The Somerset county delegates to the State convention voted for Wallace.

The Republican party is not leaning on a broken Reed. How occasion develops the man, to be sure!

The manner in which William L. Scott bossed the late Democratic State Convention was a caution to see.

100 years ago people were first introduced into the county, and numbered about 4,000. The family is growing.

Colonel Andrew Stewart, of Fayette county, was last week nominated for Congress by the Republican conference of the Twenty-fourth district.

The campaign will be opened earlier this year than usual. Chairman Andrews proposes opening headquarters in Philadelphia this week.

The Republican ticket is truly a young man's ticket. Delamater is but 41 years of age; Waters is but 39, and Stewart 44.

Up to date the Democrats of this section haven't exhibited much enthusiasm for the nomination of the "old ticket." No man with a chance of political judgment thinks for a moment that it can win.

The Treasury officials estimate that for the month of June the net deficit of the federal government was \$3,000,000, making the total reduction for the fiscal year closing with June 30 \$87,800,000.

The Patterson crowd captured everything in sight at Wallace. It will now be in order for the Wallace men to try in and do some extremely hard work on the ticket. Just keep an eye on them and see how hard they work!

In the Republican opposition to Senator Delamater for Governor continues to be headed by Wharton Barker. It will not be formidable. On election day it will consist solely of Wharton Barker. He never allows any one to agree with him in politics.

Now that the Democratic nomination of Delamater for Governor continues to be headed by Wharton Barker, it will not be formidable. On election day it will consist solely of Wharton Barker. He never allows any one to agree with him in politics.

Large legislative bodies are usually hard to manage. But in the Senate only one of these great measures has been touched, and on that one a minority of Republicans joined with the Democrats for free silver coinage. The tariff bill waits, and the Election bill will be considered and passed. Wallace has reformed its methods that the majority has any power to control business or to reach a vote on any question. But the same wise leadership and patriotic feeling in the Senate may yet enable that body to share with the House the honor of the most useful session on record, and secure final action on all these great measures in record time.

It is interesting to observe how earnestly the opponents of the Republican policy have cheated themselves by false reports about the wishes of Republican members. At the outset it was solemnly predicted that there were a great many Republicans who would never sustain "Speaker" Reed's revolutionary policy; but every one of them voted for the rules as framed. Then for months there were printed almost daily in Free-Trade papers accounts of many Republicans who would never support the McKinley bill, but the "many" dwindled to one. It was the open boast of the free-coinage men in the State that they would beat the tariff bill of the Republican caucus. But they have tried twice and failed. Down to the very close of the voting self-chosen Democrats reckoned upon the support of a score or more Republicans in defeating the Election bill, and they are raging about their disappointment still. Next, the news stories are full about the action of Republicans in the Senate, and by Democrats and Free-Traders are generally believed. But the Republicans of the Nation do not expect to have come for indignation in the conduct of those to whom they have intrusted the grave responsibility and high honor of the Senate. Probably Democratic reports only mean more Democratic self-deception. —N. Y. Tribune.

Thus is what the Philadelphia Evening Telegraph, the Independent Republican paper which supported Patterson so vigorously in 1882, says of the Republican prospect now.

Although the tide is on which in the personal and political character is wholly unassailable, and there is no reason to doubt that it will be the result of the Republican vote of the State. Of course, there is more or less feeling in certain quarters, particularly in the western part of the State, but this will soon pass away. The Republican party in that section is founded on a rock, and cannot be shaken by the Democratic party. Throughout the State the Republican party is in the best possible trim for winning this battle as easily as it did that of '80 or that of '84. The general excitement, and the good feeling at Harrisburg justify this view.

Under Senator Delamater's leadership the people will be able to see the performance of their duty, and with efficient management of the details of the campaign the only question will be the election of the Republican majority. Democratic indications to the contrary notwithstanding, this is a Republican year. The people, therefore, are to be congratulated upon the assurance of a State administration for several years hence, which will be equal to the highest demand in every respect.

PRESS COMMENTS.

From the West Chester Record.
Mr. Patterson is Mr. Cleveland's candidate and represents all that the ex-President signifies.

From the Scranton Republican.
The nomination of Senator Delamater for Governor was the free and untrammeled action of a majority of the 204 delegates to the Republican caucus in the State.

