If our average annual temperature were moved up words and language employed."

The Legislature must be taken to have or down 10 degrees", the entire character of meant what they actually expressed, unless our dally life would be revolutionized. The lesson of all that is that very sligh ome manifest incongraity would result from so doing, or unless the context clearly changes in the temperature mak : a great change in our feelings and habits. These shows that such a construction is not the alterations for a month may not be enough eight one.

The best rule, it is said, " Is to abide by to alter by half a degree the average temper the words which the law-makers used, and ature of a year, but, on the unthinking and from these and the object had in view, as- uninformed, they leave the impression that certain the legislative meaning, unless from this time the weather is changing for sure. a view of the whole act the intent appears Just a century ago, in January 1790, Phil to be different from the literal import of adelphia had a month of winter weather ex-"the words and terms of the act."

A careful reading of the statute, with the aged 44 degrees, which is just the average of object of the statute kept in view, leads me this month thus far, and as a large city very conclude that there is neither obscurity slightly raises the temperature, it is likely that January, 1790, with the same reading of por ambiguity in its words and terms.

The plain, reasonable, common ser meaning of the words is not to be lost sight now. A century ago-in that old fashioned her of; and so viewed, it appears to me that the weather to which people are always apwords " on the third Tuesday of February next," pealing-in this month, "boys were often seen swimming in the Delaware and Schuylcontained in an act, approved 16th Feb. rusry, 1589, mems and must be read as the kill," there was thunder and lightning, as third Tweedry of February, 1880, and in an | within the past ten days, and it was not unact free from obscurity or ambiguity, as this til February 7th that cold weather began. This is not the only warm January of the act seems to be, could mean nothing else. first balf of the past 100 years. In 1793 there As I view the statute, the legislative in tent is manifest in the words and terms of was no ice in either river and but one dash the statute, and there can be no reason or of snow in January. In 1802 "the weather

inthority to seek elsewhere for any other was as mild as April," the mercury ran up ntent outside of the statute. to 68 degrees on several days, and the last It may be said that the assessor act, ap- week of January "trees and shrubbery were proved the same day, and on the same sub- in bloom." In 1810 the first three weeks of ject matter of enlarging the term of certain the month had a number of days reaching borough and township officers, mry be refer- 61 degrees in the shade. In 1816 "the sun red to in aid of the interpretation or con- shone every day" and such snow as came struction of the constable act.

This may be so when the act to be con- and shrubbery were begining to put forth strued is couched in words and phrases that their buds " in this month and "the Delaare obscure and ambiguous, and where the wars was as free from ice as in June and not meaning explained in the act called in to aid in the construction.

nothing could be more precise and clear. The words of the constable act are, " en the third Tuesday of February next," a phrase produce buds, and some shrubbery in a garno less precise and clear, when, as is the case, the utterance in both cases was made on the lith of February, 1889.

Being precise and clear, and free from ob- have been 1804, 1874, 1875 and 1888. We submit that these warm tacts shake scurity or ambiguity, there is no recasion formation respecting the manner in which or right to call the one in to aid to construe the force of declarations that winters are warmer than they were. They have not the other.

That the law-makers may have meant the changed. They are just as warm and just as term to commence on the third Tuesday of cold on the average. We need not bother February, 1889, is quite possible, but their about the Gulf Stream or the weather. It is intentions we must discover from the law our memories that are unreliable.

Over a century ago, March 19, 1783, Cowitself, when there is no obscurity or ambiper wrote to his friend Bogert : "The spring the outcome of the trial of Templeton Mer- the language used and the purview of the has come, but not that spring which our poater that theirs as to food and vine, who was charged with assaulting the act a reasonable intent can be discovered. ets have celebrated, " A century heno some other poet will be complaining that T service, it is impossible that ing to the feeling against Mervine the case was The proper course for the citizens is to the winter is cold or warm beyond the habw efficient and as useful as it tried before Judge McClean, of Adams coun-15, at McConnellsburg, and Friday the jury to be sworn and give bond, if any objections as all are now.

...... Installation of Officers.

J. O. Rauch, District Deputy, of the A O. K. of M. C., on the evening of the 4th instant, in the Presbyterian Church, installed the following officers of Castle No. 123, of Jennertown.

After the installation the Sir Knights with their ladies repaired to the hotel where they were to have their hanquet. Upon arriving at the hotel a few minutes were spent in social chat when the announcement of supper brought the Sir Knichts and their ladies to the dining-room, where they were greated with the appearance of fairyland, the walls being handsomely decorated with evergreens, flowers, beautiful mottoes, ect That which most of the eyes dwelled longest on were the two huge tables,

loaded down with the good things of every clime: turkey chicken oysters ties, cake, etc., in unlimited quantities. All the Sir Knights and indies speak loud in words of praise in behalf of Mr. Judy for the excellent variety of good things he had prepared
