REPUBLICAN NOMINATIONS.

STATE.

FOR STATE TREASURER.
HENRY K. BOYER,
OF PHILADELPHIA.

COUNTY.

FOR ASSOCIATE JUDGE,
GEORGE W. PILE,
OF SOMERSET BOROUGH.

FOR DISTRICT ATTORNEY,
LEWIS C. COLBORN,
OF SOMERSET BOROUGH.

FOR POOR HOUSE DIRECTOR,
FREDERICK WELLER,
OF SOMERSET TOWNSHIP.

THE Democratic ex-Secretary, of Montana, is in jail because his accounts won't balance by $4000. Poor fellow! he didn't study arithmetic in his youth.

THE Albany *Times* (Anti-Cleveland Democratic) traces the lineage of the mugwump to the devil, who it says, was a pretty big one "in his earlier and more callow days."

IT has been announced by some of the Democratic papers that Grover Cleveland is to take the stump in Ohio. By all means let him do it. Nothing would please Foraker better than to have a little fun with Grover.

SHARKEY SULLIVAN had no sooner announced his intention to become a Congressional candidate, in a Democratic district, in Boston, than he started on a howling drunken spree, to prove his fitness for the position.

FOUR years ago, York County—this state—borrowed $140,000 to build bridges, and this year it loaned $125,000 for the same purpose; making in five years $265,000 for bridges. We envy the tax-payers of this model Democratic County!

THE Ohio Democrats pay a high compliment to Republican principles, by always nominating for Governor, a man who has made what little reputation he has in the Republican party. Hoadly and Bookwalter were Republicans and so four years ago, was James Campbell, their present candidate.

THEY continue to go on burying men in New York, "accidentally killed by electric wires," but the State authorities and scientists are still in doubt whether it kills dead enough and quick enough for murderers. No man who has ever touched "a live wire" has lived long enough to say yes or no to the question, "Does it hurt?"

CONGRESSMAN BYNUM, of Indiana says that the Democrats will kindly allow the Republicans to organize the House, but they will prevent any "radical legislation." It is very kind of Mr. Bynum and his associates to allow the majority to elect the Speaker, and possibly they may be persuaded, before the session is over, to allow the majority also to pass some laws that are not altogether pleasing to the Democracy.

THE details received of the disastrous floods, in Japan, in August last, show the calamity to have been one of the most terrible in modern history. The loss of life, it is estimated, will not fall short of 15,000 persons, while the destruction of property will amount to many millions of dollars. Our own great calamity in the Conemaugh Valley will help us to form an idea of the desolation and suffering that must have followed such a visitation.

IT is quite probable that the October elections in the new States will add four to the Republicans in the House at Washington; two from South Dakota, one from North Dakota and one from Washington, and that Montana will add one to the Democrats. The House would then stand 168 Republicans and 162 Democrats, and requiring 166 to make a quorum. It should be remembered that no party is in power in the House for partisan work without a full quorum of members present to respond to their names. While the Republican majority is likely to be 6 at the meeting of Congress in December, it must have 166 votes always ready to assure any exercise of party power, such as the election of Speaker or the settlement of contested seats.

DEMOCRATIC journals are in great mental distress because, as they assert, trade is depressed, labor idle and manufacturing industries paralyzed, by means of there being seventy millions of surplus remaining locked up in the National Treasury. Suppose their assertions to be true—which they are not—is not the locked-up surplus a legacy inherited from the late Democratic administration, and has not the Republican party, at every opportunity, done its very best to reduce this surplus by wiping out, in whole or in part, the internal revenue taxes, which take from the pockets of the people, without any requital, one hundred and twenty-five millions per year? Again, and again, the advocates of Protection to our home industries, have labored in Congress to have their tax repealed or reduced, and at every trial have been defeated by the Free Traders. It is therefore as absurd as it is unjust for Democratic journals to curse the present administration on account of the surplus in the Treasury, which was allowed to accumulate during a Democratic administration, and the reduction of which has been prevented by a Democratic majority in Congress.

