last may often be used interchangeably with | since died. It left the country embroiled in a war the other two, persons of a literary taste brought on by Democratic secessionists must still be interested in a well-grounded rule designed to prevent their indiscriminate employment. Webster tells us that when the relative clause is explanatory or restrictive that may be used-otherwise who 1. "The king that (or who) rules well,

2. "Victoria, who (not that) rules well." the South, but most of which is a burden Observe that in 2 the comma is used. That upon the commercial and industrial inshowing that only part of them escaped, in How does the Republican party go out | which case that may be used instead of who, ernment the best in the world; with gov. help) it would appear that they all made the sentence must stand as it is, -otherwise street and shot him dead. ing to do. Already the Democratic pa- The Republican party came into pow-

vorite of the American people." Finally, to prevent the over-muchness of the rule will permit, especially instead of and died, which unless there is some reason to the contrary. Then again, if that becomes trouble some we can often omit the relative altogether, or as a last resort change the structure of the sentence. It may be asked, if we may omit or change the relative for the sake of eaphony, why we should not be guided by euphony alone in all cases. I think we can all see the advantage of method in our work. Webster is good authority, and it is was won, through the efforts put forth of products than were imported, and of easier to follow a competent guide than to by himself and friends, and under all these 30 per cent. were agricultural. There at least save time by it till we have gained those who profins to be governed by the ear

THE NEW YORK TRIBUNE.

1893.

GREATEST OF REPUBLICAN NEWS-PAPERS.

National in its aims and devoted to American People

The New York Tribune concedes the election of Grover Cleveland, but promises to defend the Republican policy on Finance and Protection, with all the ability it can It was the discontent of the farmers which

cultural communities have stood faithful the Republican party, in a campaign which in other localities the party wes which, in other localities the party went completely to pieces. This year, the Demo-cratic leaders changed their factics and ex-cited discontent among workingmen. They pointed to the higher prices of farm prod-ucts, and assured the workingmen of Norti-ern cities that the British tariff system, (that ern cities that the British tariff system, (that is to say, lessened protection to American Farming and Industry), would lower the prices of food and manufactured products, and the profits of "monopolists" in this country, while at the same time maintaining the wages of labor, those wages being now the highest ever known in the United Country, while at the same time maintaining the wages of labor, those wages being now the highest ever known in the United Country Ry false necleuse. According and a now the nighest ever known in the Cunted States. By false pretense, deception, and a pandering to the lowest passions of unin-formed men in large cities, they have car-ried the country and elected a Democratic

tariff policy of the country, and evade no issue, and conceal no fact, bearing upon the subjects discussed. Their thorough treatment of fundamental principles will aid every reader to a better understanding of profound and important launes.

A page a week will be devoted during 1856 to war stories and news of interest to Union veterans. Old soldiers, who have some experience to tell, which has not yet been printed, are asked to send the story to the the Tribuse for publication.

Farming has now become such an enormous interst in the United States, that there is an imperative necessity for makin: more of a specialty of the business interests of the Farmers of the country at large. Plans have been formed which ought to make the semi-weekly and the weekly Tribune absolutely indiversable.

a large number of entertaining features of general interest will also appear. "How to succeed in life," "Village improvement," special articles by brilliant men and women of high reputation, chess and checkers and a hundred other things which cannot be recited in a brief prospectus, will appear on the Tribune's pages during 1893. The paper will have less politics and more of the thousand and one things which refresh the mind, entertain the imagination and guide the reader in the prosecution of his business and social life.

The Tribune asks for reports as to the operations of Village Improvement Societies.

tions of Village Improvement Societies from those who are acquainted with their

uable features of the Tribune, than there is room for in the weekly. The large type and broad columns of the Tribune make it the ensiest paper to read.

To all who subscribe during 1892 for one year, the paper will be sent free for the banance of this year. Sample copies free, Weekly, \$100; Semi-Weekly, \$200.

Priends of Agriculture, Industry and the Republican party, are invited to make upcluss for this paper in their localities. There are four years of trial, of new experiment, of discussion of great national topics, and of observation of the effects of Democratic supremuscy before the country. The Tribune will lead in the presentation of the Republican view. The friends of the splendid record of the Republican party, can aid in the final triumph of Republican principles by seeing that the people read the Republican side of the story.
