In writing up the biography of Mr. Barry, the Democratic candidate for Internal Affairs, it is found that the most important event of his life is the circumstance that he recently drew a \$75,000 prize in the Louisiana lottery.

The Farmers' Alliance has captured the Democratic party of Tennessee body. The Democratic State Convention has been forced to nominate John P. Buchanan, the candidate of the Alliance, for Governor, and the Tennessee Bourbons are a discredited and disgraced lot.

The probabilities are that Somerset and Bedford counties will remain in the same Judicial district for ten years more, as neither county, under the new census, will have sufficient population to entitle it to a separate Judge. Somerset county falls nearly three thousand short of the required 40,000.

The Democrats have been very free in their assertions that were Grant in the Presidential chair he would veto the election bill now before the Senate should it be passed by that body. The Democratic editors are as usual mistaken.

General Grant said at Warren, Ohio, Sept. 25, 1887, that the vote-casting party in this vast Nation, where a Democrat can not cut his ballot and have it counted as cast. No matter what the prominence of the opposite party, he can proclaim his political opinions, even if he is only one among a thousand, without fear and without proscription on account of his opinions.

Patition Has no Show. In 1887 when General Dever and John Stewart, both Republicans, ran for Governor, Patition was elected by over 40,000. Since that the Republican majorities in Pennsylvania have ranged from 17,000 to 81,000, as follows:

Table with columns: Year, Rep. Major, Dem. Major, Margin.

Why the Election Bill Should be Passed. A score of men sit every term in Congress who are kept there by lemp-coums and shoguns, and the instant they hear the suggestion that the election bill should be passed they conduct their business as usual.

Patition vetoed the soldier-benefit bill and on its passage over his veto only three Democrats in the Senate and sixteen in the House stood by him. Soldiers are not likely to forget this.

CHAMBERLAIN will show a great deal more about Pennsylvania politics than he does at present, after the Republican party gets through with him next fall.

WHAT WILL it benefit candidate Patition if he gain one Republican vote and lose two Democratic votes in place of it? The indications all point to that being about the size of the swap that will be made this fall.

JUROR JOHN STEWART, who led the Independent revolt in this State in 1882, has declared himself for Delamater, Waters and Stewart. In other words, Mr. Stewart will keep his razor in his vest pocket this year.

EXCELLENT free traders continue to back up the United States Democracy in their efforts to defeat the McKinley bill. If England could only vote now, as well as furnish the capital to run the next campaign, the prospect for the free traders would be most encouraging.

It has been decided by the Republican Congressional Committee of the Sixth Ohio district to dispense with the formality of a nominating convention, and nominate Major McKinley by acclamation at a mass convention of the district, to be held at Massillon some time in August.

THE entire country will endorse Congress in giving Mrs. Jessie Benton Fremont a pension in accordance with the bill already introduced. The services of her husband to the Nation in exploring the Rocky Mountains and finding a path to the Pacific coast deserve substantial remuneration by such a provision for his widow.

SCORES of reasons are given by the Democratic leaders and press why the Federal Election bill should not pass the Senate and become a law. The real reason, however, why they oppose it is because it provides for a free ballot and fair count for every voter. That is also the reason why the bill should pass.

THE Democratic may call him "Fire Alarm Fodder," but the ex-Governor of Ohio made a speech at Cleveland last week which Republicans everywhere will endorse, especially that part in which he said the people expected the present Senate to fulfill the pledge of the Republican party and give the country fair and honest elections.

TAXPAYER bill just passed by Congress and approved by the President, requires a purchase by the United States Treasury of 4,000,000 ounces of silver per month. As an ounce of silver contains 480 grains, and one pound avoirdupois contains 7,000 grains, the monthly purchase will weigh 154 tons, and would require a close procession of carts, carrying one ton each, about half a mile length, to transport it.

Greatest of Dairy Exhibits.

CHESAPE, Ill., July 17.-The coming World's Fair will undoubtedly have the greatest agricultural exhibit ever presented. That is to say, the exhibit of dairy products.