THE United States Circuit Court has decided that Deputy Marshal Nagle did just what he ought to have done in shooting David S. Terry. Judge Sawyer, who delivered the opinion, puts the conclusion thus: "After mature consideration we have reached the conclusion that the homicide in question was committed by the petitioner while acting in the discharge of the duty imposed upon him by the Constitution and laws of the United States."

The opinion is long and exhaustive. Every point in the case is covered. First the Judge takes up the subject of the jurisdiction of his Court over the proceedings, and shows conclusively that its jurisdiction is perfect. The Constitution of the United States provides for the Supreme Court, and imposes upon the President the duty of seeing that the laws are faithfully executed. It was in the exercise of this power that the President, through the Attorney General, appointed Nagle to protect Judge Field.

As to the second point involved, namely, whether the killing was necessary—that is to say, whether it was reasonably apparent to Nagle's mind that at the time and under the conditions then existing he must kill Terry in order to a full and complete discharge of the duty that had been imposed upon him—the Court is no less positive. In fact Judge Sawyer goes even further when he says: "In his own judgment he acted, under the trying conditions surrounding him, in good faith and with consummate courage, judgment and discretion. The homicide was, in our opinion, clearly justifiable in law, and in the forum of sound, practical sense was commendable."

A SPEEDY ANSWER.

From the Delaware County American.

Hon. William A. Wallace, the chief orator of the recent Democratic State Convention, and the prospective candidate of the faithful for Governor, declared as a preface to his speech that "prostrated business interests and depressed labor confront the people as the melancholy results of six months of Republican rule."

The answer to this demagogueic declaration is found in the announcement by all railroads that they cannot supply the cars for the movement of freights, and that the transportation business, which is an index to almost every variety of trade, was never before as great. This is true, although the mileage of the railroad and their facilities for transportation have greatly increased. If other answer is needed to substantiate the claim to increased prosperity under a Republican National administration, it is found in the current items given below:

August 12th to 17th—Resumption of the puddling mill of J. W. Friend & Co., of Pittsburgh, Pa., after two years of idleness.

Painter & Son's mill, Pittsburgh, goes on double turn.

Increase of wages 8 to 10 per cent. by the Columbia Iron Company, of Lancaster, Pa.

Ella furnace, Middlesex, Pa., goes into blast.

Blair Iron and Coal Company's furnaces, at Hollidaysburg, Pa., go into blast.

Cumberland Iron and Nail Company's works, Brighton, O., resume.

Benwood and Belmont mills, Wheeling, go on double turn.

Connellsville, Pa., coke operators sign new scale of increased wages.

Thirteen hundred journeymen plasterers resume work at advanced wages after strike, in New York.

August 19—Pennsylvania Iron Works, of Lancaster, Pa., resume operations at 10 per cent. advance in wages to puddlers, after five months' idleness.

September 24—Rolling mill, pipe and tube mills, and foundry of the Reading Iron Co., Reading, Pa., resume work after six months' idleness.

McIlvaine's Rolling Mill, Reading, Pa., resumes with an advance of 13 per cent. in puddlers' wages.

Seyfert's puddling mill, Berk's County, Pa., resumes at highest wages for puddlers paid in the Schuylkill Valley.

Pottstown Iron Company's puddlers, of Pottstown, Pa., obtain an advance of 7 per cent in wages.

Glasgow Iron Company's puddlers, Warwick, Pa., got an advance of 7 per cent.

September 3—Stewart Iron Company, of Sharon, Pa., makes an advance of 10 per cent in wages.

The Foreign Market About Worthless to our Farmers.

"No amount of advertising, no proffers of reciprocal trade, no change of fiscal policy can force on Europe another peck of wheat per capita, scarcely another quart, for many years to come, unless unexpected disaster shall befall her crops.

