ROSS DAVIS & CO.
The Supreme Court has decided that a woman's name on a remonstrance against license or petition for repeal of a liquor law, counts for just as much as a man's; and there are 256 occupations by which woman may earn a living, against only seven at the beginning of the century. Surely the world is making progress; and the sister is tearing her rights.
There is some reason for the admiration generally felt for blue eyes. A correspondent in Paris states that nine-tenths of the railroad cars, pillars, and others who are selected for their keenness of vision, have blue eyes. Black eyes are beautiful. Grey eyes usually denote intelligence and hazle eyes a talent for music. The commonest color of eyes is grey, and the rarest violet.
Marriage Licenses were granted to the following named persons by Clerk Shafer during the past week:
Wm. H. Bowman of Summit township and Ann N. Griffith of Meyersdale Borough.
Uriah Poorbaugh and Rose Ann Miller both of Allegheny township.
Howard Beatty and Lucy Ellen Wareheim both of Allegheny township.
Ezra S. Kemp and Rachel E. C. Berg both of Meyersdale borough.
Charles F. Glessner and Anna C. Poorman, both of Summit township.
The Huntingdon Journal says: In the Juniata court in Mifflin county last week a remonstrance had been prepared against every application and they were ably championed by members of the bar, but Judge Barbier granted licenses to all applicants, nevertheless. This he did on the ground that the functions of the Court are only ministerial to their quality and not creative. There is no prohibitory law on the statute books and the courts can create none. Only the Legislature can make laws governing this traffic, and consequently all arguments and remonstrance should be addressed to the Legislature instead of to the Courts.

A bill has been introduced in the Legislature fixing the salary of the district attorney in counties of less than 60,000 population at $1,200, the costs in all cases to go to the county. This would apply to Somerset county and would be a welcome measure to our future district attorneys, as the fees of the office at present average only about four hundred dollars a year.

Mr. Ralph Beasley's assurance that the South Penn Railroad will not be abandoned is encouraging. Whatever steps may be necessary to prepare for pushing the work to completion should be taken without unnecessary delay. Another railroad to the east is a desideratum to business people in the western end of the State.—*Pittsburgh Commercial Gazette.*

W. H. Rappel, Esq., while in attendance at the Odd Fellows' celebration at Meyersdale Tuesday, was taken suddenly and seriously ill. He had to take the first train for home, and when he got there was unable to leave the house for the next four or five days. He is able to be out again, although still very weak. The cause of his sickness, he thinks, was led poison. He ate plum pie for dinner, the plums having been put up in a tin can.

Manager Lauhear informs us that he has completed arrangements to have Bella Moore Iday in the Somerset Opera House on Monday and Tuesday evenings, May 16th and 17th. Miss Moore opened the Somerset Opera House just one year ago, at which time she attracted the largest audience that ever gathered at a place of amusement in Somerset, and all who saw her were delighted with her acting, and will be glad of the opportunity of seeing her again.

F. W. Biesecker and George R. Scull, Esq's. last week purchased from Mr. Josiah H. Pisel a portion of the Hogue corner lot, opposite the Court House. They got twenty-six feet fronting on Union street, running back thirty-five feet, and twelve and one-half feet fronting on Main Cross street, and running back twenty-seven feet. For the two lots they pay twenty-three hundred dollars, cash. They will erect has offices on the piece fronting on Union street, at once.

As the Uniontown mail on the Baltimore and Ohio road was nearing Wheeler station on Monday morning, a cow, which was standing on the track, was struck. The train was running under a full head of steam, and the cow was knocked some distance from the track. In its flight the animal landed on the back of an Italian woman who was gathering greens in a garden along the track. She was crushed to the ground with terrible force and was severely bruised, but will recover. The cow was killed outright.—*Connellsville Courier.*

Mr. C. N. Boyd will leave Thursday for Butler, where he will again embark in the drug business. Mr. Boyd is a good Republican, and consequently a good citizen; one of the kind that no community can have leave it without experiencing a feeling of loss and regret. As a business man, especially as a druggist, he is way up. He understands the drug business thoroughly, and knows how to make it go. Butler is a booming town in the oil region, and for some time has been experiencing the need of a first-class drug store. Mr. B. will supply the long felt want, in having, he will take with him the best wishes of his host of Somerset friends.

