Names of Political Parties.

At the close of the Revolutionary war, there was but one political party in the United States, and that original party was known universally as the "American Whig Party," who had fought the war to a successful issue, and had united to organize and sustain a new constitution and overnment. The war ended in 1781, and for the next five years few changes in polities occurred, but by 1787, the Whigs or National Party, under the leadership of the first President, Washington, Hamilton, and their associates, that party be-But Mr. Marsh was not to be cast aside came known as "Federalists," and all the so easily. Her freezing manners only opponents of the Whigs and their policy united and formed a new party and called themselves "Anti-Federalists."

This Anti-Federalist Party was composed of all who feared the establishment of the new central political power, and these who dreaded the addition of Federal to State taxes, and this party opposed the ratification of the new Constitution, in conventions and outside, with all their power and ability. Alexander Hamilton, the great statesman and financier, holding the leadership of the Federalists, held the control of the government during these trying and troublous

The Anti-Federalist party, early in 1789, changed the party name and called themselves "Republicans," in opposition to the monarchical Federalists, as they were then tauntingly termed by their opponents. In 1789 Thomas Jefferson returnnents. In 1789 Thomas Jefferson returned from France, wholly engrossed and inspired by the scenes and political developments of the French Revolution, and under his influence and leadership, by 1793, the party in opposition to Washington, Hamilton, and the other Federalists, adopted a new name and called themselves the "Democratic Republican themselves the "Democratic Republican themselves the "Democratic Republican to the first of the first o Party." Both parties continued to sustain their respective names until the close of Jefferson's administration, when the Democrats dropped the word Republican from their party name and styled themselves the "Democratic Party," as they have been known ever since that time, and under this name that party elected James Madison President in 1812. After Most DuroMc. the war of 1812 the Federalists gradually faded away and in a few years the party name of Federalists became extinct, but their successors, as opponents of the Democratic party and policy, formed a new political organization and adopted the name of the "Whig Party," the first name of the party afterward called Federalists. Whigs and Democrats were, therefore, the only parties known in the political field when Andrew Jackson was elected President in 1828, and so continued, with

some local and unimportant variations: until 1852, when the great Whig Party,

The passage of the Kansas-Nebraska bill by the Democratic Congress in 1854, quickly and firmly united all opponents of the ruling Democratic slave oligarchy policy into the great "National Republican Party," and the Republican National Convention, in 1856, adopted that name and nominated John C. Fremont for President, and James Buchanan was nominated and elected by the Democrats. In 1860 Abraham Lincoln was elected by the Republicans, which election resulted in the Civil War from 1861 to 1865, during which time patriotism nearly obliterated party lines, and the wardestroyed the slave power, emancipated the slaves and settled forever that great political question that had divided the great parties ever since the origin of the government. The Republican Party retained the political power and control of the National Government for twenty-four years, until 1884, when that party was lefeated by the Democrats, who elected Mr. Cleveland, the present President. Since 1884 both parties have settled into Florence picked up the envelope. It his testimony, which was startling. Queen of Mestanza.

There was collected a crowd of cow sovs and rancheros, and a motely gathering of natives, half-breeds, Castillians and tenderfeet brought together on the Punta de Agua race course to see a dash between the pride of Berendo-Lazy Bill and the pet of the Lower country.

It was my first visit to a New Mexican crarera and I looked with interest at everything, but most of all at the clearoiced, black-eyed, dashing little Tijana who was in among the curveting horses, joking with the cowboys in unmistakable southern English, rattling away to half a dozen Mexicans in their soft, bustard tongue, jingling money, ear-r.ngs, finger-rings and spurs, in a capacious bag in which in the shape of bets lay the trinkets of Glagree and cunningly wrought gold and silver, the treasurer of many a signorita and muchacho who on a race would stake life and liberty and yet be happy if but spared the one and not made to greatly feel the shackles of a self imposed slavery.

The gambling instinct is born in these brown skinned people, and the loss of all is compensated by the fierce delirium of delight in risking. The horses were called, the starter-the padre-had given the "go," Lazy Bill came forging down the track laid out and made famous by Billy the Kid, and Lincoln's little brown mare lost \$3,000 for her losers that day. I was so intent watching the wonder-

ful woman who was at the finish, and "That is Mrs. Miller, the queen of Mes-

tanza," I was informed, "the best horsebreaker on the plain, the best all-night dancer, the best cook, and one of the very best women you ever saw. She can rope a yearling, can go into the branding pen and work alongside the boys; she can take care of and break any colt Miller's got, and she can tog out to beat anybody in these parts.
