMEDI's the leading specific for stone in the bladder. In his letter Mr. Lawler mentions that F110RITE REMEDI' also curred him of rheumatism. The subjoined certificate tells its own story.

Mine was such a very easy, simple, pleasant, loving one to learn. Just a line, just a little throb of patience, of gentleness, of love that would have made my own heart glow and laugh and sing. The letters were so large and plain, the words so easy and the sentences so short. And 1! oh, pity me, I missed every word. I did not read a word aright. See, here is my copy now; all blurred and blistered with tears and heartache, all marred and misspelled and blotted. I am ashamed to show it to the Master. And yet I know he will be patient with me; I know how gentle and patient he will be. Why, how patiently and loving all these years teaching me this simple lesson I failed upon to-day. But when my little pupil stumbled on a single word—is my time,

then, so much more precious than the the Master's that I cannot teach the little lesson more than once? Ah, friend, we do not waste time when we plait scourges for ourselves. These hurrying days, these busy, anxious, shrewd, ambitious times of ours are wasted when they take our hearts away from patient gentleness, and give us fame for ove and gold for kisses. Some day, then, when our hungry souls will seek for bread our selfish god will give us a stone. Life is not a deep, profound, perplexing question. It is a simple, easy lesson, such as any child may read. You cannot find its solution in the ponderous tomes of the old fathers, the philosophers, the investigators, the theorists. It is not on your bookshelves. But in the warmest corner of the most unlettered heart it glows in letters that the blind my read; a sweet, plain, loving easy lesson.
