

Free Trade and Protectionist's Markets. Says a free trade journal...

The Republican State Convention meets at Harrisburg to-day. The nomination to be made...

During the last fiscal year the National Government collected taxes from banks and bankers amounting to \$26,214, and from liquor dealers \$98,000,000.

The Commissioner of Internal Revenue collected taxes last year on 2,151,215,323 cigarettes. No wonder the country is full of hollow-eyed, spindle-shanked, parchment-colored boys.

Liverpool bought 700,000 barrels of American apples and London 350,000 barrels during the season recently ended. The importation of American apples by the United Kingdom is on a rapid increase.

A contribution of \$10,000 from the generous people of Berlin for the Johnston sufferers, transmitted to Governor Beaver through the German Consul, was another evidence that the sympathy and helplessness aroused by the Connecticut disaster were literally world-wide.

The New York papers are engaged in the pleasing task of estimating how many people will attend the world's fair, which they hope to have held there in 1897. They should recall the celebrated remark of Mrs. Glass for cooking a ham—"First, catch your hare, etc."

John L. Sullivan was arrested in New York last week on a requisition from Governor Lowry, of Mississippi, and taken to that State for trial. Every decent man in the country will hope that he will be held and punished. The brutal business of prize fighting needs to be checked.

It is the same old story. Three weeks ago the Ohio Democrats were going to give Governor Foraker such a thrashing at the polls that he would never be heard of again. Now they are casting about for a candidate for Governor who is willing to shoulder the responsibility of taking the thrashing which they had promised Foraker.

In the four new States the work of getting the Constitutions ready for adoption is being pushed rapidly. The candidates for State offices and Congress are numerous, but it is not safe to predict who will get any of the coveted prizes, as there are so many things entering into the contest that only change calculations at the last moment.

A clerk in the office of Public Printer at Washington, was dismissed last week who had changed his politics with the entrance into power of the two last Presidents. He was evidently acting on the theory of one of his predecessors, who knowingly declared that "it must be a devilish smart administration that could change its politics quicker than he could."

Probably the largest receipt ever given for an amount of money in this country passed from I. N. Hixon, Treasurer of the United States, to H. Hyatt, the ex-United States Treasurer, on Thursday last. The amount of the sum of money was \$77,154,239.45. This sum was received by Mr. Hyatt turned over the office of Treasurer to his successor.

Germany seems to be well satisfied with the effect of her protective tariff. A Government publication states that since the adoption of the tariff in 1883 there has been a general increase in the amount of money in the country, nearly three times in iron and steel, to 29 per cent. France also has never been more prosperous than under the present tariff. This agrees with the effect of the tariff in this country, and yet we are constantly importuned by the Democratic party to abandon the tariff and open our markets for free trade England.

A Denver politician had the prospect before him of the rescue from his grasp of a tough by a gang of like ilk when this, according to the Free Press, happened: "The stalwart form of Evangelist H. Q. Willis appeared on the scene. Will took the situation at a glance, handed his prayer book to a friend, drew up his sleeves, and then jumped into the imminent death breach. He went through the crowd of toughs like a whirlwind, throwing men right and left until he reached the officer's side. With fists clenched, eyes blazing indignation, and face set in determination, the evangelist fixed his voice and said: "The man that dares interfere with this officer in the performance of his duty has got to meet me, do you hear?" Evidently everybody heard, for not a man was made looking toward a rescue, while the officer took his prisoner to a patrol-box and pulled for the wagon. The fellow was taken to the Woodbridge Street Station and locked up on a charge of disturbing the peace. He gave the name of Tom O'Keefe. "I want to shake hands with that man Willis," said Patrolman Corey after the trouble was over, "for there's no doubt he saved my life. That gang would have kicked me to death in order to rescue their friend."

Tax tendency of the Mugwump free traders to side with the English against the interests of their own Government and country on every permissible occasion, is being again exemplified in the Herring Sea contention. An English vessel was discovered pirating on the seal fishery of this country, and was seized and turned over to the jurisdiction of the courts. The Mugwump newspapers, with great alacrity, have taken, as usual, the side of the English against their own government, and are furnishing the Englishmen with arguments against the well defined American claims. They have also assailed the President and Secretary Blaine as if they were the authors of a new and aggressive policy, when in fact they have done nothing but execute a law, passed by a Republican Senate and a Democratic House, and signed by Mr. Cleveland. The law is imperative and the fidelity with which it is being enforced is worthy of all praise instead of censure. Why did a Republican Senate, a Democratic House and a Democratic President agree to the measure but because it was right, and needed, from an American standpoint?

Of course, the whole thing is a matter for adjustment by the two Nations, and we only advert to it as evidence of the hot hands with which the Mugwump free traders take sides with the English against protection to any of our interests and industries.

An Innocent Man Richtiged.

