old in Head, Catarri, Hay Fever,

forward two remarkable instances of what may be regarded as practical jokes with melancholy terminations. In the case of the convict delivered up to the scientist for the purpose of a psychological experiment (the man was strapped to a table and blindfolded, ostensibly to be bled to death; a siphon containing water was placed near his head, and the fluid was allowed to trickle andibly into a vessel below it, at the same time that a trifling scratch with a needle was inflicted on the culprit's neck; it is said that death occurred at the end of six minutes), fear occurred at the end of six minutes), fear must have played no inconsiderable. The Best and Cheapest

in a sound condition, though they were presumably so. The old story of the case of a college porter is also one in point. AT THIS OFFICE. The students entrapped him into a room at night, a mock inquiry was held, and the punishment of death by decapitation decreed for his want of consideration to the students. It is small wonder that, under the dominion of fear and belief in the earnestness of his formentors, the sight of an axe and block, with subsequent blindfolding and necessary genuflexion, a smart rap with a wet towel on the back of his neck should have been followed by the picking up of a corpse.-Lancet.

Manuring Wheat.

There is often, during the latter part of the summer, time to haul out manure that has accumulated while the important work of harvesting and cultivating has been going on. It can be carted out and spread upon stubble land and then plowed under. Or it can be hauled after the soil has been plowed, and worked nto the surface by harrowing. Plowing the manure under places the greater part of it too deep in the soil to be reached by the feeding roots of the plants, and the application fails to benefit the first crop as it should. By the time a second plowing is given much of the solumble part will have been lost. The natural ourse of the soluable portions of manure downward. If applied upon the surface, the moisture will draw it into the soil. To obtain the greatest benefit up the shortest time, it is best to draw out after the ground has been plowed. Scatter the manure direct from the wagon as evenly as possible, and then harrow thoroughy so as to work it into the soil. This leaves the manure where the feeding roots of the plants can readily reach Manure can nearly always be applied to wheat profitably. Where there is a supply on hand it should be hauled out and scattered as early as practicable after the ground is plowed. Prof. Grothe, Brooklyn Board of

Health, says Red Star Cough Cure is free trom opiates, and highly efficacious. Price, twenty-five cents. Sumou's cocon and Consumption Cure

Attention, Farmers!

This is, perhaps, hardly the correct form of question that the British and Coionial Druggist puts to itself in discussing the death of the young woman at Hackney under circumstances in which Kentings insect powder was largely figured. As the powder appears by Dr. Tidy's experiments to be perfectly harmless, the suggestion is not unnaturally made that the deceased, who was possibly of a hysterical, highly imaginative turn of mind, took the powder in the full belief that by TONICS, quickly and completely and ENRICHES THE BLOOD, the action of the Liver and Kidneys, complexion, makes the skin smooth. its means her death might be accomplished. Schuttler Wagon.

The Old Reliable

I have just received two car loads of the SELF-OILING, STEEL-SKEIN SCHUTTLER WAGONS the most complete Western Wagon in the market for Road or Farm Purposes. On the Scherring value and would not be without it during Warns there is a few Stake, to be used when handing hay or grain, a something that farmer the hay fever season. -L. M. Georgia, know the necessity of when builting on nilly facus. Every part of the Wood-work of this wagron in laid in stock three years before being worked up, insuring the work to be thoroughly seasoned before being iroued. Being the patentees of the

for Constipation, Loss of Appetite, Dizzi-It is the only Wagon made that has this improvement. It avoids the necessity of taking off the wheels to grease, as in the old style; by shaply burning a cap the wagon can be olded in less than five minutes. This Wagon wants to be scen to be fully appreciated, and parties wishing to buy will do well to see it

Every Wagon Fully Insured.
