It is the duty of every person who has used Boschee's German Sgrup to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case and we consider it the duty of all Druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Sgrap cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size sold at 75 cents. Sold by all Druggists and Dealers, in the United States and Canada.

For some time past reports of a very unfavorable character have been received from "The High Old Steppers," a branch of the Lime-Kiln Club established at Nashville. The officers and members have been charged with various derelictions, and early in May the president was arrested, convicted and sent up for ninety days for having a bag of meal in his possession which belonged to a grocer half a mile away. He was no sooner incareerated than the lodge passed resoluions that the laws of this country were made by despots, enforced by tyrants, and should be resisted by the bayonet. Its charter was at once demanded by the parent club, and in giving notice that the branch no longer existed, Brother Gardner said: " De High Ole Steppers will step a good bit lower arter dis, an' we shall be keerful how we establish fucher branches in Nashville. told him we were sorry that the high water would keep us from inspecting his tine swamp timber, baving gone there for that purpose. To our surprise he told us that this need not interfere in the least, and that he had an old gray mule that one else, and that we could ride her, and waterbound, we must give her the reins and she would bring us home safe; that that she had on several occasions when these freshets came (the cattle being in the swamps and in great danger of being drowned) sent the mule after them, saying, "Jane, go bring the cows home." The mule, seeming to understand, would at once start for the swamp. The mule has been known to cross a log when it could not be seen, being two or three feet below thes urface. Having done so she would proceed to herd and collect all the cows. After that she would make a loud bray and start for the house. The cattle would follow in single file across this log to their master's house.

Facts That Tell a Sad Story.

Since 1881 the population of Ireland has decreased 8,000, it being considerably under 5,000,000. Ireland has now fewer inhabitants than it had at any time of the Union in 1800. The birth-rate is the lowest in Europe. In twenty-one towns including, Dublin, and in eight counties, he deaths within the quarter exceeded he births, and this during a period when the Registrar General pronounces the health of the people to be on the whole good, and the death rate below the average. Poland has increased in less than twenty years from 5,500,000 to over 7,000,-000, Even Switzerland, half mountain and forest, and with no city as large as Cork has now a larger population per square mile than Ireland. The country fort a larger population than it now contains, and there is no other country in Europe which is not increasing in popu-

lation more or less rapidly. The usual treatment of cutarrh is very insatisfactory, as thousands of despairing patients can testify. On this point a trustworthy medical writer says: "Proper local treatment is positively necessary to success, but many, if not most of the remedies in general use use by physicians afford but temporary benefit. A cure certainly cannot be expected from snuffs, powders, douches and washes." Ely's Cream Balm is a remedy which combines specific curative power with perfect safety and pleasantness to the patient.
