

The Somerset Herald.

EDWARD SCULL, Editor and Proprietor. WEDNESDAY, November 18, 1886.

The Republican candidate for District Attorney in Franklin County was elected by only two votes. A mighty close shave.

It is a very safe prediction to make, that the United States Senator elected from Pennsylvania in January, will be a clean, out-and-out Republican.

CHARLES WOLFE is the worst whipped man in the State. He was whipped for Governor, and laid out cold for Assembly. In fact, Charles is paralyzed.

PROBATIONERS don't appear to catch on well as a political class. From present appearances, it will have less than thirty thousand votes in this State.

The Twentieth Congressional District, a Democratic stronghold, now represented by ex-Governor Curran, was carried by General Patton (Republican) by a majority of 151.

ACCORDING to the latest returns from the next Legislature of this State will stand—Senate—Republicans, 26; Democrats, 14. House—Republicans, 137; Democrats, 64. Republican majority on joint ballot, 84.

OFFICIAL RETURNS of the State for Philadelphia, with the exception of Philadelphia, which is estimated at 20,000, make Beaver's plurality in the State, over 30,000 votes.

That stalwart Democratic journal, the Tally Sheet, published at Chambersburg, considers itself as present to our brethren throughout the Commonwealth an example worthy of emulation. All hail ye "Frosty Sons of Thunder!"

WELLS McCLAMM (Republican) carried the Westernmost Fayette and Georgetown Congressional districts by a majority of one hundred and two votes, and he "got there" by running his majority in "Old Fayette."

The following are the majorities on Congress in this district: Seats—Total 1221. Rep. 595, Dem. 626. Seats majority 965.

CHARLES F. BLACK rode lustily in the index, and following the advice of the lamented John G. Thompson, claimed everything. He was not only beaten out of sight, but ran behind his own ticket in his own county. Mr. Black's boasted luck has evidently deserted him.

CHARLES S. WOLFE was defeated for the Legislature in his own County by the following vote—Glover had 1931; Wolfe, 885; Fowler, 706 votes. Glover won, 185, 1046; Wolfe, 811. It will surely show the great advantage of some time to dig out from under this home avalanche.

MORRISON, of ELKANOS, the great "Tariff Reformer," was badly beaten for Congress; so was the lamented Frank Hard, who, according to semi-official returns, returned from sixty-nine counties lost up to 197. There were thirty-three counties to boot. Two years ago the vote in Illinois for St. John was 11,384.

Close Counting in California. SAN FRANCISCO, November 3.—Complete returns of the State give Bartlett, D., for Governor 302 plurality over S. R. Bartlett's plurality in the city is 2,812. If the remaining county returns improve for Scott the official count will be necessary to determine the result.

Iowa. Davenport, Nov. 5.—The Herald (Dem.) has returned from Iowa in a most excited and gloomy mood. It is reported that the State of Iowa has elected a Republican for Governor. The result is said to be a total rout.

Kansas. TORPEA, Nov. 5.—In sixty-two counties where Missouri has a plurality in five counties, Governor Martin has a plurality in fifty-seven counties. Martin's plurality in the State is said to be 30,000.

Massachusetts. LOWELL, Nov. 5.—It is understood that Hon. John J. Donovan, the defeated Democratic candidate, expects a rematch to lower Congressman Allen's vote in the city as well as on the plurality of 3 for Allen in the district.

Missouri. ST. LOUIS, Nov. 5.—Nathan Frank (Rep.) ran for Congress from the Ninth District, and was defeated by the re-election of Groves (Dem.). It is reported that the latter voted for his son on the ground that many votes which were legally cast for Mr. Frank were rejected by the judges of election. He said if his son were elected, he would be elected, he would have been elected by a majority of 200.

Montana. HELENA, Nov. 5.—The Democratic Territory has elected by a close vote, one of the four candidates in Montana for Toledo except Yellowstone. Today's majority will be over 20,000. The Democratic claim to have control of both Houses of the Legislature.

North Carolina. RALEIGH, Nov. 5.—Simmons (Dem.) is elected in the Second Congressional District by 1,833 plurality.

New Jersey. NEWARK, N. J., November 5.—The Board of Supervisors met in all the counties today, and canvassed the vote of Tuesday's election. In Essex county no result was arrived at, and in Bergen county a vote of 120 to 100 was given to the Republican. In Hudson county, where Peck, Republican, was elected over Denny, Democrat and Labor, by 5 majority, also, in the Sixth district where Wood, Democrat, was elected over Ward, Republican, by 22 majority. In Bergen county, where Peck, Republican, was elected over Denny, Democrat and Labor, by 5 majority, also, in the Sixth district where Wood, Democrat, was elected over Ward, Republican, by 22 majority.