Mr. Ed. B. Gilbert, of Butcher's Run, Placer County, California, dropped in to see us Tuesday morning. A little over thirty-one years ago Mr. Gilbert, then a mere stripling, surrendered his case in the HERALD office, where he had learned his trade, and left for the mining regions of California, where he has lived ever since. This is his first visit home in all that time. We could scarcely recall the boy of thirty-one years ago in the stalwart, bronzed and bearded man whom we met this morning. Mr. Gilbert is the son of our old friend and fellow-townsman, Mr. John Gilbert. He will spend several months with his Somerset friends before returning to California.

Election of County Superintendent of Public Schools.

The School Directors of Somerset County met in Convention at the Court House at half-past one o'clock Tuesday afternoon, for the purpose of electing a County Superintendent. County Superintendent Weller called the Convention to order when Mr. George W. Pile moved that F. J. Kooser, Esq., act as Chairman of the Convention. Capt. W. H. Sanner seconded this motion, and Mr. Kooser was unanimously chosen Chairman.

John N. Davis, of Elklick, was elected Vice President. Capt. Wm. H. Allen, of Meyersdale, Secretary, and the Chairman appointed W. T. Hobbitzell, of Meyersdale, and Capt. W. H. Sanner, of Somerset, Tellers.

The organization being completed the enrollment of directors was proceeded with, showing on the first call one hundred and eleven directors present. A number of directors having come in during the first roll call a second was ordered which showed the number of directors present to be one hundred and thirty-two.

The Chair announced that the first thing to be considered was the question of salary, and in case of no action being taken by the Convention, the salary was fixed by Act of Assembly at $1.50 per school. There being 256 schools in the county, the salary would be $1152.00 for the term of three years. There being no action taken, nominations were declared in order, and N. G. Keim, of Salisbury, J. D. Meese, of Meyersdale, and J. M. Berkey, of Berlin, were placed in nomination.

Mr. Meese withdrew his name with the consent of the gentleman who had placed him in nomination and the convention proceeded to an election, the first ballot resulting in 98 votes for J. M. Berkey and 34 votes for N. G. Keim, when Mr. J. M. Berkey was declared duly elected. After repeated calls Mr. Berkey responded in a few pertinent and well chosen remarks, when the Convention adjourned.

Excursion Rates to Baltimore.

The Masonic fraternity of the States of Pennsylvania, Delaware, Maryland, Virginia and the District of Columbia, will celebrate at Baltimore, May 10th, to 12th, the centennial anniversary and organization of the Grand Lodge of Maryland. It is the purpose of the home lodges to make this a memorable event in the history of the craft, and an elaborate program, including parades, balls, banquets and orations, has been arranged for the entertainment of visitors. The street parade, which takes place at 11 o'clock on the morning of the 12th, will include thousands of the brethren of the mystic tie, in regalia then regalia, and will be a pageant worth traveling miles to see.

For this occasion the Baltimore and Ohio Railroad Company will sell cheap excursion tickets to Baltimore from all stations on its lines east of the Ohio River. Tickets will be sold May 9th, 10th, 11th and 12th, and will be available for return passage until May 13th inclusive.

Of Interest to Tax Collectors.

The question has been raised as to whether the late law giving collectors of taxes the different percentages on their collections, is constitutional. An appeal will be made to the Supreme Court for a decision. It appears that there exists among lawyers a diversity of opinion on the question. Should the collectors, who were elected at the last election, have partially collected the amount of their duplicates when the decision of the court is rendered, and should that decision be adverse, such collectors will be compensated for the work done. It will, therefore, be well for them to go a little slow. And should the decision of the Supreme Court not have been reached when the commissioners hand the duplicates they will see that they will be compensated by some other means.—*Greensburg Press.*

Ore Mines at Everett.

The ore openings at the foot of Tussey Mountain, about a mile north of Everett, Bedford county, have been deepened and increased in number. The vein has been struck at a depth of about twenty-two feet, showing three feet of deposits, which are believed to be a continuation of the vein in the Tatesville bank, which has been in operation for the last twenty years. As soon as machinery can be erected on the premises the ore will be lifted and shipped. It is a soft fossil ore, yielding a high percentage of metal, and low in the elements destructive in iron. The shaft will be sunk at once.

A Good Recipe.

The following recipe is one of the best known remedies for cholera and is also an almost never failing remedy for all summer complaints, colic, diarrhoea, dysentery, etc. It comes from a reliable source and has stood the test for over forty years. Here it is without further preliminaries: Take equal parts of tincture of cayenne, tincture of opium, tincture rhubarb, essence peppermint and spirits of camphor. Mix well. Dose, fifteen to thirty drops in a wine-glass of water, according to age and violence of attack. Repeat every fifteen or twenty minutes until relief is obtained.