These are words of precious truth and should settle the Tariff question with every farmer in the United States. The National Grange at its annual meeting last year in Topeka adopted a resolution requesting the Commissioner of Agriculture to ascertain "if trade relations with European countries could be established for the disposal of American surplus agricultural products." The very explicit paragraph above quoted is a part of the report of the commissioner, made in compliance with the grange's request. The truthfulness of the entire report will not be questioned when we state that its facts were collected and its deduction drawn by Mr. J. R. Dodge, the well-known statistician of the Department of Agriculture.

Europe is the only foreign buyer of our surplus wheat. Its population is 350,000,000. Its average annual production of wheat and flour is 1,200,000 bushels. It annually purchases from other countries about 144,000,000 bushels. It annually consumes four bushels per head of grain and flour. Of this nearly half a bushel per head is imported. All the Free-Trade lunatics in the United States can't devise a way to make Europe buy five bushels of wheat and flour per head of its population instead of four.

That settles the value of the foreign market, so far as wheat is concerned. The grain cannot be forced on Europe. But the American market can be expanded indefinitely by increasing in the United States the number of the consumers of food, this by increasing the manufacturing population, this by increasing the number and variety of manufactures, and by the increase of immigration to meet the increased demand for mechanical and other labor.—*Press.*

10,000 Japanese Drowned.

SAN FRANCISCO, Sept. 19.—Japanese papers received by the steamship Gaelic place the total number of persons drowned in the floods of August 20, in the city of Wakayamo and in the districts of Minami-Muro, Higashi-Muro, Nishi-Muro and Hidaki at 10,000 and the number of persons receiving relief at 20,424. The river Kinokuni rose from thirteen to eighteen feet above its normal level and the embankments and the village of Iwabashi was washed away. Immediately the village and about forty-eight other hamlets were covered by the raging waters.

On the morning of August 19 an enormous mass of earth fell from the mountain near the village of Tennokawa, stopped the course of the river of the same name, and which, being already greatly swollen, submerged the village and drowned nearly all the inhabitants. A number of the villagers belonging Tsujido to took refuge in their temple, which was on high ground, but when the landslide occurred about fifty persons were buried alive.

It Was a Fake.

BOSTON, September 21.—John L. Sullivan left for New York at 11 o'clock to-night. Before starting he wanted to make a personal explanation in reference to his late position before the public as an alleged applicant for political honors. He declares that he never wrote the letter to the New York *Sun* announcing his candidacy for congressional nomination and when it appeared he looked upon it as a joke until he has seen it has been taken seriously and placed him in a ridiculous position. He will make it his first duty upon reaching the metropolis to cause the *Sun* to make a retraction.

Young Ladies Drowned in a Swollen Stream.

WASHINGTON, Sept. 20.—Wednesday morning, while Mr. David H. Plaster was driving a loaded wagon with a party of five over Beaver Dam Ford, near Purcellville, the stream being swollen, the wagon was swept down and the horses became unmanageable. Miss Susie Cator, of Georgetown, D. C., and Miss Ella Atwell, of Alexandria, Va., became frightened and jumped into the stream both of them being drowned. The other occupants of the wagon reached the bank of the stream in safety.

Two Children Cremated.

CUMBERLAND, Sept. 19.—Sarah Ann Sanders, a half breed, living at Bolling Springs, left her two children, aged 3 and 5 years respectively, while she went away. When she returned home nothing could be found of the children but ashes. It is supposed that they set fire to themselves by playing in an open fire place. Three older children of the woman are now at the residence of Hon. S. Elkins at Deer Park.

Pittsburgh's Exposition Attractions

in the music line are best seen at Mellor & Hoene's stand, but even this display cannot compare with their exhibit in the piano and organ line at their immense establishment at 77 Fifth avenue. They have the Hardman and Krakauer Pianos; Palace, Chase and Cottage Organs, besides other standard makes; the best creations of the piano and organ builders. It is a real treat to see their magnificent warerooms filled with pianos and organs in rare and costly woods. If you visit the great Pittsburgh Exposition stop at Mellor & Hoene's stand, see the superb instruments, hear the sweet music, and then call at their mammoth store, 77 Fifth avenue, where you will be cordially welcomed; if you cannot come, be sure to write for catalogues and full particulars of our easy payment plan—it will pay you, and costs but a cent. Low prices and easy terms prevail. Address Mellor & Hoene, Palace of Music, 77 Fifth avenue, Pittsburgh, Pa.

