## HYDROPHOBIA A FAKE.

80 SAYS SUPERINTENDENT HAN-KINSON, OF THE A. S. P. C. T. A.

He Knows a Good Deal About Dors and Doesn't Believe That Many of Them | other in such a manner that the blade of Go Mad-Hydrophobia Is Imagination. Some of His Experiences With Cases.

"Can a man scare himself to death after having been bitten by a dog which isn't mad?" I asked Superintendent Hankinson, of the American Society for the inches square, and subjected to pressure. Prevention of Cruelty to Animals, one day, as he sat in his little office on Twen- are taken out and repacked in the same ty-second street.

looking man with reddish hair, who is being evidently to subject the torquets afraid of nothing and nobody; certainly

not of hydrophobia quacks. "Why, certainly," he said, with de-cision. "That man down in Asbury Park who was bitten by a cat was is subjected to a constant, steady presphobia. He died of nervous prostration | kind. great howl there was about those Now- sary to separate each leaf. ark boys who were bitten by a 'mad dog,' and who were sent over to Pasteur

to be 'cured?" "Why, of course; who doesn't?"

had it. The dogs didn't have it. During that excitement we went to Newark and found a lot of dogs shut up. We to our stables, but the people wouldn't their owners, every one of them. Not one was killed. Not one of them had myth. There isn't any such thing."

A CASE OF IMAGINATION. "Then you don't believe in the existence of such a disease?" I asked, thinking that, as Mr. Hankinson probably knows more about animals than any other man in America, he must be good authority

"No. I don't. There may be such a disease, but I don't believe it. I never to a year. During this time the tobacco Eaw a case or knew of one positively." "How about these doctors who cure tion, which gives the aroma and taste

it?" I asked " They don't cure anything. I asked a man who makes a specialty of treating hydrophobia, as he calls it, if he over saw he could swear. He refused to answer, but he told me this story: "A man came to been bitten by a dog; he feared madness; would produce tobacco with as fine he could not sleep at night and was atraid he was going to die. He begged the doctor to treat him. The doctor said it was too late; the period of inoculation had passed, and it would be no good now. If he had hydrophobia there was

no way to stop it." "The man went away, but came back the next day nearly frantic. He hadn't for instance. He is said to have in one slept a wink and begged the doctor to do of his country palaces a wonderful pa-

## How a King Keeps Cool.

SCOTT'S Although one may not keep cool, it is some satisfaction to read how others manage it. There is the king of Siam,

of the entire system follows the use of Dr. Pierce's Favorite Prescription. It's an invigorating, restorative tonic, soothing cordial and bracing nervine - and a certain remedy for all the functional derangements, painful disorders or chronic weaknesses peculiar to wo-men. It improves digestion, en-riches the blood, dispels aches and

ceration, leucorrhea and kindred ailments, it is a positive specific-a guaranteed one. If it fails to give satisfaction, in any case, the money paid for it is refunded. No other medicine for women is sold on these terms. With an ordinary medicine, it can't be done.

That's the way its makers prove their faith in it. Contains no alcohol to inebriate; no syrup or sugar to derange digestion; a legitimate medicine, not a beverage. Purely vegetable and perfectly harmless in any condition of the system.

mightn't I?"

"Do you feel, Nellie," he went on, hastily swallowing something large and buoyant, "as if you could be a-be asister to me?"

One form of nervons headache which derstood as such, consists of a dull, grinding pain in the back of the head near of the spinal cord enlarge and ramify

the neck, is a sure indication of impaired nervous action, and should be treated

ous trouble produces a violent headache -that is from the medium of the stomach. With many people any deep or sudden emotion, such as grief, fear, or even joy, may partially or entirely paralstomach; there is an utter absence of appetite, and the serious headache which results is simply the indication of the trouble. When it is removed, and the stomach resumes its accustomed action, the headache will disappear.

STONINGTON POINT, CONN., Sept. 9 .- Mrs. lane Hankinson, educated and retined, but an eccentric old lady, lived the life of a recluse near the lighthouse here. She died recently in New York. In an old trunk which she had deposited with Rev. C. J Hill for safe keeping, the executor found a bundle of bank notes amounting to over \$7,000.

In regular malarious localities there is nough of the poison called malaria gener doses, will break the chills every time. In poison to make many people feel indescribably bad without producing regular chills. There will be slight, irregular chilly sensations, with flashes of heat and cold, clammy

we have yet shown. Come, and bring, you

something for him. So the doctor took the man into his operating room and gave him a hypodermic injection of water-just pure Croton water. He went away, slept for the first time in two weeks and came back the next day for more water, and again the next, and was soon perfectly cured. The doctor told me that himself, and he professes to cure hydrophobia. SHE WAS MAD.

"Why," continued Mr. Hankinson, "I've had a woman in hysterics right in that chair you're sitting in because a dog had bitten her. She wanted me to kill the dog. I wouldn't do it. Then she screamed in a terrible way. When she stopped I said to her: 'Madam, you ought to be ashamed of yourself. A woman of your intelligencel You've interrupted the business of the office and drawn a big crowd under the window to listen to your yelling, and all for a whim. Somebody told you you were going to go mad, and now you think you ought to go mad and you'll be mad if you don't go mad. You just go home and say nothing about it and you'll be all right.' And she did it.

"Another woma . brought her boy in. He had been bitten by a mad dog, and she wanted it shot, she said. The boy looked perfectly well. 'Now, look here,' said I, 'you've been talking a good deal to the boy about

this, haven't you? And the neighbors have too? And you've been telling him that he's likely to have hydrophobia, haven't you?" " 'Yes, of course, we've talked about

it,' said she.

"'Exactly,' said I. 'You've been taking the precise course likely to drive him mad or make him think himself so. You have been trying to scare him to death. If he were to go crazy it would be your fault. How is it, bub,' said I, turning to the little fellow. 'You don't expect to go mad, do you?

"No, he didn't think he should, he said. He didn't feel any different. He was a brave little fellow. So I sent them home, too, and that was the last I heard of it. The dog had had a fit, that was all. It's a shame the way people will shoot valuable dogs just for a fit that might easily be cured or avoided."-New York World.

A surgeon reports that a young lady swallowed a hairpin while dressing. Three doctors said it was only imignation on her part. The hairpin was eventually found to have become lodged in the back part of her nose.

It is stated that the flesh of animal killed by electricity is much tenderer than if the animals are killed in the ordinary way. This is especially the case in regard to fowls.
