FOR SHERIFF, SAMUEL J. EYRE, OF HENRIETTA.

FOR JURY DIRECTOR, ALEX. HUNTER, OF SOMERSET.

CONGRESS adjourned Saturday.

Make arrangements to have every Republican at the polls.

The main thing to be done now is to get out the Republican vote.

Why is it that all the electioneering in this country is done from free trade countries?

The laboring masses in the Northern States heretofore considered doubtful are intelligent and can be relied upon to vote for protection.

And thousands of people continue to call on General Harrison with cheering words. But Grover is solely neglected in the White House.

Mark cheered her little lamb. And sent the wool to spin it. Cleveland took the tariff off. And then she had to skin it.

Every Republican, every Prohibitionist and every sincere temperance man in the country should vote for Noah S. Miller and James I. Pugh.

Free trade is the Southern scheme. The free trader would ruin the many in the South, and the welfare of the many has and is being sacrificed for the benefit of a few.

SENATOR SHERMAN says: "I consider it only a question of time until Canada is a part of the United States. Whether it be one year or ten, Canada will undoubtedly be annexed."

Some say there isn't as much enthusiasm among Republicans as four years ago. They ought to remember that it is not enthusiasm, but figures in the count on election night. The moral is apparent.

No dissensions or personal differences must be allowed to interfere with the approach of the solid column that is now marching to the tent of Harrison and Morton and protection all through the North.

The Republican party has raised the nation from bankruptcy to opulence, and secured for our public credit the faith of the financial world. This was done under protection, and Gen. Harrison helped to do it.

CHARLES MCCHEE: Mr. Lincoln used to say: "One war at a time." Some of us Methodists may favor local option, and some oppose it, but there are few of such Church people who favor a third party as a temporary aid to this institution.

There are 30,000 workmen in Indiana, all brought in by the natural gas industry since 1884. It is a large population, and a large proportion of them in turn adopted Hoosier's favorite son as their political champion.

FREE TRADE is an experiment in America. We've tried it and it didn't work. Germany tried it, and it didn't work. Why not be guided by experience? Business men are so guided, and isn't public business to be conducted on business principles?

Few every section of the country comes expressions of approval of General Harrison as a candidate and an statesman. There isn't the slightest indication of Republican defection—not the slightest. Such conditions of things is almost unprecedented.

We are told that the reduction in the Mills bill from 47 to 42 per cent. is a little thing. Does anybody believe the whole Democratic caucus are staked on a little thing? Once in the right direction by popular approval, the party of Mills, Carlisle and Cleveland will take as long a step as they like.

In 1884 Cleveland carried the solid South, 131 votes; together with New York, 35 votes; Connecticut, 6 votes; New Jersey, 4 votes, and Indiana, 15 votes, making a total of 219 votes, to Blaine's total of 182 votes. Had Blaine got New York, or Indiana and Connecticut, or Indiana and New Jersey, he would have been elected.

In General Harrison is elected, business will not only be disturbed, but it will be "announced into new life, because it will know there is nothing in it for work. If Cleveland is elected, business is re-announced, if Cleveland is re-elected, who knows that Mr. Miller will stop with the Mills bill? Better let well enough alone, and save the present tariff by defeating its enemies.

The principal business before the Democratic National Committee at its recent conference appears to have been to figure out how Cleveland can be elected without the vote of New York. They did this by placing Michigan, Illinois and Indiana in the Democratic column. This shows that the Democratic is reduced to desperate straits just now.

CHAMBERLAIN QUAY, of a Republican Congressman, offers a reward of \$25,000 for information leading to the conviction of persons violating the registration law in New York City. Two thousand dollars will be given for their conviction, \$1,000 for the second, \$300 for the third and \$250 for each conviction thereafter until the sum is exhausted.

So far as we have been able to learn, the county ticket is acceptable to all the Republicans of the county. No dissatisfaction has developed itself in any locality. But every Republican should understand in its election from top to bottom, by the largest possible majority. Look to your districts, Committees, and see that matters are put in the best possible shape for getting out the full vote.

THERE is but one sure way for Somerset County to roll up one of its fashionable Republican majorities, and that is to get out the full vote. If the members of the County Committee and other active Republicans will begin to work at the canvass and individual canvass, and urge upon them the importance of a full vote for the National, State and County tickets, our majority will be the largest we have ever given.

A Messenger in the western part of the State has given the third party people something to think about in his reply to a question as to why he should vote the Republican ticket. Four years ago he voted for John, and the third party people representing with him in going back to the Republicans and voting for them. He said he did not intend to vote as he prayed. His answer was: "Yes, I shall vote as I pray, but I don't intend to do anything praying this year."

We publish in another column extracts from a speech delivered by General Harrison at Danville, in the State of Indiana, in November, 1887. This was some six months before his nomination for the Presidency. It shows the kindly memories and patriotic regard he sustains for his surviving comrades; and nothing we can say will add anything to the force, patriotism or beauty of the speech. Let everybody read it, and especially every member of the Grand Army of the Republic.

The Philadelphia Evening Bulletin says: "The belief that Connecticut will reverse the plurality which she gave for Cleveland in 1884 is strengthened by the result of the town elections which were held in that State recently. It appears that the Republicans have not only not lost their hold in the election, but they had lost, but that they have made gains that the general drift of the elections were in their favor. Indeed, there has not been an election of any kind held this year in any part of the country, outside of the South, in which the Republicans have not either held their own or made some advance."

For some time it has been evident that the Democrats had no chance of carrying General Harrison's State by fair means. Their only hope lay in a big corruption. Their plans in this direction are now being carried out. A dispatch from Indianapolis contains the information that the Democratic managers in Indiana have some \$300,000 at their disposal, half of which was forwarded by the National Committee, and they mean to put it to use in the most judicious manner. Their plans in this direction are now being carried out. A dispatch from Indianapolis contains the information that the Democratic managers in Indiana have some \$300,000 at their disposal, half of which was forwarded by the National Committee, and they mean to put it to use in the most judicious manner.

THE Presidential election will occur one week from next Tuesday. The time for work is short. There is danger in over-confidence. The Democrats are not making much noise, but they are working hard. Never before had they so much money or so perfect an organization. Their plans in this direction are now being carried out. have the market to supply, unless wages drop at least one half on this side of the water."

"The tariff is a tax," returned the bold, and fell to consider the matter with some of our countrymen, by every party.

Were the Southern Democrats? From the North against.

A member of the Democratic caucus of this State, as well as the country, have made the claim that the majority of the soldiers of the Union army were members of the Democratic party. The claim is an assumption, based upon no records at all and cannot be proven by any facts. The true facts are that the Union army had six Republican voters to every one Democratic voter in the ranks. The following official list is made from the votes cast by the boys in the field, and it is really the only method to determine the question. These votes were cast under special laws enacted by the State legislatures, and enumeration, of course, only include those who voted in the field. The other States (North) had this privilege of voting in camp been given them would also have shown a large majority of Republican voters. The table is as follows:

REPUBLICAN MAJORITY
