

EDWARD SCULL, Editor and Proprietor. WEDNESDAY, MAY 13, 1891.

A material increase in the volume of silver... President Harrison who earnestly and courageously espoused the cause of the McKinley bill.

The Democratic caucus in Florida is still balloting for United States Senator, and is no nearer a nomination than it was a month since.

We believe the Democratic party in the United States has no need of a Treasury, at all, because of its lack of funds.

The Connecticut Democrats have claimed that Morris, their candidate for Governor, had a majority of 26 on the face of the returns.

The free traders are laying plans to secure a solid Pennsylvania delegation to the Democratic National Convention of next year for Cleveland.

It is the belief of the direct tax friends in the United States, amounting to \$12,500,000, has been paid, and the Governor recommends that it be turned into the sinking fund for the payment of the State debt.

In the Bedford correspondent of the Pittsburgh Dispatch adhered to the truth, there is a red-hot ally on hand, there is the Republican candidate for Judge at the coming election.

The Democratic candidates for Speaker of the next House are acting on the edge that the early bird catches the worm.

The Supreme Court of Nebraska has decided that James E. Boyd, who was elected by the Democrats as Governor of that State, is not a citizen of the United States, and therefore cannot hold the office of the duties which he has been discharging since January last.

The long-delayed report of the Grand Jury at New Orleans has at last been made, and it is nothing less than an attempt to justify the mob of citizens that in March last murdered a number of prisoners then in the jail, who had been acquitted in court of the crimes charged against them.

Chiliana's Well Laid Plans

Six Days, Oct. 7-13. The Times published the fact yesterday that the Chilean steamer Tia Juana had been seized for a violation of the neutrality laws by United States Marshal Gard upon instructions from the State Department.

The launch Tia Juana, in which Marshal Gard and party were steaming for Point Lons, where the Robert and Minnie was supposed to be, had hardly got out of sight, when the Captain of the Itata was rowed out to his steamer by eight stalwart Chileans.

Just after midnight this morning Marshal Gard's party returned from outside and reported that the Robert and Minnie had completely disappeared. The deputy marshal who had been placed on a small boat at the entrance to the harbor to watch for developments, reported that when the Itata started out Tia Juana was sandwiched between two armed Chileans, while four cannon gunned both bow and stern.

It is now reported that the Robert and Minnie were in Mexican waters, and the Marshal returned to San Francisco for further instructions. It is now evident that the Chileans had laid their plans well, and they were carried out to the letter, regardless of the interference of the United States authorities.

Kane Oil Fields Burning.

BRIDGEPORT, Pa., May 10.—A special from Kane, Pa., says that since 3 o'clock this afternoon a destructive fire has been eating its way through the Kane oil fields.

The fire, which is burning in the northern half of the producing territory, C. W. Schofield and Koester's property on 106 acres is entirely consumed, and the oil wells on the Brown lease, 136 rigs, two thirds of J. Cappa's lease, owned by Fred and John, is in flames.

Another furious fire is burning on Porter pump station from the north and north-west. Hundreds of men are in different parts of the field fighting the fire. A high wind makes their efforts futile.

The village of West Kane is threatened with destruction. The fire is burning in the northern half of the producing territory, C. W. Schofield and Koester's property on 106 acres is entirely consumed.

Another furious fire is burning on Porter pump station from the north and north-west. Hundreds of men are in different parts of the field fighting the fire. A high wind makes their efforts futile.

Scrofula

It is more especially than any other hereditary disease, and for this simple reason: Arising from impure and insufficient blood, the disease causes itself in the lymphatics, which are composed of white corpuscles, there is a kind of fatal life when the whole body collects.

Another furious fire is burning on Porter pump station from the north and north-west. Hundreds of men are in different parts of the field fighting the fire. A high wind makes their efforts futile.

The village of West Kane is threatened with destruction. The fire is burning in the northern half of the producing territory, C. W. Schofield and Koester's property on 106 acres is entirely consumed.

1891. WOODS TREMENDOUS CUTS

To speed the parting with this season's goods, we cut to cost and down below! 'Tis better now to sell at less than not to sell at all! The money-making season is over! But still there are piles of goods!
