SOMERSET HERALD. ESTABLISHED 1837. VOL. XXXVII. NO. 44. SOMERSET, PA., WEDNESDAY, APRIL 24, 1889. WHOLE NO. 1971.

TWENTY-ONE.

Any to him. If woman's influence could have saved him, he would have been saved. I have seen her home taken from her.

MARGARET'S LOVER.

"I will not be untrue," she said, and her dark eyes flashed. "I love you, but I shall not marry you."

RAT AND MOCKING BIRD.

A Louisville special to the New York Herald says: "The L. L. Bird of the West, a mocking bird, a species remarkable for its mimicry."

EARLY TOMATOES.

Here is a point for tomato raisers. At the New York Agricultural Station experiments made in growing tomatoes without transplanting proved very successful.

RATS AND LEAD PIPE.

I was talking to a well known plumber a few days ago and he surprised me by saying there was a fortune awaiting the inventive genius who would get up a lead pipe in residences.

GARD OF THANKS.

If the proprietor of Kemp's Balsam could publish a card of thanks, containing expressions of gratitude which would be read to him daily from those who have been cured of severe throat and lung troubles by the use of Kemp's Balsam, it would be a fair-sized book.

THE COST OF OCEAN STEAMSHIPS.

An order for a new ship of the class required to compete in the modern passenger service of the Atlantic is not by any means a matter to be determined on without grave consideration.

FEEDING VALUE OF BUTTERMILK.

While calves should never be given any sour feed, and should be fed only upon sweet skimmed-milk warmed to slightly above the normal temperature.

TWO SPLENDID NUMERATIONS.

The New York Mail and Express says that the appointment of Joel B. Ehrhardt as Collector of this Port is one that could not fail to give much satisfaction.

WOMEN AT WORK.

In the general assumption of occupations by women now going on, although they have been long engaged in the shops and counting-rooms, and occupy various trades, not much has been said of the possibility of their becoming upholsterers.

WASHINGTON'S INAUGURATION CENTENNIAL.

Many people want to know what are to be the features of the coming New York Centennial celebration. The official program has not yet been issued, but the following are the events that it will include.

THE CARE OF THE EYES.

In families where there is much sewing to be done, says a writer in the Boston Herald, it is a good plan to have the eyes of the family examined by a specialist.

THE ROED TO STRINETHORN.

No one wonders now, why York county produces so many great men. Two elderly men were discussing religious topics. The one was a churchman; the other was not so much so.

THE CARE OF THE NAILS.

Very few people know how to properly care for the nails. In cleaning them, a sharp knife ought never to be employed, but between the ends of the nails and the fingers the space should be filled with soap, and then this is removed by brushing with the so-called nail-brush.