New York. WILLIAMSBURG, Nov. 5.—The Board of Supervisors met in all the counties today, and canvassed the vote of Tuesday's election. In Essex county no result was arrived at, and in Bergen county a vote of 120 to 100 was given to the Republican. In Hudson county, where Peck, Republican, was elected over Denny, Democrat and Labor, by 5 majority, also, in the Sixth district where Wood, Democrat, was elected over Ward, Republican, by 22 majority.

Ohio. CINCINNATI, O., November 5.—Returns have been received from eighty-four out of the eighty-eight counties in Ohio. The counties to be heard from are Carroll, Paulding, Union and Belmont. If these counties voted as they did for Governor in 1885, Robinson, R., for Secretary of State will have thirty-four counties in support of his nomination. The indications are that his plurality will be returned slightly below that amount by returns yet to be received. A special to the Cincinnati Herald reports the conclusion of the canvass in the Seventh Ohio Congressional district giving Campbell, D., a majority of 3,757 over Little, R.

Minnesota. ST. PAUL, Minn., November 5.—Three entire days have passed since the polls closed and it is not yet certainly known who is to be the next Governor of Minnesota. Both parties still claim the election of their respective candidates. The canvass is now in progress, and there are prospects of a protracted and possible litigation.

The Revenue Cut Manhattan Lost. DRAKS 25 South Along with Her Crew. NEW HAVEN, Conn., November 7.—The United States steamer Manhattan founded about 6:30 this morning two and one-half miles from the light, and sank immediately, carrying with her all on board. The Manhattan came into this port yesterday afternoon for shelter, and started out presumably for New York at 9 this morning. The wind was blowing a gale and a tremendous sea was running. At about 1:30 the vessel struck water and getting into the full force of the gale blowing up the sound, she was seen by William King, an oyster dealer living at Oyster Point. He watched her through a glass and saw her as she ran toward the light and was evidently in distress. He ran to a telephone and tried to notify the tug in the port. When he returned the vessel was still to be seen and in trouble. A few minutes later (over three) she disappeared from the port and King could see no more. He states that under the most favorable circumstances she could not have steamed out of sight inside of twenty minutes.

THE EARTHQUAKE RETURNS. NEW YORK, November 5.—At 12:25 there was the severest shock yet recorded in the city since 1811. It was felt all over the city and people rushed into the streets. There was no damage done.

pointed to with gratification and pride. In the Senate the Republicans will probably lose four members and gain one. If this proves true, it will reduce the present Republican majority of eight down to two. The Democratic majority in the Legislature in Indiana, New Jersey and California, but this is disputed by the Republicans. If the Democratic claims are verified by the official returns, then three Democratic Senators will succeed three Republicans in those States. This, with the loss of Maloney, in Virginia, will make the Republican loss four, as above indicated.

The Republicans of Somerset county, always well to the front among their competitors with big majorities, appear to be possessed of a reserve power, which, when called upon, always responds nobly, and drives them ahead, almost beyond the reach of competition.

The tabulated returns of last week's election, to be found in another column, make a case in point. The splendid majority of 2,115 for General Beaver, (a gain of 1024 on his majority of four years since, and more than doubles it. No other county in the State can show so large a percentage of gain in proportion to its Republican vote. No true Republican can examine these returns without a sentiment of justifiable pride in his home organization; and no one claiming to be a Republican, who gave his aid to the enemy in the late contest, can see how hopeless is the effort to disrupt our superb organization, or to lead any considerable number of voters away from loyalty to party faithful, as custom is wont to be for the Republicans of this county respond to every call of duty, yet cannot resist the pleasure of again and again congratulating them on the magnificent vote polled by them last week, and its resultant victory. True and sturdy Republicans, ever faithful to principle; who remain without a sentiment of regret to your brethren throughout the Commonwealth, an example worthy of emulation. All hail ye "Frosty Sons of Thunder!"

LATEST REPORTS OF THE ELECTION RETURNS. Delaware. WILMINGTON, Nov. 5.—Delaware's official returns complete for up. For Governor—Riggs (Dem.) 13,942; Hofferker (Dem.) 7,532. For Congress—Bennett (Dem.) 13,837; Casper (Dem.) 8,396. The Legislature is solidly Democratic.