Fired His House Then Killed Himself.

WATERLOO, Sept. 20.—Yesterday morning the residence of William Pulse, at Cedar Falls, was found to be on fire. The fire was soon extinguished, and upon entering the house the dead body of Mr. Pulse, was found upon the floor, and by his side was a doubled-barreled shot gun with one barrel discharged. The charge had taken effect in his abdomen and probably killed him instantly. It is believed that he set the house on fire and then committed suicide. He was sixty years old, and has had trouble with his family, which culminated recently in their all leaving him.

ADDITIONAL LOCAL.

Mt. Moriah Items.

Mr. Jesse Crist has one of the finest two-year-old colts in this section of the county.

Mr. Jacob Daniels, of Johnstown, is at present making his home with his son, Wm. Daniels, of this place.

Mr. George Muller has been seriously ill for the past week, suffering from a severe attack of cholera morbus.

The boys of the Union Brass Band of this place have again resumed their practice, after their summer vacation.

Miss Catharine Lowman, of this place was married on Sunday evening of last week to a gentleman from Johnstown.

Quite a number of weddings are on the tapis in this neighborhood, and from the busy preparations going on, the happy events are not far distant.

Our farmers have nearly all finished sowing their winter wheat, and some are awaiting a heavy rain, in order that they may be able to finish their plowing and seeding.

Mrs. Rev. A. K. Felton, and daughter, of Phillipsburg, have been visiting friends in this section for the past week. They are most heartily welcomed by all who know them.

There was a visitor of tender years arrived at the house of Ben Stearns on Friday of last week, and Ben says he will keep him until he is old enough to vote the straight Republican ticket.

The buckwheat crop is just about a half one this year, and the Japanese article seems to lead all other brands. Mr. Wm. Daniels is entitled to the credit of introducing this valuable grain into our midst.

While returning from the barn to the house on Friday of last week, Mrs. Jonathan Zimmerman was taken violently ill and had to be assisted to the house, where she has since been confined to her bed.

A very large number of the people of this vicinity attended the funeral of Hon. Wm. S. Morgan, on the 7th inst., and expressions of sincere regret of his death were to be heard on all sides, for he was very popular here.

"Uncle Josh" Carpenter, of Johnstown, whom everybody knows and likes, was here this week, selling his famous liniment. He had a very narrow escape with his life in the Johnstown flood, and lost all his property, the accumulation of a lifetime of hard work. ZERO.

Still Claim the Championship.

EDITOR HERALD:—From reading the articles in your paper, composed by the base ball editor, we have come to the conclusion that they need some corrections. In your issue of August 28th you publish quite a lengthy article parading the greatness of the "Maroons," which is quite natural, they being your home club, and also good ball players; but you should not allow your admiration to run to such a length as to be unable to do justice to other clubs in the county. In your article of the 28th of September you make use of language in substance as follows: "After defeating the Meyersdale club and the Jennertown "Farmers" they (the "Maroons") had to reach beyond the confines of their own county, and pound two victories out of the "Connellsville Greys."

You should remember that only once in the history of the Jennertown club have we been defeated by a club from Somerset, that being on July 4th, 1889. The next game of the series of three was won by us, on August 10th. The third game never was played, not because we did not want to, for we wrote no less than six times to arrange a date upon which to play, but it seemed every day we selected, the "Maroons," for some reason, would be unable to play, so we sent word to them to fix a day.

On Wednesday, the 4th inst., we received a letter from the "Maroons," stating that they would be down upon us on Friday, the 6th. This gave us only one day to prepare the ground, and send word to some of our players, who were away from home, and as the time was entirely too short, we sent them word not to come. Then, on Friday evening, we received word from them that they would be down the next day, Saturday.

