

REPUBLICAN NOMINATIONS.

STATE. FOR ELECTORS-AT-LARGE. R. F. JONES, WILLIAM WOOD, J. F. DUNLAP, WILLIAM H. SATES.

FOR CONGRESSMEN-AT-LARGE. ALEXANDER McDOWELL, WILLIAM LALLY.

JUDICIARY. FOR JUDGE OF THE SUPREME COURT. JOHN DEAN, of Blair County.

COUNTY. FOR CONGRESS. EDWARD SCULL, of Somerset.

FOR ASSEMBLY. EPHRAIM D. MILLER, of Rockwood.

FOR DISTRICT ATTORNEY. J. A. BERTICK, of Somerset.

FOR POOR DIRECTOR. J. D. WEDDLE, of Somerset township.

The Cleveland boom seems to have been at the knees since "the favorite sons" got their second wind.

About one-third of the vote of Wyoming is cast by the women. There are a few Democrats among them but not many.

"Thompson's Jonah overboard" will be where the fun comes in at the Chicago convention. If Hill is Jonah it will kill the whale, sure pop.

The friends of "the fat prophet" begin to see that they will have a vindictive and malicious opposition in their own party to contend with.

If Uncle Jerry Bink wants to be Vice President he would do well to look after his weather bureau. Corn-planting is near at hand and continued wetness is not desirable.

The trouble with the free silver men is that they are altogether too free. They talk and act as if they regarded the government merely as a bureau for the promotion of speculation in mining stocks.

At the Blair county Republican primary election Saturday the vote for United States Senator resulted: Quay 4,502; Dabell, 1,577; Hon. B. L. Hewitt and Dr. A. S. Stayer were nominated for the Legislature.

A rumor comes from Ohio that Cleveland is to withdraw in favor of ex-Governor Campbell of that State, as he is convinced that Mr. Watterson is right in his judgment that neither Cleveland nor Hill can carry New York. Perhaps the Campbells are coming.

A Democratic Congressman, Mr. Hare, of Ohio, in a printed interview, declares that if President Harrison and Mr. Cleveland are the nominees, Cleveland will lose New York and Harrison will be elected. This is a reasonable conclusion by a Democratic partisan.

It is all very well for the Democrats to talk about removing the bounty from domestic sugar, but they don't dare do it while the South controls the Democratic party in Congress. That bounty benefits Democratic States more than any other and the Democrats will never vote to remove it.

The 237 Democrats in Congress complain that they have been "aided and encouraged by the eighty-seven Republicans" in wasting the people's money in extravagant appropriations. That small Republican minority must exert a remarkable influence over the innocent majority which is three times its size.

The Richmond (Va.) Times, referring to "the enormous amount required for pensions," kindly says: "Relief cannot be expected until both branches of Congress and the President are in Democratic hands." Just read that between the lines and you have the Democratic declaration of policy toward Union soldiers.

While "the Watch-dog of the Treasury," Congressman Holman, had his finger on the spigot his Democratic brethren knuckled in the lead of the barrel, and used good, old-fashioned arguments. They kindly threw a handsome pile into Breer Holman's Indiana district, which will doubtless be soothing in its effects.

"We declare that this tariff is the paramount issue in the Presidential campaign" is the language of the Iowa Democratic Convention, and then they ignore Mr. Cleveland to put up Governor Hoar. This is stealing Mr. Cleveland's thunder, for that was the burden of his campaign in 1888. The Iowa Democrats are unjust and ungrateful.

Let no one believe that the negroes in this country are dying off. They have increased from 4,000,000 in Lincoln's time to 7,000,000 now. Whatever their death rate may be now, it will be improved under better sanitary conditions. The colored man is here to stay. The South can kill him neither by statistics nor shotguns.

The Republican Congressional Campaign Committee is organized and ready for business with Senator Higgins, of Delaware, as chairman and Hon. Edward M. Pierson, of Pennsylvania, as secretary. There will be a great deal of work for this committee, but if it shall follow the energy of its chairman and secretary it will do that work very effectively.

This Democratic Congress is treating the country to an exhibition of plain and fancy Treasury looting such as will greatly simplify the way to Republican victory in November. As the veto of a Republican president stands between the country and the railroad, it is, perhaps, just as well that they should go ahead and show how completely they would empty the Treasury if they had the power.