From the Philadelphia Press.
The bill as it passed the House practically endorses the fact that every American voter in a national election shall find the ballot box free, the process peaceful and the result honest. It is proposed to do this by law, and the law proposed will be enforced. Its opponents say it cannot be. The same thing was said with respect to President Lincoln's rebellion. Nearly a quarter of a century of unbroken Republican supremacy and consequent National prosperity and peace have proved that the historic answer to those prophecies of howling partisan claqueurs. The government that cannot enforce the laws passed by a majority of the representatives of the people is indeed feeble and impotent. The opponents of this measure have claimed that the State should perform a great function, but that it has utterly ignored the fact that the States have failed to exercise this power and joined the confederate of minority rule. Every true Republican will rejoice at the action of the House. Great credit is due the cohesiveness of the Republican majority which, in spite of some defection and of assaults within its ranks, was able to carry the day for a free, fair and honest count.

From the Philadelphia Press.
Postmaster and Editor B. F. Meyers, of Harrisburg, that delightful old dandy in the warmest supporters of Senator Wallace, got his second wind and has come out for Patterson. His eloquent editorial silence on the day following the nomination is an indication that a good deal of the harmony in the Democratic party this year will be accompanied with a dash.

From the Greenbush Press.
The peg upon which the Democrats hang their hopes of electing Patterson this fall are about as flimsy as the thousands of klicks and bolts of whom so much was heard before, and immediately after the nomination of Delamater have dwindled to a corporal's guard. Defections from the Republican ranks will be more than offset by the vote of Democrats who will vote for the defeat of the Democrat, Wallace, by refusing to support the mugwump, Patterson.

From the Allentown Tribune.
Our Democratic friends will fight a losing campaign from the start. Their ticket is stronger yesterday than it is today; it is stronger today than it is tomorrow. When they are counted in November it will be discovered that the Republicans of Pennsylvania have pretty generally voted for their own candidates. Much as they respect Mr. Patterson they don't mean to give the old Bourbon Democratic party a new lease of life. The Republican principles still hold, and they will give their ballots to the candidates who represent those principles. That is the situation in a nutshell.

From the Allentown Tribune.
The Republican State Convention did not work at Harrisburg in earnest and with reasonable certainty, for weeks past, Mr. Delamater of Crawford county, was made the nominee on the second ballot. His lead on the first ballot was so marked over Gen. Hastings, his chief competitor, and his speedy nomination was certain and inevitable. Of course the cry is raised, and still kept up, that he was nominated by Quay influences. He has been defeated, and Gen. Hastings or ex-Gov. Stewart nominated by Quay influences would have been the same. His strong plea was, that his section of the State had never had a Governor; and by his pluck and untiring energy, gathered in delegates while his competitors were asleep.

Of course the cry is raised, and still kept up, that he was nominated by Quay influences. He has been defeated, and Gen. Hastings or ex-Gov. Stewart nominated by Quay influences would have been the same. His strong plea was, that his section of the State had never had a Governor; and by his pluck and untiring energy, gathered in delegates while his competitors were asleep.

At Dunbar's Burning Mine.

DUNBAR, Pa., July 2.—The work of smothering or putting out the fire in the Hill Farm mine has commenced. The mine can't be flooded and an effort is being made to smother the flames. It is thought that the fire is now under control. That is to say that the burning portion is well off. By confining it in this manner part of the vein which has been burned will be left in place.

The Crooner's report over the bodies of the men brought out of the mine will be important every held in this district. It will be the aim of the Crooner to try and test the entire work done from the first. What is the number of men who were in the mine at the time of the explosion? How many of the victims of the explosion. Money is needed badly, as there is much suffering.

A telegram to the Pittsburgh Commercial Gazette of this morning from Dunbar says: Dunbar is suffering from the effects of the explosion. The bodies of the men who were killed are being taken out of the mine. Whether alive or dead before his fate was definitely learned today, when the exploring party found flames rising in the place where the explosion occurred. The bodies have not been taken out of the mine. It is thought that the fire is now under control. That is to say that the burning portion is well off. By confining it in this manner part of the vein which has been burned will be left in place.
