Whatever view may be taken of these proportions, it may safely be said that its advantages, or the opposite, cannot in of gain what one wouldn't do for love or all cases be predicted without putting it | duty. to the test of actual experiment on the a monthly report of the Kunsas State Board of Agriculture, Mr. M. Mohler, the secretary, recommends the following easy method of determining whether subsoiling does or does not possess, in

The plan proposed is to plow and subsoil two or three strips, about two rods in width, from sixteen to twenty inches deep, across the field selected for the experiment and let the balance of the field be plowed the usual depth, and not subsoiled, and let the surface preparation of both be the same before the planting. Then plant the field across the subsoiled strips so that there can be no difference in the time of planting, and give exactly the same care and treatment to the entire field while the crop is growing. Keep a record and note every ten days the varying conditions of the weather and the differences, if anv, in the growth of the plants, and after harvesting the difference in the yield and quality of grain. In this manner the question of its useconditions may be quite satisfactorily determined.

Road Taxes.

At the meeting of the county commissioners of the State, at Lancaster, the following resolutions were presented:

WHEREAS, The present depressed condition of the farming interests of Pennsylvania is largely caused by the bad condition of the country roads at the time of year when farmers should have said: every convenience for handling farm produce.

Resolved. That the road tax law of Pennsylvania should be so changed as to do away with the present system of working out road taxes, and require all road taxes to be paid in cash to the properly authorized officers.

By a vote of 63 to 40 this was referred to the memorial committee to prepare an act in proper form for the consideration of the Legislature. The following was adopted by a unanimous vote:

Resolved. That the members of the Legislature be urged to repeal the act limiting the duration of the tax lien to two years from the time of the levy or assessment, unless the same be entered on record in the prothonotary's office. The following was referred to the me-

morial committee to frame an act pro viding for the repeal of the law : Resided, that we call upon the next

1873, which was repealed by this act. Ages Made to Order.

A negro said to be 116 years old was buried in New York last week. His wife, said to have been 110, died a few years ago. I have always been suspicious of these stories of negro longevity, says a Barney McCaffrey. Barney traveled exclusively through the South for many years, selling fanning mills. Whenever he met an aged looking darkey he endeavored to make him believe he was

"How old are you, uncle?" he said to a decrepit negro in Nashville. "Deed, suh, I dunno." "Let me feel your pulse, and, laying

his hand on the old man's forhead, he continued: "Do you remember General Jackson 7" "Deed I does, suh." "Well, then, you are 115 years old.

Now, don't forget, uncle-115, remember, and if anybody asks how you know tell him the census told you. I am the United States census, uncle, and I know what I am talking about."

Two years later I satisfied my curiosity by asking uncle how old he was. "I'se a hun'nd an' fifteen, sub," said

he, manifestly proud of it. Barney spent most of his leisure time making this sort of archeolgical remains. and said that not one in 50 of the old negroes knew his age until he had told it to him and stamped it with official authority

ning

One consequence of the short duration of lighting is an apparent diminution of its brilliancy. It has been proved that light can not produce its full effect on the eye until it remains at least as long as one-tenth of a second ; but lightning lasts only the ten-thousandth part of a second, and it follows from this that we see it one bundred thousand times less bright than it really is. When we recollect that

even thus diminished its briffiancy is

such as to cause temperary blindness if

too closely watched, we may feel grateful

that we can not see it in its true vivid-

KENDALL'S SPAVIN CURE. DE. R. J. KENDALL CO.: Gents-I would like to make known to those wh are almost persuased to use Kendall's Spawin Cu the fact that I think it is a most excellent Limmen I have used it on a Blood Spawin. The house went u three legs for three years when I commenced to use your Rendall's Spavin Cure. I used ton box tiles on the horse and have worked him for three years since and has not been lame. Yours brilly,

WM. A. CURI.

GERMANTOWN, N. Y., Nov. 2, 1802. Dr. R. J. KENDALL CO.

Enesturgh Falls, Vr.

Gents: In praise of Kendail's Spavin Cure I will
say, that a year ago I had a valuable youth horse become very lame, book enlarged and swoich. The
horsemen about here (we have no Veterinary Surgeon here; probounced his lameness Blood spavin
or Thoroughpin, they all fold me there was necure for it, he became about useless, and I considered him aimout worthless. A friend told me of
the merits of your Kendail's Spavin Cure, so I
bought a bottle, and I could see very plainly great
improvements immediately from its use, and before
the bottle was used up I was mathfeed that it was improvements immediately from the first was the bottle was used up 1 was nationed that it was doing him a great deal of good. I hought a recond bottle and before it was used up my borse was curred and has been in the team doing heavy work and has been in the team doing heavy work season since last April, showing no more it. I consider your Kendali's Spavin Curr able medicine, and is should be in every