Senator Dave Hill has sprung another sensational claim in the Democratic camp. He declares that the new appointment should not govern the selection of electors and that the number of delegates to the Chicago convention should therefore be governed by the old appointment. Senator Hill is a very cute politician, but the new appointment will govern the selection of electors this year just as it did in 1872. Hill begins to see that under the new appointment the Democrats have a very slim chance of electing a President in 1892. The increase of population has been in Republican States, and there will be the increase in the electoral vote.

Every Miner Was Killed.

ROBIN, WASH., May 13.—The exact cause of the terrible explosion in the coal mine yesterday, in which thirty-four men perished, will probably never be known, as it is now certain that every man in the mine was killed. The most reasonable theory is that a miner struck a gas pocket or feeder, which suddenly filled the lunge and became ignited by the miner's lamp.

At 3 o'clock afternoon fourteen bodies had been taken out. The work of relief is slow owing to the wrecked condition of the interior of the mine, and possibly forty-eight hours more will elapse before the lowest level is reached.

A rumor is circulation that the slope work has been considered dangerous for three months, but men who have been working steadily say it is not true. Every morning the miner have been inspected by a competent foreman and his report belittled.

Floods in the West.

LAURENS, Kan., May 13.—A heavy rain has been falling for the last twenty-four hours and the city is almost flooded. The Kansas river steadily rises. Large quantities of driftwood and debris lodging against its piers seriously threaten the iron suspension bridge between North and South Lawrence.

The water is too high to run water wheels and all the factories have shut down. The Union Pacific freight depot is in danger of being thrown into the river, as the water has washed away the land which was only a few feet above the level of the river.

At Kansas City, Mo., May 13.—Additional news of the damage by the flood continues to come in. Grand river is reported to be twenty miles wide at its mouth. Nearly all of Saline county is overflowed, fences being all carried away and railroads washed out.

From Arrow Rock, one hundred miles down the river, the news comes of the tearing up of several farm houses. The family of Peter Embury, five in number, living near there, is missing, and all are believed to have been drowned. John Galvin, a railway section boss, was drowned here last night.

Trains Delayed by Caterpillars.

RALEIGH, N. C., May 12.—Caterpillars are so thick in the southern part of the State as to delay trains on the North Carolina Central Railway, just as they did a year ago. The trains have again killed many, but the vast body has marched into Columbus, Bladen and Robeson counties.

Reports to the State Agricultural Department received today say the caterpillars have stripped the forests of all their leaves and are moving slowly westward. So far as reported they have not attacked the crops.

Boy Roasted in a Hoghead.

PENNS GROVE, Pa., May 11.—While playing in a big hoghead filled with straw, the 8-year-old son of John P. Martin received probably fatal injury. The lad set the straw on fire and was roasting alive, as he could not escape, when a young companion pulled him out. The faithful companion was also seriously burned.

Confessed While Asleep.

BRANDFORD, Me., May 12.—George Friend and Milton Everett are in jail charged with the murder of Deputy Sheriff Williams. Both men had been drinking heavily, and in his sleep Everett exclaimed: "Don't shoot him, George, don't shoot him." This was overheard by J. W. Martin, who informed the police, and Everett has confessed.

Spring Fever.

The gradual opening of the budding trees and the shooting upwards of the blades of grass are signs of the advent of spring. The farmer is already at work stimulating the growth of his crop by fertilizers to insure a rich harvest. Nature needs stimulation and why should not man? The system needs building up after the attacks of Grippe and cold, and of all things is pure whiskey.

Max Klein, of Allegheny, Pa., has the endorsement of eminent physicians, certifying to the purity of his famous Sibley Age and Duquesne Rye Whiskies. Sold everywhere at \$1.50 and \$1.25 per full quart.

Six-year-old Penna Eye Whiskies, absolutely pure at \$1.00 per quart or 6 quarts for \$5.00. Send for catalogue and price list of all kinds of liquors to Max Klein, 82 Federal Street, Allegheny, Pa.

Tragic Termination to a Mimic Lynching.

DAWSON, Pa., May 12.—The sensation of being hung was experienced yesterday afternoon by Evan Hamilton, the 3-year-old son of Oscar Hamilton, who lives on State street. The child was nearly strangled, and his neck got such a severe wrench that it will likely ache for days to come.