On that day we could not play, owing to a previous engagement to furnish music for a harvest-home picnic, but we could not reach them by mail in time to prevent their coming, the time being too short. The "Maroons" accordingly came on Saturday, went out upon our ball grounds, and had some one to call the game in their favor by a score of 9 to 0. Now they claim to be the champions, which we refute, as we are now, and have been for the past four years, the champions of the county, and stand ready to defend our title at any time or place in county.

Excursion Tickets to the State Fair and County Fair at York.

The Pennsylvania State Agricultural Society having joined forces with the York County Agricultural Society, the united bodies will hold a joint exhibition at York, beginning September 30th and continuing until October 5th. The York fair by itself is one of our best exhibitions, and reinforced by that of the State, it will undoubtedly be an extensive and interesting exposition of the products of Pennsylvania.

For the benefit of visitors the Pennsylvania Railroad Company will sell excursion tickets to York, from principal stations, within the State, September 28th to October 5th, valid for return until October 7th, at reduced rates.

T. M. LATIMER,

138 Federal Street, - - Allegheny, Pa.

WHEN YOU GO

To the Great Western Pennsylvania Exposition,

There is a place of special interest that it will pay you to visit, whether you are purchasers or not, that is the great Dry Goods stores of Boggs & Buhl, 115, 117, 119 and 121 Federal street, corner Park Way, Allegheny, Pa.

This establishment is an exposition within itself in its vastness—up stairs and down of these four large stores in one, devoted to the Dry Goods, Cloak and Suit business, and any and everything pertaining thereto, that is necessary to consitute a large and well appointed and representative Dry Goods store of this 19th century. Ladies say that the goods exhibited in their Exposition cases are gems of beauty and superiority. All these goods are taken from the regular stock in their stores, and not imported as "show pieces," or Fabrics for the Exposition. You will readily see that for the departments of the store represented by such goods as these proves conclusively that there have been taste and experience of more than the usual order exercised in the purchase of these rich and elegant Fabrics, as well as in the artistic and able manner of draping, trimming and display to their Exposition cases. The goods are the feature of this exhibit—not the case that contains them. The Ex Ex Bargains offered at Boggs & Buhl's will pay to go hundreds of miles to see, and when you go to the Exposition, visit their mammoth stores in Allegheny. They have for 20 years made specialties of Silks, Dress Goods and Suitings; Velvets, Cloaks, Wrap Suits and Seal Garments—whether it is a Silk Dress, Seal Sacque or Jacket, or a Cashmere Dress, we assure our readers it will be to the interest of their pocket book to go to Boggs & Buhl's, in Allegheny. They have built up their immense business, amount to millions, annually, by selling only the best goods at such low prices—so much less than the average "so called largest and best dry goods stores," that their business grows steadily each successive season. They do one of, if not the largest Mail Order Department business in the country, and you can shop by mail with them, getting goods from them at the same low prices as sold over their counters.

Shade Township Items.

Schools open on the 30th.

Prof. J. S. Koontz retires from the teachers' profession.

The new Republican postmasters are doing first rate.

Some of the Shaders attended the picnic at Lambertsville on Saturday last.

The Hooversville drum corps is practicing hard. The whole valley resounds with music at night.

The Coffee Hill school building—the last of the twelve—is about finished. Now boys and girls you can do some work this winter.

A crop reporter to the *American Rural Home* in last week's issue of that paper endeavored to correct a writer of Shade, and while doing so made several errors himself. For instance, he says: "Springs are nearly all dried up." Water, in this section, has been plenty all summer, and even the latter part of August fewer springs were dry than some other years. He also says, "potatoes are a failure entirely." Here, some farmers have potatoes to sell. On the average, there will be one-fourth of a crop for the county

At a meeting of the township school board, held on Friday September 21st, the following corps of teachers was selected for the ensuing term with the annexed salaries:

Centre—H. J. Zimmerman, $25; McGregor—W. H. Yost, $28; Statler—M. D. Reel, $25; Breastwork—R. P. Lohr, $22; Buckstown—Maggie Wagner, $22; Lambert—D. W. Williamson, $22; Meyers—Eliza Rankin, $22; Specht—Wm. R. Berkebile, $22; Ridge—Ralph Richardson, $22; Oldham—John Johnson, $22; Coffee Hill and Cherry Ridge—vacant. MIKE.

