"Well," said the cheerful voice of Mr. Hapkins, "he'll never open his mouth again," and then he proceeded to measare me for my coffin, for it seemed that I was dead, or they thought so, which was all the same to the greedy pocket of the undertaker. I had heard of undertakers who always whistled joyfully when they got a measure, but I never believed it before. That man actually whistled a subdued dancing tune while he measured

An hour must have rossed, when the door again opened, and two persons came whispering along to where I lay, and the voice of my promised wife fell upon my ears, so pathetically.

"I dread to look at him, Rob. He was frightful in death."

I ground my teeth in imagication, as I remembered how often she had gone into raptures, or pretended to, over my noble brow and expressive mouth, and how she had often declared that if I were taken away from her she would surely pine away and die.

One of them raised the cloth, and I knew they were looking at me. Bob was her second cousin and I knew he was that "other fellow" whom her father had

Kissing as a Fine Art.

It is said that kissing goes by favor. Sometimes it does-very often it does not. There are as many kinds of kisses as there are of strawberries, and like the fruit they dider in size and flavor. Some are delicious, and others are insipid as the fruit that grows by the Dead Sca. I suppose in discussing these little explosives I ought to classify them as we do plants and minerals, but instead of that I shall bunch them and select a few from

the job lot. I may say, by way of a starter, that when kissing came it came to stay, and the old records show that it came very early in mankind. I would not have the cheek to say that when Adam awoke from that sleep when he lost a rib and always be ashamed of him, he looked so beheld beautiful Eve blushing by his side he kissed her, but I will assert that if he bore any resemblance to the males appetite, while Brown, who has a wine of the present day there is no doubt that | cellar, can't take a drop on account of his he tasted her cherry lips. Now, my dear reader, I am not going into any sentimental disquisition on kissing. I don't believe I could if I wished as a general thing can't save a cent, while to. ADMINISTRATOR'S NOTICE.

Wassissrov, July 38 .- Mr. David E. Day. Chief of the Division of Mining Statistics. has submitted a summary of the mineral products of the United States in 1887 in adance of the official report. The total value is \$538,056,345. It shows a wonderful gain over 1886, and is \$100,000,000 greater than the output of 1885. The United States leads the world in the

production of minerals. The principal gains in 1887 were in the production of mealic ores and the fuels necessary for melting them. The production of pig iron alone increased more than \$26,000,000. The high orice of copper caused notable expansion in that industry. The product of coal is the argest ever recorded. Taken as a whole, the report shows great

prosperity for the mining industry. The grand total value of more than half a billion dollars, the report says, resulted not only from an increase in the quantity of minerals mined, but also from a general advance in the prices of metals. It may be several years before this total is exceeded, and the year 1888 will fall considerably below it. Among many reasons for the decrease this year is the decline in railroad building. TERRIBLE are Kidney and Liver diseases, and

when once they have secured a firm hold on the human system there is no time to be lost if life is to bo saved. Many remedies have been tried, but none have been so successful as Ath-le-pho-ros. Many uncollected testimonials have proved that Ath-lo-phe-ros has cared these diseases when physicians and all other remedies had failed. Backache, pain in the side, duliness weariness, and headache, are often symptoms of these fearful diseases. Athlophoros, in connection with Athlophoros Pills, will give speedy relief. If your druggist doesn't keep them, write to