Evan was playing in the yard with several other children when one of them suggested that they play "lynching." A stout rope was secured. In one end a slipping noose was tied. The other end was thrown across the limb of a tree, and by using a large box to stand upon, the children tied the rope around the limb. The noose hung down just far enough to slip over Evan Hamilton's head when he stood upon the box.

The innocent man was kept until Thursday morning when Sheriff Shumaker and I took him to Dixmont. It required the united strength of five men to put the straight-jacket on him, but he was not struck in the operation.

He was strapped in a chair, both on the crossbar and the main line, and by the time we reached Pittsburgh was so quiet that he was put in a smoking car along with other passengers, to be taken out to the Asylum.

What injuries the man received were given before his arrival at Ebensburg, or after his delivery to the Asylum authorities, as he was never struck a blow while in my care. I also emphatically deny telling Dr. Graham that I was compelled to use a club upon the patient to subvert him.

The inquiry into the death of John McClaren was concluded Saturday and a verdict rendered exonerating Sheriff Shumaker, of Blair county, and also the manager of the Asylum, Dr. W. S. Mason. His death was due to a beating by Charles Topper and James Bunting. Topper testified McClaren had at night broken into the house of Bunting, who is Topper's father-in-law, and demanded to be allowed to marry Bunting's daughter at once. He became violent and tried to make his way to the girl's room. Topper struck him with a potato masher. A struggle ensued and Bunting also used the potato masher upon McClaren.

Action in the matter is left to the Blair county authorities, but it is likely no arrests will be made.

Blair County's Vote.

HOLDINGSBURG, Pa., May 16.—The total vote on the United States Senate election at the Blair county Republican primaries last Saturday night just past as received was 5,550. Quay received 3,202 and Dabell 1,357. At the state election Gregg, the Republican candidate for Auditor General, received 8,700 votes in this county, or only 289 votes more than were cast for Quay and Dabell combined.

In the legislative field H. L. Hewitt and A. S. Strayer will give the nomination on the first ballot. J. Lee Plummer has two-thirds of the delegates for Register and Recorder, and W. S. Hammond will have a majority in the convention for District Attorney. W. W. Yon is in the lead for County Treasurer, with John T. Akers second. The convention will be held here tomorrow.

Another Johnstown Horror.

PORTLAND, Ind., May 16.—The fall of rain has continued for six days almost unintermittently. It is reported that the Celina reservoir, which is now overflowing with 17,000 acre feet of water, and should be let out, will give way and carry destruction to the farmers in upper Wabash Valley, and perhaps cause a heavy loss of life. The conditions exist here for another Johnstown horror, and the water would already be more country and less destructive to life.

Paragon and General.

Rev. Richard S. Smith, of Uniontown, was found dead in bed.

Dr. Leslie K. Keeley, of bichloride of gold fame, will sail for Europe next Wednesday afternoon at 5 o'clock, in the steamer of his care.

A swarm of locusts boarded a passenger train at the Delaware, Lockman and Western railroad at Morrisville, N. J., and held the baggage car against all efforts to dislodge them for over an hour.

After admitting his guilt when accused of embezzling \$2,000, Cashier George H. Gray, of the Fourth National Bank, of Columbus, O., made his escape from the bank and has not since been seen.

The largest log jam ever known in the Northwest, containing over 150,000,000 feet of logs, is threatening to turn the St. Croix River, Wis., into a new channel.

David Holler, a wealthy Newark, O. farmer, shot his wife, barricaded himself in his own house, held 30 men at bay and ended by cutting his throat with a razor.

Grover Cleveland will not be at the World's Fair. A letter from Lakewood, N. J., May 10, to E. C. Culp, expresses the regrets of Mrs. Cleveland and himself that their plans prevent their attendance.

The Grand Castle Knights of the Golden Eagle, in convention at Chambersburg, on Friday, elected F. A. Harris, of Tyrone, Grand Chief, and C. B. Wood, of Philadelphia, Grand Vice Chief.

T. M. Darnell, of Big Stone Gap, Tenn., started his office fire with blasting powder, causing two kegs of powder and a lot of furniture to explode, burning a victim, Zach Wells, to death, and leaving himself in a critical condition.

The payments of sugar bounty under the McKinley act on account of the production for the present fiscal year have been practically completed. The bounty amounted to about \$7,500,000. The estimate for the ensuing fiscal year is \$10,000,000.

