

THE CANNIBAL ISLANDS.

The two cannibal islands of the Sandwich group are known by various names. The English, and called them "The Twins," the American sailor calls them "Punch and Judy." They are down on the English sailing charts as two volcanic islands...

learned it. He was an old sailor, blind of one eye, and when he had been brought out he probably expected to find first time what was to follow. Wrenching himself from his hands he seized a war club and laid him with such fury as to hold the crowd at bay for four or five minutes. He had no show, however, and was soon knocked down and dragged off. When the men returned at night I was not so good as in the previous case, and they laid it to the fact that Sam had tasted his blood. It was suggested, therefore, that he be made drunk before he was taken out, and it was that suggestion that saved my life...