Downey Items.

April showers were numerous.

The wet weather of the past few weeks, compelled the farmers to stop sowing oats.

Mr. Solomon Engle will build a new barn this summer. Anthony Carver has the contract.

The Boyer Brothers have about finished work on their new steam saw mill, for the present.

We presume the noted characters of Downey are taking a tour through the South at present.

Miss Sadie Barnhart, of Stoystown, has been the guest of Mrs. Abraham Carver, for the past few weeks.

Mr. John L. Glessner intends building a new house next fall. Downey is certainly booming in buildings.

Mr. William Lape has planted his lot with fruit trees. Ladies, here is a chance for a nice home in the future.

Misses Ida and Jennie Sorber paid our town a friendly visit some time ago. Hope to see them again, ere long.

Mr. Aaron Smucker is pushing his new barn to completion very rapidly. It presents a very attractive appearance.

"Oh, it's a boy!" was the happy exclamation of Mr. Ed. F. Will, a few weeks ago. He wears a smile on his face as big as a pancake.

Mr. Abraham Carver last week sold a fine young colt, for which he realized a fair price. Mr. Herman Brubaker, of Berlin, was the purchaser.

The smiling faces of Messrs. Edward Fritz and Irvin Walker were seen quite frequently on the streets of Buzzard's Glory, during the past few weeks.

We feel sad to learn of the misfortune that has befallen our genial young friend, Mr. I. G. Carver. On Friday of last week, while he was engaged in chopping wood, the ax glanced off and penetrated his right foot, inflicting a very severe wound. We hope he will soon be able to be about again.

Quite a number of our Paint men are working in Johnstown this spring.

Our Daily Bread.

Heavy and sour bread or biscuit has a vast influence through the digestive organs upon the measure of health we enjoy. How important to our present happiness and future usefulness the blessing of good health and a sound constitution are, we can only realize when we have lost them, and it is too late to repair the damage. Notwithstanding these facts, thousands of persons daily jeopardize not only their health, but their lives, and the healths and lives of others, by using articles in the preparation of their food the purity and healthfulness of which they know nothing. Perhaps a few cents may have been saved, or it may have been more convenient to obtain the article used, and the housekeeper takes the responsibility and possibly will never know the mischief that has been wrought. Paterfamilias may have spells of headache, the children may have lost their appetites, or look pale; if so, the true cause is rarely suspected. The weather, the lack of out-door air, or some other cause, is given, and the unwholesome, poisonous system of adulterated food goes on. Next to the flour, which should be made of good, sound wheat and not ground too fine, the yeast, or baking powder, which furnishes the rising properties, is of the greatest importance, and of the two we prefer baking powder, and always use the Royal, as we thereby retain the original properties of the wheat, no fermentation taking place. The action of the Royal Baking Powder upon the dough is simply to swell it and form little cells through every part. These cells are filled with carbonic acid gas, which passes off during the process of baking.

The Royal is made from pure grape acid, and it is the action of this acid upon highly carbonized bicarbonate of soda that generates the gas alluded to; and these ingredients are so pure and so perfectly fitted, tested and adapted to each other, that the action is mild and permanent, and is continued during the whole time of baking, and no residue of poisonous ingredients remains to undermine the health, no heavy biscuits, no sour bread, but if directions are followed, every article will be found sweet and wholesome.

They Met at the Somerset Depot and Talked.

"Well, I declare if here ain't Mrs. Fisk. How are you? How are all the children, are they over the spring fever? Mike had it awful.

"What have you in those bundles?"

"Oh, carpets, curtains, dresses, and a box of dishes."

"I'll bet SNYDER was made happy again. How is J. B.? I am going to see him to-morrow. I hear he has a big line of goods. I need carpet and some dishes and the twins need suits. Mike bought eight of the older boys suits, and now he declares I must buy the five girls and the twins and the other younger boy shelr suits."

"It must cost you an awful lot to keep your family?"

"Well, we have to buy a great many things, but when you buy them at J. B. SNYDER'S they don't cost much."

"Well, Mrs. Mike I am awful glad we don't have as large a family as you; we only have sixteen at our table, children and all."

"My, but SNYDER has cheap curtain goods, and it's just lovely."

"Mr. Fisk always tells me SNYDER sells the cheapest and best goods of every kind that are sold in Somerset."

"We need to run around a little, but now we buy everything at SNYDER'S. He takes all kinds of trade; then, if you go to SNYDER'S, you always meet some friend there, as the store always seems full of people."