Take Hood's Sarsaparilla 100 Doses One Dollar

The Chief Reason for the marvellous success of Hood's Sarsaparilla is found in the fact that this medicine actually accomplishes all that is claimed for it. Its real merit has won **Merit Wins** a popularity and sale greater than that of any other blood purifier. It cures Scrofula, all Humors, Dyspepsia, etc. Prepared only by C. I. Hood & Co., Lowell, Mass.

Brothersvalley Teachers Selected.

The school board, of Brothersvalley township, met at the Shaffer House, in Berlin, on the 13th, and employed twelve teachers out of the nineteen applicants, for the ensuing term. The following were the fortunate ones: Charles Blough, Sugar Grove; Wm. Stahl, Flickinger; E. S. Forney, Hoover; John Hentz, Factory; Charles Friiz, Cross Road; Sadie Moore, Fairview; P. U. Miller, Pine Hill; Harvey Hay, Hays Mill; Maggie Knepper, Pleasant Valley; L. J. Walker, Plank Road; Flora Turner, Walker; N. B. Walker, Sandy Hollow.

Much credit is due the Board for the intelligent and well qualified teachers they have engaged. The township schools are all furnished with the best improved furniture; the last house being supplied this fall. This demonstrates the fact that old Brothersvalley is making a strong effort to keep up with the times in its schools. The teachers' compensation has been reduced again. This winter they receive $20, $24 and $27 respectively for first class, second class and professional certificates. The schools commenced on the 23d inst. with the exception of the Sugar Grove.

ANSWER TO INQUIRIES.—Hundreds write to me trying to describe their case and ask if I can cure them. the cost, etc., etc.

I must answer—There are hardly two cases alike, or requiring the same treatment, yet 99 out of 100 can be cured or benefited. To treat you without an examination is guessing. You can't afford to guess on your sight or hearing. Symptoms that seem to you harmless, may be most dangerous. Delay blinds more than disease. It will cost you but $1 to $5 for a complete examination, then I can tell you what can and what can not be done, the cost and all about it; you then know what you ought to do. If treatment is taken, the examination fee is credited on its cost. Take advantage of excursion rates during the Exposition. O. W. Sadler M. D., 804 Penn avenue, Pittsburgh, Pa.

GOOD REASON FOR GRATITUDE.

HOW OUR DAUGHTER WAS SAVED TO OUR HOME
CURED OF BRIGHT'S DISEASE.

Our wives and daughters—you have often seen them with pale faces, poor appetite, head and back ache, symptoms common to the sex. Fathers and mothers, lose no time in securing Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y. It promptly and thoroughly restores healthful action to the affected organs, removes impurities from the blood.

— Kidney and Liver Diseases —

that yield to no other medicine, are readily cured by Dr. Kennedy's Favorite Remedy. S. D. Vanbuskirk, Demarest, N. J., says: "My daughter's case will be of interest to all who suffer from any kidney disorder, and especially Bright's Disease. About two years ago she was taken sick with congestion of the kidneys, which developed into Bright's Disease. Her body was swollen to an enormous size, measuring 45 inches around the waist, and 18 inches below the knee. I determined to have her try Dr. Kennedy's Favorite Remedy, which

We Earnestly Recommend.

An improvement was at once perceptible. Gradually the swelling was reduced from 45 to 29 inches. She began to gain strength, and was able to walk without fatigue. We do not know to express our gratitude for this medicine and what it has done for our child. We are truly grateful and are confident the Favorite Remedy will do all that is claimed for it—surely God has blessed it in this case.

DR. KENNEDY'S FAVORITE REMEDY.