A quilt containing 7,000 patches is being completed by Mrs. Ida K. Shadlunger, of Glendale, Buckingham township, Bucks county. This is her tenth quilt in three years, and the total number of patches reaches about 75,000.

Clinton county has an 8-year-old child, one Jacob Deiss, who recently cut sixteen three mile rope twenty-eight feet long, which he cut in three months, and they own one and one-half tons of bark in three weeks walking a distance of three miles every day.

A young man residing near Janestown answered an advertisement which offered to show anyone "how to get rich without work" by sending \$1. He received by return mail a neatly printed card bearing the following language: "Advertise for suckers, same as we do."

The Oage Indians are said to be the richest community in the world. They are but 1,500 in number, but they have \$8,000,000 deposited to their credit in the Treasury in Washington, on which they draw \$100,000 interest every three months, and they own 1,470,000 acres of the best land in Oklahoma. Most of them wear blankets, despite their wealth.

It is announced that Robert Watcher, the present inspector of factories of Pennsylvania, will be a candidate for the Democratic nomination for Congress in the 24th district. Watcher resides at Harrisburg, but claims a residence in Washington county near Monongahela City. This will make trouble for Craig, who expects the nomination from his party.

A horrible accident Friday resulted in the death of Charles Shibley, a sixteen-year-old son of John Shibley, of Springdale, York county. He was riding a horse when the animal became frightened, ran away and threw his rider from his back. The boy's foot caught in the harness and he was dragged here and there over a rough road for a quarter of a mile on a gallop. His neck and both legs were broken.

The sixty-ninth annual session of the Grand Lodge of Odd Fellows convenes in Sunbury, Tuesday, May 17. This will be the largest meeting ever held by this body, as the number attending will be over 1200. Monday, May 16, the thirty-second annual session of the Grand Encampment will convene in that city, and the third State Convention of the Daughters of Rebekah lodges of this State, will also meet there May 17.

Postmaster General Wanamaker has received an unsigned and undated letter commending the facts regarding his escape from the burning of the Government in 1863. "This is the balance of interest I owe of the sum I took from the Government in 1863. I have now paid principal and interest, in all \$17,000. No man has suffered more for the debt than I have, and I now pray the Lord's forgiveness of my sin." Mr. Wanamaker has turned the amount into the Treasury, to the credit of the Consensus Fund.

Without apparent suffering and after a brief illness of only nine months Senator John S. Barlow, Virginia's junior representative in the United States Senate, passed quietly away at his home in Washington at a little after 6 o'clock Saturday morning. His death was very unexpected and a great shock to those who knew him, as he had been always regarded as a man of strong and vigorous health, and had been unusually well and energetic for a person of his years. The Senator retired early Friday night, as usual, and a few minutes after 6 o'clock next morning he awoke back on his bed, and never rose again. It was found by his first physician, Dr. H. H. Burt, who was called by his physician to see him, to be dead.

Death Deaths—Cyclone.

GALESVILLE, Tex., May 16.—A cyclone swept over Taney Valley in Green county, destroying everything in its path. Five people were killed instantly, 10 are dying from their injuries and many more are badly hurt. Hardly a person in the valley escaped. News is heard of a woman on a rough wagon-load of coffee was sent out at night by the courier who brought the news.

From the southern boundary of Oklahoma to this city the land which has been flooded is just beginning to show again. Miles of crops are ruined and 1,700 feet of the Santa Fe road has been washed away.

Mrs. Blaine Denies It.

NEW YORK, May 16.—Mrs. James G. Blaine, who has been in the city for several days visiting her daughter, Mrs. Danmore, says that recent reports of Mr. Blaine's falling health are as unfounded as they are cruel.

"Mr. Blaine," she said to-night, "is in good health and has not for years been in a more beautiful and vigorous condition, physically and mentally, than at present. His long vacation last summer have been cured, and he is taking care of his health and strength, which he used to frequently overtax."

Many Plantations Under Water.

GREENVILLE, Miss., May 16.—The panther flood break over the Arkansas river is 700 feet deep with a volume of water 11 feet deep pouring through. The plantations on both sides of Bayou Mason are under water. The water has already backed 13 miles into the country. The river here is stationary despite the heavy overflow at the break.
