I am aware that, there were whisper against the purity of President Arthur's private life. Who of those who have by attacks upon others. President Arthur, probably had his faults, and that there may have been some in his private life is not for me to say, but I do not behere that the man who hong the porbed, so that her face might be the last thing he should see at night and the first heights east of the town-s position though I worked for three hours. Don't life, whose death broke his heart and which if properly defended was practical- you ever speak to me again-never! I made his life in the White House a raydo ofmire a sharp thief, but I have no less one-let us hope that her wa ting for him on the other side was not in vain.

Causes of Typhoid Fever.

The most important lessons to be of the direct line, and a coursin of the described in driving the Federal army citizen came to a halt and puckered his phoid fever is that it is a "fifth discase" not often, not generally, but always. And perhaps the next in importance is that while the production of the discuse probully requires that the morbific agent, the slimentary mucous membrane, as in food or drink, it is possible for the salivary fluids in the mouth and t cost to elsorb the poison from the atmosphere and thus become the medium of its transmission to the stomach. There is also a ally milk, water and other fluid food, xeees the same property of absorbing the fever poison from the atmosphere and thus becoming the vehicles of its in-
