Massacre Discovered.

Cancasa, July 17 .- If the four executions last November were supposed to have had a sedative effect on organized anarchism in Chicago, the events of today have disproved it. To-day events the same as those found on Farrel street; occurred which bring the Haymarket massacre with its attending horrid details and its subsequent tragic events again before the public gaza. To-day was revealty as was the dreadful event of the night of May 4, 1836. The public officials

The Empress of Germany.

That the English princes who now occupies the exasted position of Empress of Germany, though adored by her hus. band and the object of the affectionate respect of her late father-in-law, has never been a favorite with her mother-in-law, with the great chancellor, the unprogessive aristocracy of the German court and government and of the German publicwho have judged of her mainly by the opinions they have known to be entertained in regard to her in those exalted circles-has long been no secret to those who have been in a position to see themselves the relative positions of the imperial family of Germany, and to judge by the way in which public opinion is influe need in and by the capital, in this country as in all others. But the reason of the state of sentiment alluded to is not far to seek.
