SENATOR COOPER estimates that the High License law will yield \$1,500,000 annually to the State Treasury while it will put \$4,500,000 annually into the city and county treasuries.

Remon has had it for some time past that Mr. Collector Dowlin of this Internal Revenue district was to be removed, and another Democrat given the place. This rumor took shape on Saturday last, when a Presidential order was issued breaking Carbon up this district (the 22d) and consolidating parts of it with the 19th and 23d districts. This wipes Mr. Dowlin out, and thus the unpleasantness of a removal is avoided. Mr. Boyle and his friends are being set down upon very heavily by the Administration. This county is placed in the new Pittsburgh district which is to be known as the 23d, while Bedford is transferred to the 9th or Lancaster district. Cambria and Blair remain as heretofore in the 23d district.

The new Congressional apportionment bill which has been signed by the Governor and is therefore the law, is not received with much favor by our Democratic friends, because it gives them but seven certain districts out of the twentyeight. The Democratic vote in the State lays in groups, forming a few compact districts, while the large portion of it is so scattered that it naturally falls into Democratic districts. Gerrymandering is not the order but an incident of the bill. Philadelphia being so divided as to make an unnatural Democratic district, which will return Mr. Samuel J. Randall to Congress, while the Democrtic majority of Favette and Greene is swallowed up by Washington and a portion of Allegheny. Our district, Bedford, Blair, Cambria and Somerset remains as it was, but its numher is changed from Seventeen to Twenty.