WHEELING, W. Va., August 7.—The arrest of a late hour last night of Harry Seybold, collector of the Bank of Wheeling, on a charge of stealing about \$20,000 from the bank, caused a great sensation here.

The money was taken at different times, and in such a manner that it was not until the money was taken about three months ago, recently Seybold, announced that he had drawn a large sum in the Louisiana lottery. This first aroused suspicion in the minds of the bank officials. They then consulted Captain DeWitt, who worked the case up and found that Seybold had a good deal of money in other Wheeling banks. Among them, an account of about \$15,000 had been opened some time ago at the Bank of the Ohio Valley, in the name of Seybold and H. Seybold, the members of the firm being Harry Seybold and George Henning, a drug clerk.

The arrest of Seybold took place about midnight. He was first charged with the theft of \$2,000, but a little later, questioning by Captain DeWitt, and the information that Henning's evidence had been brought into a different frame of mind, and he confessed all. He turned over \$15,000 in the Bank of the Ohio Valley, and also gave up some stocks and small deposits in other banks.

Harry Seybold told Henning to account for his having the large sum of money, and proposed \$50,000 in the Bank of the Ohio Valley, and he had effected a loan of \$15,000 from Anton Rejman, the well-known brewer, and he gave a note for \$15,000 to make it a partnership deposit that he did not want to know that he had the money. Henning was released on bond, and Seybold was committed to jail.

Henning was an entirely innocent party in the affair and will not be prosecuted. As near as can be ascertained, the total amount of Seybold's stealings, extending over a period of two years, is \$27,500. He simply took the money and very wisely never attempted to cover up his tracks by falsifying the accounts. This afternoon Seybold "loaded over some more property, which with the money recovered and the property secured over this morning, fully covers the amount taken. After this was done, the amount of bail required was reduced from \$15,000 to \$4,000 and this amount being given by his father, the cashier of the bank, and standing in jail, he will be released from jail. He will be placed in custody and act as executive clemency. The statute provides for two to ten years imprisonment.

Many find in the character of his mental capacity somewhat of an excuse for his crime. He says he had a plan to steal the money, but that he was troubled to any extent over the taking of the money, but he was tormented by the thought that it was his job that was making an innocent party suffer. This innocent one was a son of the head of the bank, and he had a right to be satisfied that he was the thief. In order to shield his son, Mr. List, the head of the bank, had charged to his personal account all of Seybold's thefts previous to the taking of the package of \$4,000, rather than have his name connected with the crime. Everyone else supposed, it was his son's crime.

As late as yesterday morning, when Seybold began to be suspicious that he was being closed in on, he said in a private conference with his father, that he would expose the son he was against him he would expose Mr. List and his son, and disgrace the family. This nearly led Seybold out, for Mr. List ordered the \$4,000 to be charged to his account with the other supposed thefts of his son, but his son-in-law flatly refused to consent to signing this release, but through investigation.

To show how bright Seybold is, it may be said that previous to his recent marriage he had devoted attention to a 14-year-old girl, and wanted to marry her, but she was prevented by her father. The girl was the wife of a man on the next Sunday, and married her on the next Sunday.

The search of Seybold's house was a great revelation to the officials of the bank when they visited it in company with two deputy sheriffs and a police officer. The search of the house was made by Dr. William A. Hammond, made public, and while the majority are skeptical, and are making merry about the expense of Brown-Sequard and Hammond, Dr. M. Brown, after he had taken every precaution to insure the safety of the patient, and the patient was taken to the hospital.

Twice Hanged Before Death. LOUISVILLE, Ky., July 31.—Charles Digler, the murderer of two policemen last August, and Harry Smart, murderer of Melrose Green and wife, were hanged at 9:05 this morning at the State Prison, in the presence of a large crowd.

Secures a Convict's Pardon. CHICAGO, Aug. 2.—A dispatch from San Francisco says: Through the efforts of President Harrison's wife, a convict in the San Quentin prison, who was serving a seven-year sentence for forgery, was pardoned this week by Governor Waterman. The man was introduced to the Governor by the wife of the Governor.

Fiemon Starts South. PERRIN, August 1.—Rev. E. F. Pennington, who has been in Perrin, was in South Carolina to plead an indictment for murder, is now on his way South in charge of Deputy Marshal Strom, of Edgefield, South Carolina.

William and the Warships. LOUIS, August 4.—Emperor William, the Prince of Wales and Prime Albert Visier yesterday inspected a number of representative British ships at Portsmouth, after which they returned to the Home House for a family dinner. Emperor William and the Prince of Wales are in the United States.

Death From a Cow's Kick. PORTSMOUTH, Pa., August 4.—Horse Fryer, son of N. E. Fryer, proprietor of the Fryer house, died last afternoon from a kick on the breast by a cow effected nearly six months ago. His case baffled the skill of the physicians. The young man was taken very suddenly and he died and gradually became weaker, suffering little or no pain. To relieve the pain accumulated over his right lung an opening was made, and in the matter discharged were found broad emphysema, seeds from berries, and other matter of a kind which the physician was unable to identify.

