GOVERNOR CAMPBELL, of Ohio, has rather a laborious job on hand, trying to show that the Democratic platform on which he has been placed does not mean what it reads, but something entirely different. There never was a Democratic two ways, and that did not need to be apologized for.

I cannot take part in the Qhio campaign this year for many reasons, which I need not give, but I hope no effort will be spared to elect McKinley. His victory at this time is zery important to the country and to the party. He and Mr. Campbell represent the hongest differences between the two parties. There is no dodging or evasion, and the voter need not be de-rived. The election of McKinley means the policy of protection and honest money. The election of Campbell means fire trade and the corruption of the currency. I believe Ohio will stand by McKinley.
