I have never met with any one who entered into games with as much spirit and hoisterous glee ; the simplest of them he contrived to make amusing, and often instructive. His fun was most infectious, and he had three able partisans in his brothers and Mr. Milton, and under the incentive of his prompting they became irresistibly comic. Under their manipulation "Vingt-et-un," "Loo," etc., became so totally altered as to be scarcely recognizable, and generally ended in unblushing cheating and consequent uproar. heap and distributed honestly at the end We went one evening in "the whole strength of the company," to spend a few hours at the Tivoli Gardens, a place purporting to be Vauxhall on a small scale. Some respectable people were dancing in a part set aside for that purpose, and we young ones were seized with the desire to get up a quadrille among ourselves. As no one knew us we decided on enjoying ourselves, with the exception of Dickens, ers who were of her own mind. Then She Portugese. She wore sandaled shoon and frilled pantalets, and looked as if she had been purposely got up for the part of Morleena. While Dickens was gazing in amusement at the resemblance, a man came close to him and stared with rude recognition into his face. Dickens moved away, but his tormentor, in no wise discouraged, followed him, wide eyed and wide cared, impudently determined to pick up any "unconsidered trifles" in the way of remarks by Boz. At last Dickens waxed wroth and turned on him suddenly, lifting his hat with elaborate politeness. "Pray, sir, may I ask, are you a native of this place " "No-no-sir, I am not !" stammered

The highest temperature in June in seventee years was 94 degrees on the 30th, in 1872 and the lowest was 10 degrees on June 10, 1878. To-day it was 96 degrees, with the probabiliy of it going to 100 by 3 P. M. What made the heat to-day so intolerable was humidity. The percentage this morning was \$1. It ought to be 45 in order to counteract the effects. At I r. M. one more death and three

more prostrations were reported. The sudden hot spell is playing havoc in the tene ment house districts, and is sending the death rate relatively as high as the mercury goes in the thermometer.

We were strolling along the sands next day, our party increased by the addition of Mr. Fletcher, who had just arrived on a visit to Dickens. He was an excentric man, impulsive and erratic, indeed, most "unexpected" in his behavior. He suddenly ran some yards in front of us, careering along with a frolicsome air, and indulging in sundry odd and unaccountable antics, thereby attracting the attention of several passing strangers. They stood still and stared after him. "Ah!" sighed one with profound commiseration, wagging his head mournfully, "how sad"! You see it's quite true. Poor Boz! What a pity to see such a wreck !"

Dickens glared at him and called to his friend. "Halloa, Fletcher, I wish you'd moderate your insane gambolings! There count ourselves lucky if we get off with might mistake you for me."