Indiana Election Frauds. INDIANAPOLIS, Ind., November 5.—The United States District Court assembled the Federal grand jury today and instructed the members to investigate all election frauds. Rumors of the arrest of prominent politicians are current. The judges are endeavoring to control the political factions, and to prevent the violence which has so often attended the contests over the legislative candidates.

Wheeler Rejoicing. WHEELING, W. Va., November 5.—The Republicans painted the city a deep red to-night in honor of Tuesday's victory at the polls. A large procession paraded the city, and there was a profuse display of red fire.

Senator Hale Delighted. NEW YORK, November 4.—Senator Eugene Hale, of Maine, commenting on the result of the election, said—"It is well for the Republican party. The organization is in splendid shape. It has received new life and vigor."

Philadelphia. PHILADELPHIA, Nov. 5.—A sharp shock was felt here last night as a result of the earthquake. The buildings were shaken, and some persons were injured. The damage was not extensive.

A Woman Elected in Dakota. FARGO, D. T., Nov. 4.—News has been received from the election in Dakota. Miss Alice Sanderson, of this city, was chosen Superintendent of Schools in Brule county, Dakota. Of the 1,000 votes polled she received about 1,000. Miss Sanderson was a regular member of the Democratic party. She was elected a member of the Republican caucus in 1885. She has a son in the army, and is now living in a comfortable home in this city.

Carlisle's Opponent will Contest. CINCINNATI, Nov. 7.—George Thode, candidate against Speaker Carlisle in the Sixth Kentucky district, announces his intention to contest the election of Mr. Carlisle. He claims that after the contest became very close the returns in the back counties were "doctored," also that his representatives, sent to watch the official vote, were given no consideration whatever, and that many instances were threatened to be held in violation of the law.

A Foolhardy Leap. NEWARK, N. J., Nov. 7.—Lawrence Donovan, of New York, who some time ago jumped from the roof of a building in New York, jumped from the roof of a building in Newark, N. J., last night. He fell from a height of about 100 feet and landed on a fire escape. He is badly injured and is now in the hospital.

Additional Local. Paint Items. There is great rejoicing over the result of Tuesday's election.

held by an Officer While Another Fled at Him. SALISBURY, Md., Nov. 4.—On the night of October 16, William Moore, young desperado, shot at a huckster's dog. The driver chased him for a few yards when Moore killed and threatened to shoot. Patrolman Ellis who had been on duty at the time, saw Moore and shot at him. Moore was shot twice. Then came the big fire, and it was not until yesterday that Ellis saw on a warrant. Bailiffs Kennedy and Ellis found Moore, but the latter denied to submit. Kennedy grappled with him, but not until Moore had secured a British bull-dog revolver. Kennedy found that Moore was overpowering him and commanded Ellis to shoot him. Ellis took deliberate aim, and while Kennedy held Moore in place, he fired. The ball entered the right side, just below the first rib, and glancing downward, passed through the bowels and lodged in the left side, beneath the skin. Moore was at once removed to a cell in the jail, where the bullet at once mortally wounded him. He was arrested, and will be given a hearing to-morrow.

THE EARTHQUAKE RETURNS. NEW YORK, November 5.—At 12:25 there was the severest shock yet recorded in the city since 1811. It was felt all over the city and people rushed into the streets. There was no damage done.

held by an Officer While Another Fled at Him. SALISBURY, Md., Nov. 4.—On the night of October 16, William Moore, young desperado, shot at a huckster's dog. The driver chased him for a few yards when Moore killed and threatened to shoot. Patrolman Ellis who had been on duty at the time, saw Moore and shot at him. Moore was shot twice. Then came the big fire, and it was not until yesterday that Ellis saw on a warrant. Bailiffs Kennedy and Ellis found Moore, but the latter denied to submit. Kennedy grappled with him, but not until Moore had secured a British bull-dog revolver. Kennedy found that Moore was overpowering him and commanded Ellis to shoot him. Ellis took deliberate aim, and while Kennedy held Moore in place, he fired. The ball entered the right side, just below the first rib, and glancing downward, passed through the bowels and lodged in the left side, beneath the skin. Moore was at once removed to a cell in the jail, where the bullet at once mortally wounded him. He was arrested, and will be given a hearing to-morrow.

THE EARTHQUAKE RETURNS. NEW YORK, November 5.—At 12:25 there was the severest shock yet recorded in the city since 1811. It was felt all over the city and people rushed into the streets. There was no damage done.
