On Fat Men.

WHOLE NO. 1934.

Why is it that as a rule fat men are so much more amorous than thin men? Is it that they grow fat on the pleasant pasttime of making love, while more intelectual pursuits run to skin and hone? Many fat men are simply rather stopid, good natured and inordinary vain; they are generally the last, and it may be that the pleasant sensation of vanity is good nourishment. But it is suprising how ften, given the opportunity, the talk of fat men runs to flirtation or to food. Of course I don't mean to say that a fat man than that his conversation with a woman the contrary, perhaps, knowing his own weakness, he is more chary of his propos-

Mary Carrett's Business Ability. "Miss Mary Garrett, the daughter of

the founder of the Baltimore and Ohio Railroad system, is an extraordinary woman," suid a gentleman well acquainted with the facts, "and, but that she is a woman, would to-day be president of the road." Miss Garrett has never obtruded her individuality in the management of the great property which her father left at his death, but her influence and capacity have nevertheless been felt and recognized by everyone who has come in contact with the financial management of the Baltimore and Ohio Railroad Company. For many years before her father's death she was his chief assistant. Her love for her father was the ruling passion of her life, and her devotion to him was the admiration of her friends and the despair of those who sought to win her hand in marriage.

Miss Garrett to-day, although few persons know it, controls and manages the General's interest in the Baltimore and Ohio Railroad, and has for some time been the most potential factor in the manipulations of the interests of that great corporation. She is thoroughly acquainted with all the details of the business of the road and its financial status, and has always been looked upon as one of its most anspictous advisers.

Although personally directing the management of a property worth not less always talks of various dishes any more than \$200,000,000 Miss Garrett is almost unknown to business men, because her smally includes an offer of marriage. On fine sense of modesty and true womanly reserve will not permit her to assume an. individual and personal control which als than are his leaner brethern; by the both her capacity for financial affairs and same token he does not openly discourse her direct control of millions of money There is no woman in the United

adviser and his most trusted friend, even above any of the old gentleman's sons. It was in this canacity that she obtained her knowledge of the road and her insight into financial affairs. After the death of her father Miss Garrett's influence over her brother, Robert Garrett, was so marked that it became a matter of current talk in Baltimore. But there were certain theories held by her brothor which even the influence which she held over him could not successfully combut. When the schemes which led to the avocation of the aid of the Drexel synlicate culminated Robert Garrett saw the wisdom of his sister's counsels, which he had failed to follow, and practically surrenslered to her the management of his terest in the road. When he started on is tour around the world his sister followed and overtook him at San Francisco, where he was induced to give her the ontrol of all his interests in the Baltiore and Obio Railroad Company.

Recently, when the syndicate which had belied the Raltimore and Ohio out of the difficulties into which at had unwittingly been plunged, began to happle about the commissions and threatened to place the road in an embarrassing position.