An Accomplished Forger. YORK, Pa., August 4.—Frederick Wrecker, a name of this city, is accused of forging the name of Jacob Reichley as a number of notes aggregating, as near as can be ascertained at present, about \$5,000. Several notes amounting to \$1,840 were given to the Western National Bank which on July 18, 1895, is held by the City Bank, one for about \$200 by the York County National Bank, and notes for an unknown amount by the First National Bank. It is reported that Wrecker will turn up to-morrow. Wrecker is a well-known forger, and he has been arrested several times, but he has always escaped.

The Fall Elections. For an "off-year" the elections this fall will be of unusual importance. The four new States, Washington, Montana and the two Dakotas, will all elect Governors and State Legislatures. Massachusetts, Mississippi, New Jersey, Ohio and Virginia will each elect a Governor and State officers. Iowa, a Governor and Lieutenant-Governor; Maryland, Contrilairal and Attorney-General; and New York, State officers, except the Governor and Lieutenant-Governor, and Pennsylvania, State Treasurer.

Daring Train Robbery.

KANSAS CITY, Mo., August 4.—One of the boldest and most daring train robberies ever perpetrated in Missouri occurred on the Washburn train, which left the Union depot at 8:20 o'clock last night. The train, which was loaded with passengers and freight, was stopped by a gang of about a dozen men, who were armed with revolvers and shotguns.

The money was taken at different times, and in such a manner that it was not until the money was taken about three months ago, recently Seybold, announced that he had drawn a large sum in the Louisiana lottery. This first aroused suspicion in the minds of the bank officials. They then consulted Captain DeWitt, who worked the case up and found that Seybold had a good deal of money in other Wheeling banks.

The arrest of Seybold took place about midnight. The Forest Fires in Montana.

HELENA, MONT., Aug. 1.—The forest fires which have been prevailing in Montana for a week show no signs of abatement. From Helena west, nearly to a great black cloud of smoke hangs over the country, and for six days the air has not been seen. Granite Hill, near which no man in Montana is better able to judge, estimates the damage at half a million dollars. At an exchange of views held when the accident occurred, no wonder did the cruiser strike that off his side. In an instant all the water tight compartments were banged tight shut, but before the compartments of the double bottom under the engine room were completely flooded.

The air is like a blast from a furnace. The atmosphere is filled with crisp embers, which have descended like a light fall of snow. It is estimated that a loss in Jefferson county from forest fires so far this season will reach in the neighborhood of \$2,000,000, consisting mainly of common wood cut and prepared for the market, in addition to which an immense amount of standing timber has been destroyed.

The fire is now raging in Boulder Canon, near Berkeley, and has been most destructive of property. The larger part of the cord wood consumed in this blaze was contracted to the Anaconda Smelter. In the neighborhood of the great mining camp of Phillipsburg the damage has been tremendous, while the town of Granite is in imminent danger of being destroyed. The mountains about the city are all ablaze, and the white and black smoke are almost unbearable.

At present the Governor General is in direct communication with the British Government, which favors a cautious policy. The Canadian Government has asked England in plain language to protect their health. The British Government has asked Canada to protect their health. The British Government has asked Canada to protect their health.

Cruiser Boston Disabled.

NEWPORT, R. I., August 4.—The United States Cruiser Boston, the hand-me-down of the French, in the western port of New York harbor, was just evening on a rock on the southern end of Rose Island, in this harbor. The Boston had just completed the last of a series of most important speed and maneuvering trials in Narragansett Bay, and was returning to her anchorage off Great Island when the accident occurred. No wonder did the cruiser strike that off his side. In an instant all the water tight compartments were banged tight shut, but before the compartments of the double bottom under the engine room were completely flooded.

The air is like a blast from a furnace. The atmosphere is filled with crisp embers, which have descended like a light fall of snow. Maistead is Willing.

CINCINNATI, O., Aug. 3.—Mumt Halstead in a speech, referring to his rejection by the Senate as Minister to Germany, he said it was very largely due to a misunderstanding which he was unable at the time to correct, and said that those who voted against him did him a kindness. He had been abroad and accomplished the mission most important to himself—the restoration of his health. He was willing to accept the nomination, and he said that if the Republican Legislature, which he confidently expects to be elected, should choose him he would regard it as a great honor, and would accept the honor.

His health is now improving in Boulder Canon, near Berkeley, and has been most destructive of property. The larger part of the cord wood consumed in this blaze was contracted to the Anaconda Smelter. In the neighborhood of the great mining camp of Phillipsburg the damage has been tremendous, while the town of Granite is in imminent danger of being destroyed. The mountains about the city are all ablaze, and the white and black smoke are almost unbearable.
