capable of it. As we stated in the announcement of this series, the appearance of the engravings is in chronological order. Specimens of the work of such pre-Raphaelites as Cimabue, Giotto, Spinello, and others have already been shown; and while the reproductions of the paintings of these artists are of the highest value to art-students, the general public will be more interested in the later work. which is to include admirable specimens of the art of Perugino, Leonardo, Titian, Michael Angelo, Raphael, Paul Veronese, Cor reggio, Tintoretto, and many other wellknown names-the masters of the world's art. Leonardo's "Mona Lisa" and "The Jeweler," Titlan's "La Bella." "The Man with the Gloves," and "The Entombment Rembrandt's "Supper at Emmans," Velusquez's " L'Infante Margurite," and A bertinelli's "The Salutation," are among the en-

All of his pictures are engraved directly from the originals.
