Literary Note

A story of unusual power and strange plot will begin in the May Chemopoliten and run three numbers: The story of a man who three times in his life undertakes to paint Jesus. As a young painter full of health and life, full of joy, he puts on his canvas a Greek ideal of strength and beauty. Just as the picture is on the point of completion, he learns to love a beautiful woman, who returns his passion. After weeks at her feet be returns to his studio one day, and is filled with disappointment when he gazes upon the face of the Christ. It is the face of a beautiful heathen god, bearing no impress of that divine love which the painter now knows must belong there. His canvas is arned to the wall, and inspired by love he sets to work upon the image of a new Christ, who would be a God of Love. Again his picture is completed, when the second great hauge comes over his life. She whom he oves turns from him to give her love to the russian officer whose Greek beauty had beg the model for his first picture. Going back to work under the shadow of this deep Johnstown Business Houses, sorrow, he looks upon the face of Christ upon his casel and sees that once more he bas failed. There is the beautiful face irradiating love, but there is not upon it the refining touch of sorrow that must have been in the face of Him who was "a man of sorrows and acquainted with grief." There was this wanting. He must set to work again, and paint not only the beauty of the Divine Perfection, and the love that embraced all mankind, but the sorrow of the Man God who suffered for our sins. The author, Hjalmer Hjorth Boyesen, thinks he has given the best work of his life in this singular story. Two other pieces of fiction will attract attention & the May number of the Composition; two real war stories, by men who have been in the thick of the fight. One

is by Archibeld Forbes, the famous war correspondent, and the other by Albion W Tourgee, author of "The Fool's Errand." The illustrations of all three are something unusual. Boyesen's story, illustrated by Wenzell, so well known through the pages of "Life"; Farbes' story by Frederic Villers, another famous war correspondent and artist, and Tourgee's story by Zorgbaum. In addition to its strong fiction, this number contains a beautifully Illustrated article on the Cleopatras of the Stage; another on New Philadelphia, for which the drawings were made by Harry Fenn. Some wonderful flash light photographs illustrate the underground workings of a Leadville Silver Mine.
