## Why the Treasury Surplus Con-

In view of the facts that the money of the people, which should be employed in rehabilitating the impoverished South and in otherwise adding to the wealth of the people and the power and glory of the country, is pouring into the vanits of the treusury at the rate of more than \$1,000,000 per day ; that there are nome of our bonds that the government can call at its option and my at par, and that there will be none for more than four years, when less than \$250,000,000 will mature ; that there are now on deposit with the United States Treasurer. as security for national bank notes and government deposits about \$80,000,000. or nearly one-third of these bonds : that when these 4) per cents shall have been paid, no further outlet for surplus funds can occur for twenty years, or until the 4 per cente may be paid in 1907 ; that our receipts from internal taxes, as is shown