"That's so: but the reason is, I suppose, you are always made feel at home there; then SNYDER never keeps any sassy clerks; you are always treated nice."

"Here comes the train, by-by."

Our Harrisburg Letter.

From our Special Correspondent.

HARRISBURG, April 30, 1887.

The week has been full of life and work at the State Capitol. All looks now towards a speedy adjournment, by the 19th of next month, at least. Night sessions were held during the week for the consideration of Senate bills especially. On Monday evening special orders were made of many important bills, among others the Anti-Discrimination bill and the Senatorial Apportionment bill. Both it and the Legislative Apportionment bill passed third reading. This places all the Apportionment bills in the Senate, and the House has done its whole duty in that direction, notwithstanding the strong effort on the part of the Democrats to prevent it. This was specially true on Tuesday, when Representative ex-Speaker Faunce, of Philadelphia, made a strong Constitutional argument against the Legislative apportionment, claiming that it was contrary to the Constitution, because the city of Williamsport and a contiguous township in Lycoming county is made to comprise a Legislative district, although they did the same thing in 1883, in Erie county. But it makes a very great deal of difference who is in and who is out when the question of apportionment is to be considered. Mr. Faunce made a very able legal argument, and quoted at length from Buckalew on the Constitution, and if his party had not been in the minority, would have been in the right.

The House passed a large number of bills on third reading on Tuesday—also on Thursday. Wednesday and Friday bills on second reading were considered. The work exceeded that of any other week since the session began, and shows that the House can work if it has a mind to. There was nothing very special of interest in the work done, but much of it was good legislation.

This was a week of interest in the Senate—decidedly the most so since the session began. On Wednesday what is known as the South Penn bill was up on reconsideration and it was at one time thought it would pass, but when the western stockholders learned what little hope there was of ever getting any of the money invested back should the bill become a law, and that it was wholly in the interest of the Vanderbilts, the tide turned. Senator Alexander explained that he had been misled by certain parties, and voted against the bill. The defeat was greater than before, and this ends it for this session. It will need to be watched, however, as it is very important for those interested in the sale of the road that this bill should become a law. If, as the western stockholders assert, they can furnish the money, the road may be now built in a reasonable period of time. It is doubted here whether the road will ever be built, and that the stockholders are only waiting a fair opportunity to unload their stock, and then all will be at an end, and nothing remain but the deserted route, and its ruinous effects to the farmers through whose farms it passes, as a monument to the corporate power and influence in this State.

On Thursday the Billingsley Pipe Line bill was considered for the third time, and was one of the most exciting times the Senate ever beheld. Senator Emery was on his mettle, and as he is the recognized leader in favor of the bill, he early discovered that the bill could not pass. He tried hard to get the bill postponed, inasmuch as there was some of the friends absent, but the Senate refused. There was other and important business awaiting, and now was the time to consider it. The Senator arose to a personal explanation, and in strong terms denounced those papers which had charged him with trying to sell out to the Standard Oil Company. He then made a strong argument for the bill, of several hours length, but of no avail; he was loud in his threats that if the Senate did not pass the bill the oil counties would secede and defeat the Republican party next fall; there was not a shadow for the use of such extravagant language.

Other Senators spoke for and against the bill. Senator Rutan charged that the oil producers were present in the galleries like a mob, urging the passage of the bill. Senator Emery took exception to the language, when the former said he did not say mob, and if he did, he apologized for it. Emery demanded that the record be read; the reporter said he did not have time, and could not keep the proceedings at the same time. The President of the Senate said frankly he had no power to make the reporter read the record, and handed him over to the Senator, who still demanded the reading of the record, and while the roll was being called, during the whole time, in a loud and vociferous voice, demanded the same. The excitement was great, and at times intense, but the end was foreshadowed, and upon the finishing of the roll the vote stood—yeas, 18; nays, 25. Senator Alexander voted for the bill. There was much disappointment and dissatisfaction shown on the part of the friends of the bill, inasmuch as it had passed the House with little or no opposition. They felt pretty confident that it would pass the Senate, and were much chagrined at the defeat. There is a question of the wisdom in the Senate defeating the bill; it would have been better, perhaps, to have allowed it to become a law, although there is good reason to believe that the good contemplated by the bill would never have been reached.

The Senate failed to concur in the resolution to investigate ex-Librarian Stuck, and the Bank-bill Investigation Committee have not had a meeting for sometime, on account of the sickness of Representative Shaw, of Blair, who is chairman.
